Re: Proposed development to consist of up to 12 wind turbines, 110kV on-site substation and associated connection to the national grid.
Townland of Drehid, Co. Kildare

Dear Sir / Madam,

I have been asked by An Bord Pleanála to refer further to the above-mentioned pre-application consultation request.

Please find enclosed a copy of the written record of the first meeting of the 26th October, 2022.

If you have any queries in relation to the matter please contact the undersigned officer of the Board.

Please quote the above-mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Record of 1st Meeting ABP-314463-22

Case Reference / Description	ABP-314463-22 - Proposed development to consist of up to 12 wind turbines in the townland of Drehid, Co. Kildare		
Case Type	Pre-application consultation		
1st / 2nd / 3rd / 4th Meeting	1 st		
Date	26/10/22	Start Time	11:00 a.m.
Location	Virtually	End Time	11:25 p.m.

Representing An Bord Pleanála		
Staff Members		
Ciara Kellett, Assistant Director of Planning (Chair)		
Anthony Kelly, Planning Inspector		
Eimear Reilly, Executive Officer	e.reilly@pleanala.ie	01-8737184
Representing the Prospective Applicant		
Kevin MacMahon, Senior Project Manager, Statkraft Group		
Jim Hughes, Project Director, Fehily Timoney & Company		
Brian Cronin, Senior Project Environmental Scientist, Fehily Timoney & Company		

Introduction

The Board's representative referred to the letter received from the prospective applicant on the 29th August 2022, requesting pre-application consultation under section 37B of the Planning and Development Act, 2000, as amended and advised the prospective applicant that the instant meeting essentially constituted an information-gathering exercise for the Board; it also invited the prospective applicant to outline the nature of the proposed development and to highlight any matters that it wished to receive advice on from the Board. The Board's representative mentioned the following general procedures in relation to the pre-application consultation process:

- The Board will keep a record of this meeting and any other meetings, if held. Such records will form part of the file which will be made available publicly at the conclusion of the process. The record of the meeting will not be amended by the Board once finalised, but the prospective applicant may submit comments on the record which will form part of the case file.
- The Board will serve notice at the conclusion of the process as to the strategic infrastructure status of the proposed development. It may form a preliminary view at an early stage in the process on the matter.
- A further meeting or meetings may be held in respect of the proposed development.
- Further information may be requested by the Board and public consultations may also be directed by the Board.
- The Board may hold consultations in respect of the proposed development with other bodies.
- The holding of consultations does not prejudice the Board in any way and cannot be relied upon in the formal planning process or in any legal proceedings.

Presentation made by the prospective applicant:

The prospective applicant, North Kildare Wind Farm Limited, is a subsidiary of Statkraft Ireland and is a part of the wider Statkraft Group, and the agent is Fehily Timoney & Company. The prospective applicant gave an overview of the nature and extent of the proposed development which was stated to be a windfarm comprising of 12 no. turbines with a tip height of 169m. Located approximately 2.05km south of Johnstown Bridge and approximately 4.89km east of Carbury, the proposed development is within the townlands of Ballynamullagh, Kilmurry, Coolree, Mulgeeth and Drehid, County Kildare.

In relation to planning history, the prospective applicant noted that permission was previously granted by the Board following an appeal for a wind farm comprising of 12 turbines with a tip height of 169m, turbine foundations and hardstanding areas, new access tracks and upgrading of existing access tracks with an underground grid connection to Dunfieth substation via the L1004 public road (ABP-306500-20), and that this decision is currently subject of a judicial review.

The prospective applicant explained the rationale for the proposed development, stating that having regard to changes in turbine technology and the increased MW output from turbines, it now seeks permission for a 12 turbine development with a maximum export capacity (MEC) of 60MW as opposed to the 49 MW which it could facilitate at the time of submitting the initial application to Kildare County Council.

It was noted that a related pre-application consultation (ABP-311394-21) under Section 182E of the Planning and Development Act, 2000, as amended, has been submitted for a 110kV substation and an on-site 110kV loop-in/loop-out connection to the Kinnegad-Rinawade 110kV overhead line which would supersede the permitted connection to Dunfieth.

The prospective applicant noted that the proposed development would be subject to Environmental Impact Assessment and Appropriate Assessment and that a Natura

Impact Statement and Environmental Impact Assessment Report will be prepared with the application. The existing NIS and EIAR will be updated to reflect changes and basis for the project and will include all pertinent information including up-to-date surveys to cover the overall project area.

The surveys that have been completed are as follows: Breeding Birds and Winter Birds, Lizards, Aquatic Ecology, Terrestrial Habitats, and Bats.

The prospective applicant outlined its opinion that the proposed development is a strategic infrastructure development as its output is in excess of 50MW, contributes to the Climate Action Plan, and, as it would provide clean renewable energy to the region, will displace carbon dioxide and is, therefore, of strategic and national importance.

Discussion:

Following a query from the Board's representatives, the prospective applicant clarified that the instant meeting and pre-application consultation request relates only to the development of the 12 turbines and not to the 110kV substation.

The Board's representatives advised that the prospective applicant address in the application any issues that arose during the previous application and advised that the Department of Defence are consulted prior to application. The prospective applicant replied that it has addressed these issues and concerns.

Following a query from the Board's representatives the applicant confirmed that they intend to submit an application for a specific overall turbine tip height.

The Board's representatives advised that photomontages include views of the proposed development from the nearby villages.

Following a query from the Board's representatives, the prospective applicant stated that the grounds for the judicial review associated with the permitted wind farm were numerous and that a judgement may be made in the next couple of months.

The Board's representatives expressed the opinion that the proposed development would likely constitute strategic infrastructure development due to the reasons noted by the prospective applicant but stated that the determination is ultimately a matter for the Board.

Following a query from the prospective applicant, the Board's representatives advised that other applicants are submitting the entire project under s.37B or submitting both elements separately under s.37B and s.182, and that this is up to the prospective applicant to decide.

Conclusion:

The Board's representatives advised that the record of the instant meeting will issue shortly and that the onus is on the prospective applicant to request closure of the pre-application process or to request a further meeting.

 28/10/22

Kevin MacMahon, Statkraft
Jane O'Connor, Statkraft
Alexander Brem, Statkraft

The meeting commenced at 11.30 a.m.

The Board welcomed the prospective applicant to the meeting and introduced those attending from the Board. The Board mentioned general procedures in relation to the pre-application consultation process as follows:

- The Board will keep a record of this meeting and any other meetings, if held. Such records will form part of the file which will be made available publicly at the conclusion of the process. The record of the meeting will not be amended by the Board once finalised, but the prospective applicant may submit comments on the record which will form part of the case file.
- A further meeting or meetings may be held in respect of the proposed development.
- Further information may be requested by the Board and public consultations may also be directed by the Board.
- The Board may hold consultations in respect of the proposed development with other bodies.
- The holding of consultations does not prejudice the Board in any way and cannot be relied upon in the formal planning process or any legal proceedings.

This pre-application consultation meeting was held in conjunction with pre-application ABP-311394-21 which relates to a substation and grid connection to serve the proposed Drehid Windfarm.

Presentation by the prospective applicant:

The prospective applicant set the context for the subject pre application consultation request. Permission was originally granted by the Board (Ref. ABP-306500-20) for a 12 no. turbine windfarm on foot of a first party appeal against refusal of permission issued by Kildare County Council. The prospective applicant noted that this permission was subsequently quashed on judicial review for reasons relating to the detail of drawings submitted and the implications of the Derryadd judgement. It should be noted that this original application included for a sub station and grid connection.

The applicant gave an update on the proposed development. The Drehid Wind Farm is proposed to be located approximately 2.05km south of Johnstown Bridge and approximately 4.89km east of Carbury in Co. Kildare. The development is proposed to comprise 11 no. Turbines, the design of which has been narrowed down to 2 potential turbine models. Depending on the final turbine model selected the proposed development will have a capacity between 49.5 – 52.8.MW with a tip height of 169 metres. A 110kV onsite substation including control buildings, underground electrical and communications cabling, 2 no. overhead line single circuit strain towers, drainage and sediment controls, temporary site compounds, tree felling, and associated works are also proposed. Alterations to the design and layout of the overall project from the previous pre-application consultation include a reduced number of turbines from 12 no. to 11 no.,the relocation of turbine no. 5, the addition of new access track and the provision of an on site 110kv sub station with loop in connection to the Kinnegad-Rinawade 110kV overhead line .

The prospective applicants highlighted the fact that a separate pre-application consultation under section 182 of the Planning & Development Act, 2000 (as amended), is active for the proposed 110kv substation and loop in loop out connection to the Kinnegad-Rinawade 110kV overhead line, (ABP Ref. 311394-21).

The prospective applicant stated that a Natura Impact Statement (NIS) and Environmental Impact Assessment Report (EIAR) will be submitted with the application. Surveys completed to date include breeding birds and wintering birds, aquatic ecology, terrestrial habitats, and bats. Peat probing has commenced with further such investigations required due to changes to the access tracks which have yet to be finalised.

The rationale behind the proposed development was also presented which included The Climate Action Plan 2023, and how the proposed development has the potential to provide approximately 49.5 – 52.8 MW of renewable electricity which would represent 0.8% of the 6GW national onshore target of 2025.

The prospective applicant stated that they considered that the proposed development was such as to comprise strategic infrastructure on the basis that the development comprised a wind farm development with a total output of greater than 50MW and one that would be of strategic economic importance to the State or region as well as contributing substantially to the fulfilment of objectives contained in the National Planning Framework and regional Planning Guidelines relevant to the area. The fact that the electricity generated by the proposed development could be used outside of the confines of County Kildare was also noted.

Discussion:

The Board's representatives raised the previous application (ABP Ref. 306500-20) which was quashed in a judicial review. This was an application for 12 turbines with an output of below the 50MW threshold which was why it was submitted to the Planning Authority Kildare County Council in the first instance. The revised proposal put forward at the start of this pre application consultation was for 12 turbines with an output of 60MW. As the turbine dimensions in the proposed development are the same as those provided for in the original application clarity was sought on the increase in output. In response, the prospective applicant clarified that the increased output from the development was due to increased efficiency and increased power ratings of the turbines. The prospective applicant also stated that the 2 potential turbine models currently being assessed are 4.5MW and 4.8MW ratings, with technology improving over time.

The Board's representatives noted that the design flexibility legislation provided for under the Planning and Development Maritime and Valuation (Amendment) Act, 2022 has not been commenced for Section 37 projects and advised that if a number of turbine models were to be proposed as part of an application then each turbine model will need to be presented and individually assessed in the application.

The Boards representatives highlighted the fact that as the output of the turbines could range between 49.5 – 52.8MW, the lower level would fall short of the 50MW threshold requirement under the 7th Schedule of the Act, as amended. If a maximum export capacity range was proposed which would sit on both sides of the 50MW threshold it may be difficult to appropriately decide on whether the proposed development would or would not comprise SID.

Therefore, the Boards representatives stated that the proposed development may not be such as to meet the threshold for SID and if the prospective applicant proceeded with the 4.5MW turbines the planning application should be submitted to the planning authority.

The Boards representatives noted that the particular circumstances of this case as they relate to the threshold set out in the Seventh Schedule were unusual and committed to revert to the prospective applicant in the event that they had further comments to make on this issue, (see Note 1 attached to this record).

The Board's representatives noted that there had been a relatively recent application and subsequent permission for a windfarm development very similar to that the subject of this pre application request (Kildare Co. Co. Ref. 18/1534; ABP Ref. 306500). It was advised that all issues arising in the course of the assessment of this previous application be reviewed and assessed.

The prospective applicant stated that the reason for the proposed relocation of the substation from its original position was due to peat stability and peat depth issues. It was stated that the depth of peat at the revised site is approximately 0.5 metres. The Board's representatives specifically highlighted the importance of submitting a comprehensive peat stability report with the application.

The Board's representatives highlighted the recent additions to the Fifth Schedule of the Planning and Development Regulations relating to EIA and rural restructuring.

The prospective applicant was advised to ensure that this new class was considered in the screening assessment particularly with regard to hedgerow removal. The class in the Fifth Schedule to the Regulations relating to private roadways was also highlighted to the prospective applicant.

In response to a question from the Board's representatives, the prospective applicant confirmed that the reason for the reduction in the number of turbines from 12 no. To 11 no. and revisions to access tracks was due to the withdrawal of landowner consent.

In response to a question from the prospective applicant the prospective applicant confirmed the closet residential dwelling will be 589 metres from the nearest turbine.

The Boards representatives noted the adoption of the Kildare County Development Plan, 2023 since the decision on the previous application on the site. In response to a question from the Board's representatives, the prospective applicant stated that all turbines proposed would be located within the area where wind energy development is indicated as being open for consideration in the plan.

Conclusion:

The onus is on the prospective applicant to either request a further meeting or formal closure of the instant pre-application consultation process. The record of the instant meeting will issue in the meantime and the prospective applicant can submit any comments it may have in writing or alternatively bring any comments for discussion at the time of any further meeting.

The meeting concluded at 12:05 a.m.

Stephen Kay

Assistant Director of Planning

Note to Record

With regard to the issue relating to the range of maximum export capacity referenced in the above Record of Meeting and the concerns raised by the Board representatives regarding the SID status of these options, it is considered that the way the application is proposed to be submitted presents a problem for the Board in determining whether the proposal comes within a class of development specified in the Seventh Schedule of the Planning and Development Regulations, 2000 (as amended). Further clarification on this issue in the form of a proposal which clearly meets a class of development in the Seventh Schedule is required from the prospective applicant.

Re: Proposed development to consist of up to 12 no. wind turbines, 110kV on-site substation and associated connection to the national grid.
Townland of Drehid, Co. Kildare.

Dear Sir / Madam,

Please be advised that following consultations under section 37B of the Planning and Development Act, 2000 as amended, the Board hereby serves notice under section 37B(4)(a) that it is of the opinion that the proposed development falls within the scope of paragraphs 37A(2)(a) and (b) of the Act. Accordingly, the Board has decided that the proposed development would be strategic infrastructure within the meaning of section 37A of the Planning and Development Act 2000, as amended. Any application for permission for the proposed development must therefore be made directly to An Bord Pleanála under section 37E of the Act.

Please also be informed that the Board considers that the pre-application consultation process in respect of this proposed development is now closed.

Attached is a list of prescribed bodies to be notified of the application for the proposed development.

- Minister for Housing, Local Government and Heritage
- Minister for Tourism, Culture, Arts, Gaeltacht, Sport and Media
- Minister for Agriculture, Food and the Marine
- Minister for the Environment, Climate and Communications
- Minister for Rural and Community Development
- Kildare County Council

Further notifications should also be made where deemed appropriate.

In accordance with section 146(5) of the Planning and Development Act, 2000 as amended, the Board will make available for inspection and purchase at its offices the documents relating to the decision within 3 working days following its decision. This information is normally made available on the list of decided cases on the website on the Wednesday following the week in which the decision is made.

The following information relates to challenges to the validity of a decision of An Bord Pleanála under the provisions of the Planning and Development Act 2000, as amended.

Judicial review of An Bord Pleanála decisions under the provisions of the Planning and Development Acts (as amended).

A person wishing to challenge the validity of a Board decision may do so by way of judicial review only. Sections 50, 50A and 50B of the Planning and Development Act 2000 (as substituted by section 13 of the Planning and Development (Strategic Infrastructure) Act 2006, as amended/substituted by sections 32 and 33 of the Planning and Development (Amendment) Act 2010 and as amended by sections 20 and 21 of the Environment (Miscellaneous Provisions) Act 2011) contain provisions in relation to challenges to the validity of a decision of the Board.

The validity of a decision taken by the Board may only be questioned by making an application for judicial review under Order 84 of The Rules of the Superior Courts (S.I. No. 15 of 1986). Sub-section 50(7) of the Planning and Development Act 2000 requires that subject to any extension to the time period which may be allowed by the High Court in accordance with subsection 50(8), any application for judicial review must be made within 8 weeks of the decision of the Board. It should be noted that any challenge taken under section 50 may question only the validity of the decision and the Courts do not

adjudicate on the merits of the development from the perspectives of the proper planning and sustainable development of the area and/or effects on the environment. Section 50A states that leave for judicial review shall not be granted unless the Court is satisfied that there are substantial grounds for contending that the decision is invalid or ought to be quashed and that the applicant has a sufficient interest in the matter which is the subject of the application or in cases involving environmental impact assessment is a body complying with specified criteria.

Section 50B contains provisions in relation to the cost of judicial review proceedings in the High Court relating to specified types of development (including proceedings relating to decisions or actions pursuant to a law of the state that gives effect to the public participation and access to justice provisions of Council Directive 85/337/EEC i.e. the EIA Directive and to the provisions of Directive 2001/12/EC i.e. Directive on the assessment of the effects on the environment of certain plans and programmes). The general provision contained in section 50B is that in such cases each party shall bear its own costs. The Court however may award costs against any party in specified circumstances. There is also provision for the Court to award the costs of proceedings or a portion of such costs to an applicant against a respondent or notice party where relief is obtained to the extent that the action or omission of the respondent or notice party contributed to the relief being obtained.

General information on judicial review procedures is contained on the following website, www.citizensinformation.ie.

Disclaimer: The above is intended for information purposes. It does not purport to be a legally binding interpretation of the relevant provisions and it would be advisable for persons contemplating legal action to seek legal advice.

If you have any queries in the meantime, please contact the undersigned officer of the Board or email sids@pleanala.ie quoting the above mentioned An Bord Pleanála reference number in any correspondence with the Board.

Yours faithfully,

Niamh Hickey

Introduction

The Board referred to the letter received from the prospective applicant requesting pre-application consultations and advised the prospective applicant that the instant meeting essentially constituted an information-gathering exercise for the Board; it also invited the prospective applicant to outline the nature of the proposed development and to highlight any matters that it wished to receive from the Board.

The Board mentioned the following general procedures in relation to the pre-application consultation process:

- The Board will keep a record of this meeting and any other meetings, if held. Such records will form part of the file which will be made available publicly at the conclusion of the process. The record of the meeting will not be amended by the Board once finalised, but the prospective applicant may submit comments on the record which will form part of the case file.
- The Board will serve notice at the conclusion of the process as to the strategic infrastructure status of the proposed development. It may form a preliminary view at an early stage in the process on the matter.
- A further meeting or meetings may be held in respect of the proposed development.
- Further information may be requested by the Board and public consultations may also be directed by the Board.
- The Board may hold consultations in respect of the proposed development with other bodies.
- The holding of consultations does not prejudice the Board in any way and cannot be relied upon in the formal planning process or any legal proceedings.

Presentation by the prospective applicant

The proposed development, the subject of this pre-application consultation meeting, is for a 110kV substation and an on-site 110kv loop-in/loop-out connection to the Kinnegad-Rinawade 110kV overhead line to serve permitted development Drehid Wind

Farm. The Board granted permission in September 2020 under ABP-306500-20 (Kildare County Council Reg. Ref: 18/1534) for Drehid Windfarm to include 12 wind turbines with a tip height of 169m, underground grid connection to Dunfieth substation and associated site works.

The prospective applicant advised the rationale for the proposed development is guided by EirGrid as Dunfieth substation is not suitable for a generator connection and would require a complete rebuild of the substation. The prospective applicant stated the proposed development will include the following infrastructure:

- 1 no. 110kV onsite substation including control buildings, underground electrical and communications cabling, 2 no. overhead line single circuit strain towers, drainage and sediment controls, temporary site compounds, tree felling and associated works.
- Approx. 1,200 metres of 110kV double circuit underground electricity cable and two single circuit strain towers to facilitate connection to the existing Kinnegad-Rinawade 110kV overhead line.

A number of drawings were discussed in the presentation provided of the site layout, site location and indicative substation layout. The prospective applicant stated survey work is ongoing and completed in some areas. The prospective applicant advised that it is their intention to include an EIAR and NIS with the application, using the information previously gathered for the application for Drehid Wind Farm.

In conclusion to the presentation, the prospective applicant stated that the current proposed development will form part of the transmission network. The prospective applicant stated it is their opinion the proposed development should be considered a strategic infrastructure development.

Discussion

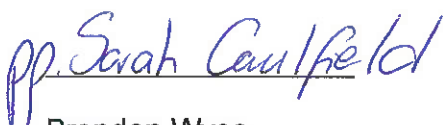

The following matters were discussed as part of the meeting:

- The Board's representatives advised it is their preliminary view that the proposed development would constitute a strategic infrastructure development but that it is ultimately for the Board to make a determination on the matter.
- The Board's representatives noted the proposed substation is to be located in the townland of Killyon and advised the prospective applicant to clarify the townlands affected by the proposed development.
- In response to the Board's representatives' query, the prospective applicant confirmed that no direct planning application has been made to Kildare County Council for the alternative connection proposal, which was previously determined by the Board not to be Strategic Infrastructure Development (ABP-308828-21). The prospective applicant also advised that the High Court challenge to Drehid Wind Farm is still before the courts.
- The Board's representatives noted the planning history of the area and advised the prospective applicant to consider the adequacy of the local road network for access during construction, residential amenity of dwellings to the north and east of the site, construction traffic, ecology and biodiversity of protected species located within 1km of the site. The prospective applicant stated it would have a good understanding of the local biodiversity from baseline surveys of the habitats that have been undertaken.
- The Board's representatives further stated that due consideration in the NIS should be given to the in-combination effects of the permitted solar farm and wind farm in the area.
- The Board's representatives noted the proximity of national monuments to the north of the site and the possible presence of a pathway through the substation site, as shown in historic mapping. The prospective applicant advised that this should be reflected in any cultural heritage assessment.

- The prospective applicant in response to the Board's representatives' query advised they have been in discussions with EirGrid throughout the process and it is not confirmed yet if the substation will become an EirGrid asset.
- The Board's representatives noted if the prospective applicant intends to submit an EIAR that it should be very focused on the assessment of the proposed development. There should be no doubt or possibility that the permitted development for Drehid Wind Farm is being revisited.

Conclusion

The record of the meeting will issue to the prospective applicant, and it will be a matter for the prospective applicant to submit any comments on this if it wishes to do so. Following this, the prospective applicant should seek a second meeting with the Board or request closure to the pre-application process in writing. If closure to the pre-application is requested, the reporting inspector will complete the report and recommendation which will be forwarded to the Board for determination. A copy of the procedures will be attached, and the decision will then issue to the prospective applicant.

Lauren Griffin, Executive Officer
Breda Ingle, Executive Officer
Representing the Prospective Applicant
Brian Cronin, FTCO
Rita Mansfield, FTCO

Kevin MacMahon, Statkraft
Jane O' Connor, Statkraft
Alexander Brem, Statkraft

The meeting commenced at 11.00 a.m.

The Board welcomed the prospective applicant to the meeting and introduced those attending from the Board. The Board mentioned general procedures in relation to the pre-application consultation process as follows:

- The Board will keep a record of this meeting and any other meetings, if held. Such records will form part of the file which will be made available publicly at the conclusion of the process. The record of the meeting will not be amended by the Board once finalised, but the prospective applicant may submit comments on the record which will form part of the case file.
- A further meeting or meetings may be held in respect of the proposed development.
- Further information may be requested by the Board and public consultations may also be directed by the Board.
- The Board may hold consultations in respect of the proposed development with other bodies.
- The holding of consultations does not prejudice the Board in any way and cannot be relied upon in the formal planning process or any legal proceedings.

Presentation by the prospective applicant:

The prospective applicant gave an update on the proposed development and noted that this meeting is being held in conjunction with pre-application consultation 314463-22, for Drehid Wind Farm.. The proposed location is approximately 2.05km south of Johnstown Bridge, and approximately 4.89km to the east of Carbury in Co. Kildare. The rationale for the proposed substation is based on the unsuitability of other substations, including the Dunferth Substation, and the fact that there is no additional capacity on the Derryiron-Maynooth 110kV overhead line. Based on this, the proposed applicant is now seeking permission for a 110kV substation and an on-site 110kV loop-in/loop-out connection to the Kinnegad-Rinawade 110kV overhead line.

Following alterations to the design of the proposed wind farm development, the number of turbines has decreased from 12 to 11, turbine no. 5 has been relocated, and amendments are proposed to the access track (see Record of Second Meeting on Ref. 314463 held on 23rd November, 2023). The proposal the subject of this pre application consultation will comprise 1 no. 110kV substation, including control buildings, underground electrical and communications cabling, drainage and sediment controls, temporary site compounds, tree felling and associated works. It also includes approximately 1,050m of 110kV double circuit underground electricity cable and 2 no. single circuit strain towers to facilitate connection to the existing Kinnegad-Rinawade 110 kV overhead line.

The prospective applicant stated that a Natura Impact Statement (NIS) and Environmental Impact Assessment Report (EIAR) will be submitted with the application. It was stated that surveys completed to date include breeding birds and winter birds, lizards, aquatic ecology, terrestrial habitats, bats, peat probing and topographical surveys.

Discussion:

The prospective applicant confirmed that the location of the proposed substation presented at the 1st meeting has since been moved approximately 400m north. This is due to peat probing highlighting that peat depth was significant at the previously proposed location. The land is a mixture of farmland and forestry with some concentration of peat in the forestry. The depth of the peat at the proposed substation location is approximately 0.5m.

The Board's representatives sought clarification if the new proposed substation location would require tree felling to which the prospective applicant confirmed it would to a certain degree although the extent of such felling was likely to be less than that shown on the drawings presented in the presentation to the Board.

A discussion was held having regard to drainage channels and watercourses to the west of the proposed site. The prospective applicant stated that the OPW Boyne arterial drainage channel and a tributary of the River Boyne, the Blackwater Longwood watercourse, skirts along the west of the proposed development. As part of the EIAR, consideration will be given to the cumulative effects of ongoing maintenance of the arterial drainage channel with the project to ensure their drainage is a standalone, compared to the actions the OPW take within the area.

The prospective applicant confirmed they have completed 2 seasons for the surveys and also have extensive data from the previous application.

The Board's representatives restated the opinion given at the first pre application consultation meeting that screening for AA and any NIS prepared should give full consideration to the in combination effects of the permitted solar farm and proposed wind farm development (Revised Drehid Wind Farm the subject of pre application consultation Ref. ABP-314463-22).

The Board's representatives stated that their preliminary view is that the proposed substation application is a Strategic Infrastructure Development (SID) but the decision will lie solely with the Board.

Conclusion:

The onus is on the prospective applicant to either request a further meeting or formal closure of the instant pre-application consultation process. The record of the instant meeting will issue in the meantime and the prospective applicant can submit any comments it may have in writing or alternatively bring any comments for discussion at the time of any further meeting.

The meeting concluded at 11.30 a.m.

A handwritten signature in black ink, appearing to read 'Stephen Kay', is written over a horizontal line.

Re: 110kV electrical substation, a 110kV loop in/loop out cable connection to the Kinnegad - Rinawade 110kV overhead line and all associated development.
In the townlands of Ballynamullagh, Kilmurry, Coolree, Mulgeeth and Drehid, Co. Kildare.

Dear Sir / Madam,

Please be advised that following consultations under section 182E of the Planning and Development Act 2000, as amended, the Board hereby serves notice that it is of the opinion that the proposed development falls within the scope of section 182A of the Planning and Development Act 2000, as amended. Accordingly, the Board has decided that the proposed development would be strategic infrastructure within the meaning of section 182A of the Planning and Development Act 2000, as amended. Any application for approval for the proposed development must therefore be made directly to An Bord Pleanála under section 182A(1) of the Act.

Please also be informed that the Board considers that the pre-application consultation process in respect of this proposed development is now closed.

The following is a list of prescribed bodies to be notified of the application for the proposed development.

- Department of Housing, Local Government and Heritage
- Department of Environment, Climate and Communications
- Department of Agriculture, Food and the Marine
- Department of Tourism, Culture, Arts, Gaeltacht, Sport and Media

Further notifications should also be made where deemed appropriate.

In accordance with section 146(5) of the Planning and Development Act 2000, as amended, the Board will make available for inspection and purchase at its offices the documents relating to the decision within 3 working days following its decision. This information is normally made available on the list of decided cases on the website on the Wednesday following the week in which the decision is made.

The following contains information in relation to challenges to the validity of a decision of An Bord Pleanála under the provisions of the Planning and Development Act 2000, as amended.

Judicial review of An Bord Pleanála decisions under the provisions of the Planning and Development Acts (as amended).

A person wishing to challenge the validity of a Board decision may do so by way of judicial review only. Sections 50, 50A and 50B of the Planning and Development Act 2000 (as substituted by section 13 of the Planning and Development (Strategic Infrastructure) Act 2006, as amended/substituted by sections 32 and 33 of the Planning and Development (Amendment) Act 2010 and as amended by sections 20 and 21 of the Environment (Miscellaneous Provisions) Act 2011) contain provisions in relation to challenges to the validity of a decision of the Board.

The validity of a decision taken by the Board may only be questioned by making an application for judicial review under Order 84 of The Rules of the Superior Courts (S.I. No. 15 of 1986). Sub-section 50(7) of the Planning and Development Act 2000 requires that subject to any extension to the time period which may be allowed by the High Court in accordance with subsection 50(8), any application for judicial review must be made within 8 weeks of the decision of the Board. It should be noted that any challenge taken under section 50 may question only the validity of the decision and the Courts do not adjudicate on the merits of the development from the perspectives of the proper planning and sustainable development of the area and/or effects on the environment. Section 50A states that leave for judicial review shall not be granted unless the Court is satisfied that there are substantial grounds for contending that the decision is invalid or ought to be quashed and that the applicant has a sufficient interest in the matter which is the subject of the application or in cases involving environmental impact assessment is a body complying with specified criteria.

Section 50B contains provisions in relation to the cost of judicial review proceedings in the High Court relating to specified types of development (including proceedings relating to decisions or actions pursuant to a law of the state that gives effect to the public participation and access to justice provisions of Council Directive 85/337/EEC i.e. the EIA Directive and to the provisions of Directive 2001/12/EC i.e. Directive on the assessment of the effects on the environment of certain plans and programmes). The general provision contained in section 50B is that in such cases each party shall bear its own costs. The Court however may award costs against any party in specified circumstances. There is also provision for the Court to award the costs of proceedings or a portion of such costs to an applicant against a respondent or notice party where relief is obtained to the extent that the action or omission of the respondent or notice party contributed to the relief being obtained.

General information on judicial review procedures is contained on the following website, www.citizensinformation.ie.

the development consists of the erection of four 51.5 sqm. detached pods, each of which would be 3 metres tall and which would provide two bedrooms and a combined kitchen/ dining area, as well as bathroom accommodation, along with the use of these four structures for tourist accommodation purposes;

The retention of an existing 54 sqm. timber log cabin which already occupies the site (whose removal is required under condition no. 4 of permission reg. RA/191557) and the use of this two-bedroom plus living area building for short-term residential occupation. The proposal also includes the decommissioning of a septic tank (which was permitted under reg. RA191557), the provision of a new soakaway, the installation of a mechanical aeration sewage treatment system and the construction of a 300 sqm. soil polishing filter, the closure of an existing entrance and upgrade works to an existing access which serves the adjacent Shanks Mare development and its use in connection with this proposal, a new turning circle for fire services and an extra parking area accommodating 11 new bays, which are in addition to the 21 spaces on the subject land. The application includes all site works, such as the removal of an existing stone wall, the raising of the land at Gate 1 by 300mm, the creation of a gravel surface, the provision of a wheelie-bin store and the removal of a gas tank. This development will be held in common ownership with the Shanks Mare development and will not be sold or leased separately. Included in this are all associated site works and services.

<p>EirGrid plc, with the consent and approval of the Electricity Supply Board (ESB) is applying to Offaly County Council for permission for works associated with the proposed uprate of the existing 110 kV Overhead Line (OHL) between the existing Cushaling 110 kV substation in the townland of Ballykilleen, Co. Offaly and the existing Portlaoise 110 kV substation in the townlands of Clonminam and Kylekiproe, Co. Laois. The Proposed Development works across the functional are of Co.Offaly will comprise: Replacement ("restringing") of the existing overhead line circuit conductor with a new higher capacity conductor including installation of a new fibre communication connection; replacement of the existing earthwire with new earthwire between structures 1 and 8; replacement of steel members at 3 no. towers;Full tower painting required at 3 no. locations; replacement of wooden poles only at 7 no. locations; replacement of wooden poles and crossarm at 2 no. locations;replacement of crossarm only at 3 no. locations; replacement of existing danger notices at various locations, as required; replacement of hardware and fittings, such as insulators, insulator hardware, earthwire hardware and anti-climbing guards at various locations, as required; replacement of suspension clamps, vibration dampers & compression assemblies at all locations, as required; All associated temporary site development works to gain access to the existing structures & other temporary associated & ancillary development works required for the purpose of the uprate of the existing circuit. No additional structures are proposed along the existing circuit. Structure 203 will be relocated approx. 101m back towards structure 202 due to its existing position on top of a gravel mound & the potential for subsidence of gravel in the long term. No alteration to the nature, extent, alignment, character or voltage of existing electricity infrastructure is proposed. A Natura Impact Statement (NIS) has been submitted with this</p>

Kildare County Council	181206	of the storey-and-a-half house constructed subsequent to the grant of planning permission in 2010 for the conversion of a 4 no. existing booths (used for drying, shotblasting and painting) and ancillary storage rooms (476.9 sq.m combined), standalone office (21 sq.m) along with the change of use of the cottage to office / storage unit (136 sq.m). Planning permission is sought to: 1. Demolish domestic garage (25 sq.m). 2. Construct an extension to the north side of the shot blasting booth in order to contain all dust associated with shotblasting (37 sq.m) 3. Construct a new shed structure to the front of the existing workshop (414 sq.m.) in order to protect trailers from the weather during shotblast / repainting process and also, critically, to prevent dust emissions. The shed will have a maximum ridge height of 6.38m high and will be enclosed on 3 sides with the south elevation open to allow trailers to enter. It includes a new doorway connection to the existing cottage building. 4. Alter the access arrangements to provide single access to the business and family dwelling and significantly improve sightlines and safety (includes new gates and dwelling). 5. Create new ordered trailer parking area to the rear of the workshop (significantly smaller area than previous application – approximately one third the size) including a dedicated turning area. 6. Provide new lined car parking for staff and visitors (12 spaces) and dedicated HGV parking (12 spaces) 7. Decommission the existing on-site treatment system and percolation area and provide new high specification on-site foul treatment system at a location to the rear of the site. 8. Provide new surface water drainage infrastructure. 9. Provide new landscaping with significant screening planting along the front boundary with family dwelling. 10. Carry out all associated site works.	Landenstown, Donore, Naas	APPLICATION FINALISED	RETENTION	CONDITIONAL	0.89	0

	grass running track. To install 10 X flood lights using energy efficient Led lighting around the circumference of our existing 400 m running track. The new flood lights will sit within the perimeter of a ring of existing walking track flood lights installed in 2014, Ref KCC, 12551.						
	Brief description of nature and extent of development						
	1.The development will consist of a drainage network (80 mm pipe) installed below ground to manage excess rainwater that collects on the surface of our 400m grass running track, rainwater will be diverted to 2 X soak pits installed in the infield area. Ref ATT5 Drawing ABCD and ATT 13 photo and location of site prior to works.						
	2. To install 10 x 10-meter flood lights and the necessary underground ducting/electrical cables. The proposed cable ducting, flood light pole footing, poles/LED lighting and control panel to be mounted within an existing electrical control box and Flood light ring, Ref ATT5 Drawing ABCD.						
	The flood lights will be mounted within the perimeter of an existing ring of flood lights installed in 2014, Ref KCC, 12551.						
	Flood lights will not operate after 21.30 hrs and will allow for winter training to take place on the grounds.						
	The addition of new drainage and flood lights will give the Tír Móna Athletics facility an all-year-round training capability for all in our community and surrounding area to use and enjoy. This development will be co- funded by Sports Capitation Programme and has the support of all local schools within our catchment area, Ref

<p>for minor amendments to previously approved planning permission No. 191296, pertaining to Block B and Block C only: Block B - reducing its size, height and location within the site, (previously comprising of a 3 storey building with 4th floor setback accommodating 18 no. 1, 2 & 3 bed apartments. It will now comprise of the following: 12 no. 1 bed studio apartments, at first and second floor levels only with a communal social space at ground floor level, including w.c facilities and only the circulation shaft setback at 3rd floor level. This change is as a result of the change in circumstances of the adjoining site to the west, previously to be (co-joined) residential. The reduction in the scale of the proposed revised Block B results in a variation to the previously approved parking and landscape layout. Block C - moving the block further north away from the canal to allow for fire tender access to the rear and sides, rearranging the internal layout with no increase in apartment numbers (11 No.), eliminating the angled elevation to the south east and the removal of the car parking from the basement. Block A and Block D are to remain as per the original grant of permission. The proposed development will still be accessed off Bridge Street as per the original grant of permission via a new vehicular entrance. The proposed development provides for all associated site development works, boundary treatments & bin storage (No change). The site is occupied by The Lion House (former public house)</p>

APPENDIX 1.3

Curricula Vitae of EIAR Contributors

Ben O'Dwyer

Senior Project Ecologist

CONSULTANTS IN ENGINEERING,
ENVIRONMENTAL SCIENCE
& PLANNING

Profile

Ben O'Dwyer is a Project Ecologist working as part of the Energy and Environment Team at Fehily Timoney and Company. Ben has over eight years of ecological consultancy experience encompassing a wide range of projects and sub-disciplines. He holds a first class honours Bachelor of Science (BSc) in Wildlife Biology from Institute of Technology Tralee (now MTU). His degree focused on conservation of habitats, flora and fauna, with strong emphases on European and international legislation, and practical field skills encompassing terrestrial and aquatic ecology. Environmental science including laboratory and field sampling skills, in addition to legislation was also a key element throughout.

He has prepared Appropriate Assessment Screening Reports (AASR), Natura Impact Statements (NIS) and ecological impact assessments for a wide range of projects. Through this experience he has gained familiarity with the requirements of these processes and transferrable skills such as reviewing and critiquing Reports and Ecological Assessments. The areas his work has focused on include assessment of wind and solar energy projects, housing developments, gas networks, transport infrastructure, waste management, commercial/industrial projects, aquaculture and assessment of landslides. As such he is experienced in assessing the environmental and ecological effects of a diverse range of proposals in accordance with Habitats Directive, planning legislation and EIA Guidelines.

Ben is an experienced and versatile field surveyor, and as such is familiar with a wide range of survey methodologies, and is well-versed in the standards and level of information required to complete robust assessments. His experience across a broad range of projects in Ireland has given him an extensive knowledge of the protected sites and species across the country.

Key Skills

- Plant identification
- Habitat mapping
- Invasive species survey
- Ornithological surveying
- Mammal identification (field signs, live sightings & trail camera survey)
- Bat identification using bat detectors, behavioral characteristics & software-based analysis of recorded calls
- Bat roost survey
- Habitat assessments
- General and wide-ranging knowledge of ecological assessment, particularly focusing on protected species and habitats, encompassing terrestrial and aquatic ecology, ornithology, bats, mammals, rare/protected habitats and botanical species.
- Report writing and impact assessment (Ecological Impact Assessment, AA Screening & Stage 2 Natura Impact Statement)
- Wildlife license applications
- Ecological supervision, collaboration with other disciplines at both planning and construction stages.

CONSULTANTS IN ENGINEERING,
ENVIRONMENTAL SCIENCE
& PLANNING

Project Experience

Wind Energy Projects

- Knockastanna operational wind farm Co. Limerick – ecological monitoring plan, ornithological and collision monitoring survey management.
- Confidential wind farm Co. Offaly – ornithological survey management, reviewer/contributor to ornithological baseline reports, CRM review, audio surveys for nocturnal whooper swan activity (audio survey design, device deployment, call analysis and assessment).
- Confidential wind farm Co. Kildare – mammal surveys, bat roost surveys (GLTA/PRA), marsh fritillary survey, common lizard survey, habitat survey, Biodiversity Chapter for EIAR, NIS, bat report/assessment.
- Confidential wind farm Co. Laois – habitat survey and baseline report.
- Confidential wind farm Co. Tipperary – Annex I habitat survey; habitat survey of borrow pit lands; marsh fritillary surveys.
- Confidential wind farm Co. Laois – habitat survey, Annex I habitat survey, marsh fritillary survey, bat roost surveys.
- Confidential wind farm Co. Kildare – habitat survey, marsh fritillary survey.
- Fahy Beg wind farm Co. Clare – Biodiversity Chapter for EIAR, NIS, biodiversity enhancement plan, first-party appeal, habitat survey, mammal survey, ecological walkover, marsh fritillary survey, grid connection and TDR survey.
- Curragh Mountain Wind Farm – Vegetation monitoring, assessment and reporting (ecological monitoring of operational wind farm).
- Annagh wind farm Co. Cork – Biodiversity Chapter for EIAR, VP surveys, breeding bird and wader surveys, habitat survey, mammal survey, static bat detector survey, ecological walkover, grid connection and TDR survey.
- Croaghaun wind farm Co. Carlow – NIS, FI Response.
- Bilboa wind farm Co. Carlow (rotor modification) – Biodiversity Chapter for EIAR; detailed Biodiversity & AA RFI responses.
- Coom wind farm, Co. Cork – Turbine delivery route nodes survey, passive bat detector survey, replant lands survey, AA screening reports for TDR route & replant lands. Ecological survey scoping and management for grid connection planning application.
- Fossy/Curraglass wind farm Co. Laois – Summer & winter VP surveys; bird survey data collation; bat surveys (activity, emergence & passive detector surveys); habitat survey; mammal survey.
- Dernacart Windfarm Co. Laois – Biodiversity Chapter for EIAR.
- Drehid wind farm Co. Kildare – Summer & Winter VP surveys; Dawn/Dusk Winter VP Survey; bat activity survey.
- Barranafaddock Windfarm – AA screening report updates, post-construction collision monitoring survey, scavenger trial, annual monitoring report.
- Moanvane Windfarm – Preconstruction ecology surveys, construction-stage badger mitigation measures, bat Survey; bird survey data collation; habitat surveys; Mammal Survey; Replant Lands Habitat Survey. Post construction monitoring encompassing water quality sampling, re-vegetation checks, conclusion of badger mitigation hedgerow replanting and bat box installation specifications. Ornithological and collision monitoring survey management.
- Meenwaun Windfarm - Pre-Construction Badger, Otter & Bat Surveys; Badger Sett Hard-blocking & Monitoring.
- Moanincha Windfarm – Post-Construction Collision Monitoring Survey; Bat Survey; Post-Construction VP Surveys.
- Confidential Windfarm Co. Cork – Habitat surveys including Annex I survey, marsh fritillary survey, summer & winter VP surveys; breeding bird surveys; breeding moorland bird surveys; merlin survey; hinterland survey.
- Confidential Windfarm Co. Cork (2) – Summer & winter VP surveys; breeding bird surveys; hinterland survey; contributor to EIAR ornithological impact assessment.
- Gortyrhilly/Inchmore Windfarm Co. Cork – VP surveys, hinterland surveys, breeding bird and wader transects.
- Raragh Windfarm – Habitat Survey and Bat Survey (Cable Route).
- Galway Wind Park – Doon Bypass Habitat Survey.
- Dromada Windfarm – Baseline Vegetation Survey for Hen Harrier Breeding Habitat Management Programme.
- Knockacummer Windfarm Grid Connection Cable Route - Ecological Clerk of Works; Water quality monitoring; Invasive Species Survey; Otter Survey; Hen Harrier winter roost surveys.
- Derragh Windfarm- preconstruction ornithological and mammal surveys, preconstruction survey report.
- Garryhinch Wind farm – Hen harrier roost watches.

Ben O'Dwyer
Senior Project Ecologist

CONSULTANTS IN ENGINEERING,
ENVIRONMENTAL SCIENCE
& PLANNING

Solar Energy Projects

- Keiloge Solar Farm - AA Screening Report
- Glenamoy House Solar Farm - Habitat Survey and Desktop Study for AA Screening
- Ballyhale Solar Farm –Bat Survey
- Barrowsiders Solar Farm Carrigtwohill –Habitat Survey and AA Screening Report
- Casteltownbere Solar Farm – Habitat Survey and Ecological Feasibility Assessment
- Piercetown Solar Farm – AA Screening Report
- Meelshane Solar Farm – Habitat Survey, Site Walkover, Ecological Appraisal & Ecological Enhancement Plan.
- Furryhill Solar Farm – Habitat Survey, Site Walkover, AA Screening Report, Ecological Appraisal & Ecological Enhancement Plan.
- Cable Route Section 5 Application – AA screening Report
- Clondardis Solar Farm – AA Screening Report
- Ballyduff Solar Farm – Habitat Survey, Site Walkover, Cable Route Survey
- Johnstown North Solar Farm – Habitat Survey, Site Walkover, Cable Route Survey, AA Screening Report, Ecological Appraisal & Ecological Enhancement Plan
- Rosspile Solar Farm – Habitat Survey, Site Walkover, Cable Route Survey, Bat Survey, Mammal Survey, NIS & Ecological Appraisal.
- Middleton House Solar Farm - Habitat Survey, Site Walkover, Cable Route Survey, Mammal Survey, Ecological Appraisal
- Middleton House Solar Farm (additional lands)- Habitat Survey, Site Walkover, Cable Route Survey, Mammal Survey, Ecological Appraisal. Report for AA Screening

Miscellaneous Projects

- DECC Provision of a detailed scientific assessment of peatland landslides – completed Annex I type relevé surveys at 3 No. peat landslide sites to provide detailed botanical data for use in a wider assessment primarily focused on hydrogeology and peat stability.
- Dunkettle Interchange Upgrade– preconstruction mammal & botanical surveys, reporting, otter & badger surveys and mitigation measures, invasive species surveys rare plant and moth foodplant translocations, bat surveys, ornithological surveys, amphibian surveys, ecological supervision and associated reporting.
- N4 Sligo – preconstruction mammal, bat & amphibian surveys, ecological supervision, wildlife licence applications (frog, bat, badger, smooth newt), ecological design.
- Cork County Bridge Rehabilitation, South & West Regions- AA Screening Reports.
- Ardcahan Bridge Repair Co. Cork – NIS, bat emergence survey, onsite stakeholder consultation.
- Glanmire Bridge Repair Cork – bat emergence survey.
- Rathcooney Bridge Repair Cork – NIS.
- Blackpool Bridge Repair (Cork City) – AA screening report, Annex IV otter assessment.
- Tipperary Town Historic Landfill Remediation - Habitat & General Ecology Surveys, Invasive Species Survey, Appropriate Assessment Screening, Invasive Species Management Plan.
- Knockharley Landfill – Bat Survey & Desktop Study for EIS, Botanical & Habitat surveys and FI response Botanical & Habitat report
- Monart Spa – Q sampling (Aquatic Macroinvertebrate Identification & Analysis), biological water quality report
- Ballyogan Landfill – Aquatic Macroinvertebrate Identification & Analysis (Q values, SSRS)
- Dunsink Landfill – Aquatic Macroinvertebrate Identification & Analysis (Q values, SSRS)
- North Kerry Line – Habitat & General Ecology Surveys
- Burlington Facility - Habitat & General Ecology Surveys, AA Screening Report
- Center Parcs Gas Pipeline Route - Habitat & General Ecology Surveys
- Enniscorthy Residential Development - Habitat & General Ecology Surveys, with focus on hydrological connections for AA
- Kilbarry Residential & Solar Development EIAR - Habitat & General Ecology Surveys, Ecological Appraisal.
- Waterford Airport Runway Extension - Habitat & General Ecology Surveys
- Monaghan Historic Landfills- AA Screenings for Tier 3 Assessments
- Great Southern Trail Greenway - General Ecology Survey (Barnagh Tunnel Section)
- IDA National Technology Park, Limerick – habitat survey; general ecology walkover survey; badger see and otter holt (trail camera) monitoring; NIS for flood defence berm; ecological appraisal; badger mitigation report; Annex IV otter assessment & derogation application; invasive species management plan.

Ben O'Dwyer
Senior Project Ecologist

CONSULTANTS IN ENGINEERING,
ENVIRONMENTAL SCIENCE
& PLANNING

-
- Ballaghveny Landfill- Baseline Biodiversity Survey & Report
 - Cúl Na Móna Gas to Grid Plant – Vantage point surveys, Breeding Bird Surveys.
 - Corduff FlexGen Gas Pipeline & AGI – AA Screening for Section 5 Application
 - Rogerstown Park (former Baleally Landfill) – AA Screening for maintenance shed
 - Thorpes & Oldcourt Historical Landfill Monitoring - AA Screening
 - Stewarts Hospital Front Terrace Restoration – Mammal Survey, Bat Roost Survey
 - Dungarvan oyster processing plant – AA screening report for extension of plant

Brian Cronin

Senior Environmental Scientist

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Brian is a Senior Project Environmental Scientist with Fehily Timoney and Company. He has eight years of post-graduate experience in technical positions with five years specifically in environmental roles.

Key Skills

- Client Relations: Maintaining trusting relationships with clients through strong communication and professional attitude
- Report writing: Planning and Environmental Reports, EIA chapters (geology, hydrology, hydrogeology and wind micro-climate), contaminated land risk assessment reports, waste classification reports, environmental audits, IPC compliance reports, letter reports
- Fieldwork: Supervising drilling/digging operations, design of monitoring wells, soil logging and sampling, low-flow sampling, aquifer testing, gas monitoring and more
- Training and managing: Training and managing graduates, sub-contractors, students
- Software: Excel, Arc GIS, MS Project, Diver Office, Win Situ, SPSS, Minitab, MS Office suite

Previous Experience Essentials for this Project

- **Drehid Wind Farm SID application, €310,000, 2023**
Project Manager: Seeking consent for the development of a Wind Farm and associated 110 kV substation from An Bord Pleanála (ABP) as Strategic Infrastructure Development (SID). Pre-application consultation with ABP, writing chapters of the Environmental Impact Assessment Report (EIAR) and coordinating the programme of works to get the SID application processed.
- **Clondardis 110kV Substation SID application, €75,000, 2023**
Project Manager: Seeking consent for the development of a 110 kV substation from ABP as SID. Pre-application consultation with ABP, writing chapters of the Planning and Environmental Report and coordinating the programme of works to get the SID application processed.
- **Mainstream Southeast Offshore Wind Farm: EIA Scoping Report, €40,000, 2023**
Project Manager: Coordinated a team of authors to write the scoping chapters for the onshore component (cable and grid connection) of an offshore wind farm.
- **Kilteel Pole Yard Quantitative Risk Assessment, €170,000, 2021**
Project Manager: Assessing risks to human health and the environment from creosote contamination on a large rural site. Delineated extent of contamination as well as identifying hydrogeological pathways from contaminated groundwater to hydraulically connected surface waters. Proposed remediation strategy to reduce risks.
- **DIT Kevin Street Waste Classification and Soil Management Plan, €150,000, 2020**
Project Manager: Classified soil and stone wastes across a large urban site with a 17m basement excavation. Identified alternative options to landfill disposal of the materials, including Soil Recovery Facilities and re-use of materials as a by product under Article 27 of the Waste Directive.

2017 - 2018

Initial Project Ltd.
Contaminated Land Lead Technician

2014 - 2017

Forest Research Group, Waterford IT
Research Assistant

Ian Higgins

Technical Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Ian is a geotechnical engineer with over 25 years' experience in the design and supervision of construction of bulk earthworks, geotechnical foundation design, geotechnical monitoring and reviewing, reinforced earth design and 3rd party checking of piling and ground improvement designs. Ian's experience also includes the design, supervision and interpretation of ground investigations, including desk studies, walkover surveys, hazard mapping of rock excavations and slopes.

Ian has experience in many areas of civil engineering including highways, railways, energy projects and commercial developments. Ian's responsibilities include managing junior engineers, reviewing work carried out for ground investigation, reporting and design. Ian has also experience in using a number of geotechnical software packages including slope stability, finite element, pile design and retaining wall design.

Key Skills

- Earthworks Design
- Geotechnical Foundation Design
- Ground Investigation Scoping and Procurement
- Peat Stability Assessments for Wind Farms

Previous Experience Essentials for This Project

- **N21 Adare Bypass**
Geotechnical design category 3 checker for motorway project in the southwest of Ireland, covering earthworks
- **A5WTC (Section 2, Strabane to Omagh)**
Geotechnical design of earthworks for a proposed dual carriageway D&B Contract. Slope stability assessments, material reusability, subgrade stiffness assessment and soft ground treatments.
- **M28 Cork to Ringaskiddy**
Provide geotechnical input into D&B tender for Contractor. Review ground investigation data, undertake design assessment including slope stability, material reusability, subgrade stiffness, rock stabilisation measures and karst risk assessment.
- **Dunkettle Interchange**
Part of Earthworks Design team for detailed design of Interchange Upgrade. Produced Design Reports covering the design of ground improvement for soft ground and slope stability assessments.
- **Ballivor, Sheskin South and Glenora Wind Farms**
Undertake Peat Stability Assessment and Peat & Spoil Management Plan for EIAR submissions. Site walkover, collation of data, stability assessment, assessment of peat and spoil volumes. Scope, procure and supervision of ground investigation on peatland site and scheduling of laboratory testing.
- **N19 Shannon Airport Access Road**
Undertake geotechnical assessments as part of Phase 1-4 of the EIAR process. Scope, procure and manage the detailed ground investigation for the scheme, involving scheduling of laboratory testing on soil and rock samples, including soft ground. Provision of a GIR and GDR for the scheme.
- **Croaghaun Wind Farm, Annagh Wind Farm, Coom Green Energy Development**

Key Information

Qualifications

BSc. Engineering Geology,

Ian Higgins

Technical Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Production of EIAR Soils & Geology Chapter for several wind farms.

- **Derrinlough Wind Farm, Croagh Wind Farm, Cahermurphy Wind Farm,**
Undertake Peat Stability Assessment and Peat & Spoil Management Plan for EIAR submissions. Site walkover, collation of data, stability assessment, assessment of peat and spoil volumes.
- **Almaty-Korgos Highway, Kazakhstan (ICC)**
Assessment the quantities of all temporary and permanent works executed by the Claimant relating to East-West Roads Project (Almaty-Korgos), part of the Western Europe-Western China International Transit Corridor.
- **A6 Dungiven to Drumahoe**
Part of Earthworks Design team for tender design submission. Assessment of ground investigation information for earthworks reusability and slope stability assessments.
- **Oweninny Wind Farm, Mayo**
Geotechnical design of access roads and turbine bases for Phase 1 of wind farm development (29 turbines)
- **Aberdeen Western Peripheral Route, Aberdeenshire, Scotland**
Part of Client's Representative Team, monitoring and checking of earthworks including material selection and testing. Liaison with contractors and preparing daily and weekly reports on work programme and health and safety issues.
- **M17/M18 Gort to Tuam PPP Project**
Geotechnical design category 3 checker for motorway project in the west of Ireland, covering earthworks and foundations for structures.
- **Kilgallioch Wind Farm, Scotland**
Geotechnical design of substation platform, access roads and turbine bases for 96 turbine wind farm.
- **Dersalloch Wind Farm, Scotland**
Geotechnical design of access roads and turbine bases for 23 turbine wind farm.
- **Dublin Waste to Energy Incinerator Project**
Geotechnical assessment of ground conditions, procurement of ground investigation, design of piled foundations, design load transfer platform and reinforced earth structures.
- **Black Law Wind Farm Extension, Scotland**
Geotechnical design of access roads and turbine bases for 23 turbine extension to an existing wind farm including site inspections and sign off during construction.
- **Diyar Al Muharraq Project, Bahrain**
Assessment of the ground conditions and site investigation data for a deep sewer line particularly regarding the environmental impact on the aquifer.
- **M11 Gorey to Enniscorthy Tender Design Check**
Geotechnical design check for motorway tender design submission.
- **A31 Magherafelt Bypass**
Geotechnical designer for earthworks and foundations for tender design of a 5.8km bypass.
- **A26 Dualling Glarryford to Drones Road**
Geotechnical checker for tender design submission

AGEC Australia Ltd. – Principal Geotechnical Engineer

- **Utah Point Stockyard 2, Port Hedland**
Project manager for the civil, structural and geotechnical design of the Stockyard 2 development at Utah Point. AGECE undertook the ground investigation design and supervision, earthworks design for the new iron ore stockyard construction with stockpiles up to 17m high and foundations design for the associated stackers, reclaimer and conveyors. AGECE also acted as site representatives during construction.
- **Esperance Port Access Corridor**
Geotechnical designer for the temporary works design for excavation support as part of the Esperance Port Access Corridor (EPAC) project, located in Esperance, Western Australia. AGECE undertook temporary works design for the access road upgrading and railway line realignment.
- **Adelaide Terrace Hotel, Perth**
Geotechnical engineer for a proposed new hotel in a Perth CBD restricted site. AGECE undertook the ground investigation design and supervision, soil parameters assessment and geotechnical design for the foundations for a 15 storey hotel with an underground car park 3 basement deep.
- **Mitchell Freeway Widening, Perth**

Ian Higgins

Technical Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Geotechnical project manager for the temporary works design for retaining structures.

Applied Ground Engineering Consultants Ltd. (AGEC) – Senior Engineering Geologist

- **Corrib Gas Onshore Pipeline, Co. Mayo, Ireland**
Geotechnical advisor on construction aspects of onshore pipeline. Duties include monitoring and reporting on ground conditions during construction including weekly reporting with analyses and interpretation of data from telemetric and in-situ instrumentation. Construction compliance verification with respect to specification for earthworks materials and earthworks assessment. Liaison with contractor on geotechnical design issues.
- **N17/N18 Gort to Tuam High Quality Dual Carriageway**
Part of Geotechnical Team for Tender Design for approximately 27km of high quality dual carriageway. Assessing ground investigation data for preliminary earthworks design and outline structural foundation design.
- **Flughland Wind Farm**
Review and check of contractors proposed pile design and site supervision of the installation of bored piles for a windfarm development in County Donegal.
- **Slievecallan Wind Farm**
Site inspection of proposed wind farm including an assessment of peat stability. Geotechnical assessment of site by walkover inspection and report on Peat Stability at turbine locations and associated infrastructure.
- **A4/A5 NI DBFO Scheme 3 Realignment, Northern Ireland**
Senior Geotechnical Designer, value engineering, compiling earthwork design reports which included; cutting and embankment design – stability analysis of slopes, assessing settlement, pavement foundation design, assessing acceptability of material for re-usability, design for special measures such as soft ground issues, slope drainage and pile design for a pile supported embankment. Other duties included attending and corresponding with other disciplines, liaising with site staff and giving advice on earthworks.
- **Clonsilla to Dunboyne Railway Scheme**
Supervision of Site Investigation and Preparation of Interpretative Report for Railway Scheme. Includes the interpretation of ground conditions and design recommendations for all earthworks along the rail route, proposed bridge/culvert foundations, proposed and existing stations and proposed new roads.
- **Supervision of Site Investigations in Bailieborough, Cahir and Athlone**
For retail developments. Project manager, responsible for design and supervision of site investigations, interpretation of factual data and writing of interpretative reports for a series of retail developments on brownfield sites in Ireland.
- **Limerick Southern Relief Road**
Geotechnical checker for highway earthworks on scheme involving construction of stage constructed and monitored embankments over soft estuarine deposits.
- **N7 Nenagh to Limerick High Quality Dual Carriageway**
Part of Geotechnical Team for Tender Design for approximately 27km of high quality dual carriageway. Assessing ground investigation data for preliminary earthwork and outline structural foundation design.
- **M4/M6 Kinnegad-Enfield-Kilcock Motorway**
Geotechnical Designer's Site Representative for construction works. Responsible for ensuring the earthworks design was constructed in accordance with the design reports and the relevant specifications. Inspections carried out for all aspects of the earthworks, from removal of soft ground to sub formation and formation inspections for capping. Involved liaising with both the Design Manager for earthworks as well as the designer's site representative for structures, drainage and pavement design.
- **N4/M6 Kinnegad-Enfield-Kilcock Motorway**
Part of geotechnical design team for earthworks and structure foundation.
- **N25 Waterford Bypass**
Resident Engineer for the supervision of the Supplementary Ground Investigation for MMEPO/Tramore House (NRA).
- **R292 Sligo to Strandhill**
Slope stability assessment of sidelong ground embankment to be constructed on glacial till with restricted land access and weak subgrade.
- **N4/N6 Kilcock to Kinnegad Motorway**
Assessment of potential borrow areas for road construction material. Requirement to identify about 1M cubic metres of suitable and selected fill. Included walk-over survey, ground investigation and reporting of findings to tendering consortium.
- **St. Fintan's High School, Sutton**
Supervision of the remediation of ground subsidence due to underground tunnel works. Site representative for the school on remediation work, which included trenching, compaction by vibratory probe, placement of geotextile, compaction and

Ian Higgins

Technical Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

reinstatement of ground. Report produced on findings.

- **M1 Northern Motorway, Gormanstown to Monasterboice**

Logging of rock faces in cuttings and determination of rock quality from borehole logs, laboratory results and field observations.

Geotechnics Ireland Ltd. – Engineering Geologist

- **Dundrum Town Centre Development**

Site representative during enablement works for town centre development in Dundrum. Involved hazard mapping of rock faces of up to 14m in height, monitoring of on-site blasting by contractor, monitoring of groundwater table fluctuations as excavation progressed, recording ground conditions in both soil and rock during excavation, and monitoring rock and soil slope stability.

Ian Higgins

Technical Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Supervision of Site Investigations in Cookstown, Larne and Ballymoney for retail developments**
Project manager, responsible for design and supervision of site investigations, interpretation of factual data and writing of interpretative reports for a series of retail developments on brownfield sites in Northern Ireland.
- **M1 Dundalk Western Bypass**
Checking and processing of factual data for geotechnical interpretative report. Carried out desk study and walkover survey of route of proposed bypass. Checking of digital data (AGS) supplied by contractor.
- **M1 Dunleer-Dundalk Bypass Contract No. 3**
Logging of rock faces in cuttings and determination of rock strength and excavatability from borehole logs, laboratory results and field observations.
- **Xerox Production Facility, Dundalk**
Supervision and direction of site investigation including logging of trial pits, shell & auger and rotary core boreholes and dynamic probing for a major industrial development on the edge of Dundalk.
- **N25 Kilmacthomas Realignment**
Detailed logging of trial trenches excavated in rock along route of major cutting. Assessment of rock strength and excavatability from field observations.

DR. JAKE COLLINS-MAY
Technical Consultant

Discipline: Geographic Information Systems (GIS), AutoCAD, independent Technical Expert (ITE), Shadow Flicker

Key Qualifications: PhD Geography, MPhil Geography, Geography BSc (1st)

Professional Memberships: CGeog

Experience: 3.5 years in Industry, 8 years using GIS for research.

Introduction

Jake is a Technical Consultant within TNEI Services' Environment and Engineering team, which provides support in relation to EIA, acoustics, planning, GIS, shadow flicker, glint & glare and design on a range of developments. Jake has three years' experience working as a consultant on renewable energy developments, and his primary experience is in GIS, using it for data analysis, constraints mapping for wind / solar farms and battery energy storage sites, wind farm layouts, and georeferencing site plans. He has also undertaken multiple shadow flicker assessments, Jake also undertakes Independent Technical Expert reports for the UK capacity market, for BESS, Solar, Onshore Wind, and Interconnector developments.

KEY EXPERIENCE

- Constraints Mapping
- Feasibility Assessments
- Shadow Assessments
- Independent Technical Expert Reports
- Project management;
- Training (GIS)
- Due diligence

EDUCATION AND PROFESSIONAL STATUS

- Chartered Geographer (CGeog), 2025
- PhD Geography as a Science, "*Controls on the Distribution of Ice in the Nereidum Montes; Mars*", Newcastle University, 2022
- MPhil Geography as a Science, Newcastle University, 2017
- BSc Geography (1st) Newcastle University, 2013

EXPERIENCE RECORD

TNEI Services Ltd (01/2023 – Present)

Technical Consultant

Energy Generation: Significant GIS and CAD experience in supporting energy generation projects, particularly at the initial feasibility stage, including site finding, constraints mapping, feasibility assessments, and high level layout design, for Onshore Wind, and Solar developments. Experience in shadow flicker assessments across the UK and Ireland, as well as Independent Technical Export reports for the UK Capacity Market, and Due Diligence for the purchase of generation assets.

Project Highlights:

- GIS and CAD Support for site finding exercises, high level layout production, production of planning drawings, management of incoming and outgoing data, spatial analyses, for potential developments, as well as EIA submissions. Has also undertaken GIS support work

for noise assessments for generation projects.

- Shadow flicker assessments for single and multi-turbine wind farms across England, Scotland, and Ireland, on behalf of Wind Farm operators, and housing developers, as part of complaints investigations, planning compliance assessments, and feasibility assessments.
- ITE Reports for Solar Farms and Wind Farms participating in UK Capacity Market Auctions.
- Due diligence to facilitate the sale of a portfolio of tens of combined battery energy storage system and solar farm sites at various stages of planning. The work included reviewing EIA reports, feasibility matrices, and local planning authority responses, in order to determine the risk associated with each potential site.

Energy Storage: Significant GIS and CAD experience in supporting energy storage projects, particularly at the initial feasibility stage, including site finding, constraints mapping, feasibility assessments, and high level layout design for Battery Energy Storage Sites, and Hydrogen.

Project Highlights:

- GIS and CAD Support for site finding exercises, high level layout production, production of planning drawings, management of incoming and outgoing data, spatial analyses, for potential developments, as well as EIA submissions. Has also undertaken GIS support work for noise assessments for storage projects.
- ITE Reports for BESS sites participating in UK Capacity Market Auctions

Energy Infrastructure: GIS support for power line developments, and ITE reports for an Interconnector Development.

Project Highlights:

- General GIS support for power line developments.
- ITE Reports for an interconnector participating in UK Capacity Market Auctions

Marine, Nearshore, and Ports: GIS and CAD support as part of noise assessment for Port expansions.

Project Highlights:

- GIS and CAD support as part of construction and operational noise assessments for two port extensions in Scotland.

Other Developments: Experience in shadow flicker modelling for non-energy generation related developments.

Project Highlights:

- Shadow flicker modelling assessment for a proposed airport radar system, in order to quantify areas where shadow flicker might present a consenting risk.

Jim Hughes

Director of Energy & Planning

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Jim Hughes is the Director responsible for the Energy and Planning Department. Jim has a BA in Public Administration (Development) from the University of Limerick, a Masters in Town Planning from Queens University Belfast and a Diploma in EIA/SEA Management from University College Dublin. Jim is also a member of the Irish Planning Institute.

Jim is a Qualified Town and Environmental Planner with over 20 years post qualification planning experience in both the private and public sector. He has extensive experience in providing strategic level advice to clients and negotiating with and presenting to local authorities. Jim has experience in the management and coordination and the preparation of planning applications, masterplans and Environmental Impact Statements for large scale infrastructure projects throughout Ireland. He has specific experience in the renewable energy sector. Jim has represented clients on planning enforcement matters and as expert witness at oral hearings. He is also experienced in peer review and preparation of independent planning assessments and appraisals on behalf of clients.

Key Skills

Jim's experience includes:

- Project Director for multiple renewable energy projects throughout Ireland
- Lead planning consultant for major road infrastructure projects and waste projects.
- Highly qualified and experience in Irish and European planning and environmental law.
- Over 19 years as an IPI accredited Town Planner
- Acted as expert witness at ABP Oral Hearings and in Judicial Review Hearings and High Court Cases.
- Extensive experience in Offshore Renewable Energy delivery.

Previous Experience Essentials for This Project

2024

- Project Director for Long Duration Energy Storage Projects.
- Project Director on multiple wind farm projects for a variety of clients.
- Project Director on multiple solar farm projects for a variety of clients.
- Providing strategic planning advice across the Business on Road and Waste Projects.
-

2023

- Project Director on the Shelmalare Offshore Wind Farm delivering the Environmental and Planning Consultancy aspects of the project.
- Project Director on EIA Scoping and Foreshore license applications for multiple offshore renewable energy projects
- Project Director on the SEA and AA of the Eirgrid Grid Implementation Plan 2023.
- Project Director on multiple onshore Solar Farms
- Project Director on multiple onshore Wind Farms
- Project Director on onshore Battery Storage Energy Systems

2022

Employment History

2020 – Present

Fehily Timoney & Company
Director

2017 – 2020

Fehily Timoney & Company
Associate Director

2015- 2017

Fehily Timoney & Company
Senior Planner

2007 – 2015

Cunnane Stratton Reynolds (SCR)
Senior Planner

2004 – 2007

Cork County Council
Area Planner

Jim Hughes
Director of Energy & Planning

- Project Director Annagh Wind Farm, Co. Cork
- Project Director Ballinagree Wind Farm, Co. Cork
- Project Director Barnadivane Wind Farm, Co. Cork
- Project Director Fahy Beg Wind Farm, Co. Clare
- Project Director Multiple Solar farm planning projects
- Project Director for a portfolio of 4 no. Synchronous Compensator units.

2020

- Project Director for Croaghaun Wind Farm, Co. Carlow
- Project Director for Coom Green Energy Park, Co. Cork
- Project Director for multiple solar farm planning applications
- Project Director for Dernacart Wind Farm, Co. Laois

2019

- Project Director on the Kipaddogue Peaking Plant ancillary grid infrastructure development, Co. Kerry. Planning Strategy and Environmental Report
- Project Director on a 12 wind turbine development in Co. Kildare, Drehid Wind Farm.
- Project Director on the carrying out of masterplan and feasibility assessment on brownfield industrial sites in Nenagh and Roscrea on behalf of Zinc Properties
- Project Director on up to 10 Solar Farms
- Portfolio management of Shannon Commercial Properties portfolio of properties in mid-west region, including planning appraisals, zoning submissions and masterplan.

2018

- Planning Lead on the South Kerry Greenway EIAR
- Project Director for Derrysallagh Wind Farm Grid Route rEIAR
- Project Director for Raragh Wind Farm Grid Route EIAR.
- Project Director on Kilbarry Residential Development, consisting of 800-unit residential scheme
- Project Director on 19 no. unit residential development, Cork South Docklands
- Project Director 100-unit Roxborough Residential Scheme, Co. Wexford
- Project Director 100-unit Bettystown Residential Scheme, Co. Meath.
- Project Director 300-unit Enniscorthy Residential Scheme, Co. Wexford
- Project Director for Derrysallagh Wind Farm EIA.

2017

- Review of Strategic Environmental Assessment and Appropriate Assessment for the nationwide Catchment Flood Risk Assessment and Management Plans
- SEA Screening for the Bandon Transportation and Public Realm Enhancement Plan
- Provision of planning advice on substitute consent applications for wind farm, Derrysallagh Wind Farm
- Provision of planning advice on the successful Maighne Wind Farm Judicial Review
- Provision of planning advice on the preparation of an EIA for the Raragh Wind Farm cable route planning application
- Project manager for Moanvane Wind Farm proposal, Co. Offaly.

2016

- Preparation of and SEA and AA in conjunction with CAAS Ltd. of the Wind Energy Strategy for Co. Tipperary 2016
- Project Management of Castletownmoore Wind Farm SID application Co. Meath
- Project Director on the preparation of approximately 20 no. solar farm planning applications nationwide
- Preparation and coordination of planning application for 50 no. dwelling units in Croom Co. Cork
- Planning Advice and negotiation for a 49,000 tonne Metal Recycling Facility, Limerick
- Planning advice on the Derragh Wind Farm Judicial Review
- Preparation of an integrated tourism masterplan for tourism site on the banks of the River Shannon Co. Clare
- Preparation and submission of planning application for a recreation facility at the old Burlington Plan, Co. Clare
- Development Plan submissions and retained Planning Consultant for Shannon commercial Properties, provide planning advice and strategy for the management of portfolio of property in the mid-west region.

Jim Hughes

Director of Energy & Planning

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

2015

- Management and coordination of a design team for An Bord Pleanála Oral Hearing in Cork for a mixed-use Retail Development, Ballyvolane, Co. Cork
- EIS, RIA and planning application for a mixed-use District Centre Development, Cork
- Project Manager Ardglass Wind Farm, Co. Cork.

Jim Hughes

Director of Energy & Planning

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

2008 – 2014

- SID Pre-Planning consultation with An Bord Pleanála for a Local Authority Marina development in Cork
- Strategic Review of Dursey Island and Cable Car. In conjunction with AECOM and TDI, an overall economic and tourism development strategy was developed for Dursey Island
- Development Plan Monitoring and submissions on behalf of a large international Financial Institution
- EIS, RIA and planning application for a mixed-use retail development, Clonmel
- Feasibility Assessment for Waste to Energy facility, Co. Clare
- Co-ordinating a multi-disciplined team; contributed to EIS and planning submission for the regeneration of the south-western docklands area of Waterford City. The scheme consisted of 11 no. development blocks ranging in height from one floor to thirty floors over basement level
- Coordinated a multi-disciplined team of 5 Architects and preparation of EIS and planning submission for the regeneration of the south docklands area of Cork City. The proposed development was the largest planning application ever to be lodged with Cork City Council. 2007
- Coordinated the lodging of a planning application, contributed to EIA and response to Third Party appeal for a mixed-use development consisting of retail, commercial, residential, tourism, leisure development, Waterford City
- Contribute to EIA for Road and Bridge Infrastructure for Cork City Council including preparation of a scoping document and public consultations.

John Cullen

Senior Project Environmental
Scientist

Profile

John is a Senior Project Environmental Scientist with Fehily Timoney & Company. He holds a BAgSc in Agri-Environmental Science from University College Dublin and a P.Grad.Dip in Environmental Engineering from Trinity College Dublin. He is a member of the Institute of Environmental Sciences, the Institute of Engineers Ireland and the Institute of Air Quality Management.

John has experience in the coordination and completion of Environmental Impact Assessment Reports (EIAR's), Strategic Environmental Assessment (SEA) and the completion of screening and scoping reports.

John is a Department of Agriculture, Food and the Marine (DAFM) approved Agri-Environmental Advisor under the Farm Advisory System (FAS), with experience working in the areas of sustainability and environmental management of Irish agricultural systems. He has experience providing agri-environmental advisory services, including environmental & sustainability auditing of farm enterprises, agri-environmental training, soil sampling & Nutrient Management Planning (NMP), farm biodiversity and water quality assessments including results based scoring, land and habitat mapping, liaising with landowners & public bodies and carrying out appeals on behalf of agricultural operators.

Previous Experience Essentials For This Project

- SEA & AA Screening of proposed amendments to DAFM's Common Agricultural Policy (CAP) Strategic Plan (CSP), 2024-2025, including reviewing the scope and extent of the proposed amendments to the CSP and identifying the nature and character of environmental effects associated with the amendments.
- Carrying out an SEA Screening Determination and Scoping Report on behalf of Coillte for their Land Use Strategic Implementation Plan.
- Providing agri-environmental advisory services for a wide range of Common Agricultural Policy funded agricultural and environmental schemes, including: the Agri Climate Rural Environment Scheme (ACRES), Agri-Environment Training Scheme (AETS), the Green Low Carbon Agri-Environmental Scheme (GLAS), Results-Based Environment-Agri Pilot Project (REAP), Basic Payment Scheme (BPS) and trading of entitlements, Knowledge Transfer Scheme (KT), Targeted Agriculture Modernisation Scheme (TAMS), Beef Data and Genomics Programme (BDGP) and Organic Farming Scheme (OFS).
- Managing a team of ecologists and liaising with landowners to coordinate the completion of ecological field surveys and assessments for DAFM afforestation license applications.
- Providing specialist environmental advice and undertaking technical reviews of EIARs and environmental documentation submitted as part planning applications for Local Authorities in Dublin.
- Acting as Lead Verifier for the Bord Bia Origin Green Sustainability Programme, completing site and desk-based verification audits for a wide

Scientist

range of 'Origin Green' members, from small food producers to multinational food retail and brewing companies.

- **Self Employed – Environmental Consultant, 2021 – 2022**

Carrying out subcontract environmental consultancy services including environmental compliance consultancy and monitoring, noise & air quality assessments, bund integrity assessments and verification audits for the Bord Bia 'Origin Green' sustainability programme. Agri-Environmental advisory services including BPS applications, REAP environmental scheme farm assessments and applications, soil sampling and Nutrient Management Planning.

- **Environmental Efficiency Consultants, Bray, 2016 – 2021**

John was an Environmental Consultant providing environmental consultancy services to clients across a wide range of sectors, including industrial, pharmaceutical, construction/quarrying and agri-food/drink. He was working as part of a multi-disciplinary team delivering environmental reports, management plans, impact assessments, licence/permit applications, environmental compliance consultancy and verification audits for the Bord Bia 'Origin Green' sustainability programme. His role involved developing project proposals & quotations, project management, carrying out and coordinating environmental monitoring & field surveys (Air quality, biodiversity, bunds, noise, vibration & water), liaising with sub-contractors and regulatory bodies, interpreting monitoring results & data, and technical report writing.

- **Philip Farrelly & Co., Balbriggan, 2015 – 2016**

John was an Agri-Environmental Consultant providing technical agri-environmental advisory services to clients. Soil sampling & analysis, nitrates & nutrient management planning, ecological field surveys and environmental scheme consultancy.

- **Verdé Environmental Group, Kilcoole, 2014 – 2015**

John was an Environmental Operative responsible for contaminated site investigation, drilling works, environmental monitoring (soil, water & air), site remediation and groundworks, and installing/maintaining on-site remediation systems.

Professional Profile

A senior Air Traffic Management (ATM) professional with over 35 years of experience, including 25 years as an operational Air Traffic Controller across Africa, Europe, and the Middle East. Expert in Air Navigation Services (ANS), aerodrome planning, safety management, and regulatory compliance. Proven leadership in managing multinational ATM projects, developing airspace strategies, and delivering high-impact aviation solutions aligned with ICAO standards and recommended practices. Supporting the renewables industry overcome challenges in the complex aviation industry.

Key Strengths:

- **Regulatory Expertise:** Extensive knowledge of global ATM regulations and safety oversight.
- **Airspace & Aerodrome Planning:** Led large-scale airspace change projects in the UK, Qatar, and Greece.
- **Operational Leadership:** Managed air traffic service units and international search & rescue operations.
- **Project & Risk Management:** Oversaw airspace design and risk assessments for major global projects.
- **Industry Influence:** Served as Vice Chairman of the CANSO Middle East Safety Working Group and as Secretary to the Airport Operators Association Airspace and ATM committee.

Professional Experience

Independent Business Group (IBG), UK

Director, Air Navigation Services (Dec 2022 – Present)

- Leading IBG's international Air Navigation business expansion across Europe, the Far East, Middle East, and Africa.
- Spearheaded Qatar's airspace development to address capacity demands and integrate its Flight Information Region (FIR), previously under Bahrain's control.
- Negotiated airspace agreements with UAE, Bahrain, Saudi Arabia, and Iran, advising Qatar CAA.

Straten Consulting Services Limited (CSL), UK

Managing Director (Dec 2021 – Present)

- Founded Straten CSL to provide strategic ATM advisory services for ANSPs, developers, and the renewables industry.
- Delivered airspace development projects and regulatory support for disruptive aviation technologies.
- Awarded Best Global Specialist Aviation Consultancy two years running, 2023 and 2024.

Shift Aviation Solutions Ireland (SASI), Dublin, Ireland

Project Director & Shareholder (Dec 2021 – Present)

- Leading the development of SmartSlot, an innovative airspace capacity management system.
- Defining concept of operations and procedural frameworks for future implementation.

Cyrrus Limited, UK

Operations Director (Nov 2016 – Dec 2021)

- Managed UK and international airspace change projects, including satellite-based flight procedures.
- Served as Accountable Manager for airspace and procedure design with UK CAA and Irish Aviation Authority.

- Led remote tower feasibility studies in Romania, Greece, and Rwanda.
- Elected Secretary of the Airspace & Air Traffic Services Working Group (AOA).

Serco Middle East, UAE

Head of Safety & Assurance, Aviation, Technology & Defence (Nov 2014 – Oct 2016)

- Led **safety & regulatory compliance** for aviation contracts across **Bahrain, Iraq, UAE, Qatar, and Saudi Arabia**.
- Transitioned **Bahrain ANS regulations** from Serco to the Bahrain CAA.
- Conducted **airside safety audits** at **Sharjah International Airport**.

Previous Roles

- **Compliance Manager, Global Aerospace Logistics (GAL), UAE** (2013 – 2014)
- **Head ANS Quality, Compliance, Standards & Risk, Serco, UAE** (2012 – 2013)
- **Senior Air Traffic Control Officer, GCAA, UAE** (2002 – 2012)
- **Chief Air Traffic Controller, ATNS, South Africa** (1989 – 2002)

Professional Development

- **MSc Project Management**, University of Roehampton, UK (Incomplete – 2016)
- **Associate Degree in Business Management**, University of Phoenix, USA (2009 – 2012)
- **Specialist International Institute of Risk & Safety Management Member**, IIRSM, 2016
- **Member**, The Business Continuity Institute (BCI), 2018
- **Certified Business Continuity Professional (CBCP)**, Disaster Recovery Institute International (DRII) (2015)
- **EHSMS Hazard Identification & Risk Assessment**, Lloyd's Register Quality Assurance, 2013
- **ISO 9001:2008 Lead Auditor**, LRQA (2012)
- **Safety Management Systems**, Joint Aviation Authorities Training Organisation (2012)
- **ICAO Safety Oversight Audit Training** (2007)
- **Critical Incident Stress Management**, University of Maryland, Baltimore County, USA, 2006
- **Team Resource Management**, ATNS Aviation Training Academy, 2001
- **Train-the-Trainer Diploma**, Damelin Management School (1999)
- **Aerodrome, Approach & Area ATC Training**, Department of Transport (1989 – 1991)
- **Higher Diploma in Physical Science**, University of Witwatersrand, South Africa, 1986 – 1988

Jon Kearney

Technical Director (Ecologist)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Jon is a technical director (ecologist) with 20 years' experience in both the UK and Ireland. He has extensive experience in Project Management and is a specialist in Ecological surveys and assessments. His skills include an extensive knowledge of ecology survey techniques and methodology, ornithological surveys, mitigation design, water quality assessment, Appropriate Assessment and Ecological Impact Assessment. Jon has extensive experience of ornithological, mammal, reptile and amphibian surveying, habitat surveying, botanical surveying and invertebrate sampling techniques and identification.

Jon has completed EIAs, Ornithological Impact Assessments and Natura Impact Statements for a wide variety of projects in Ireland and the UK including over 75 wind farms, solar farms, pipelines, road schemes, greenways and commercial developments, as well as several plans and guidelines documents at national, county and local levels.

Jon has provided expert witness testimony at three an Bord Pleanála oral hearings. He provided ecological advice to clients and Senior Council on the O'Grainne V An Bord Pleanála High Court Case and the North Kildare Wind Farm v An Bord Pleanála High Court Case. He has considerable experience of ecological and ornithological constraints, which often includes extensive reference to, and interpretation of, Article 6 of the 'Habitats Directive', and to other EU, UK and Irish conservation legislation.

Key Skills

- Ornithological, reptile, mammal and amphibian surveying
- Habitat surveying
- Botanical surveying
- Invertebrate sampling techniques and identification

Previous Experience Essentials for This Project

- Client: Coollegrean Wind Farm Ltd - Coollegrean Wind Farm, Co. Cork
- Client: Ecopower - Glencarbry Wind Farm, Co. Tipperary
- Client: Ecopower - Boolabrien Wind Farm, Co. Waterford
- Client: Ecopower - Knocknamona Wind Farm, Co. Waterford
- Client: Ecopower - Derrynadivva Wind Farm, Co. Mayo
- Client: Ecopower - Killavoy Wind Farm, Co. Cork
- Client: Statkraft - Drehid Wind Farm, Co. Kildare
- Client: Statkraft - Moanaincha Wind Farm, Co. Tipperary
- Client: Statkraft - Barranafaddock Wind Farm, Co. Waterford
- Client: Statkraft - Meenwaun Wind Farm, Co. Offaly
- Client: SSE - Dromada Wind Farm, Co. Limerick
- Client: Statkraft - Goulacullin Wind Farm, Co. Cork
- Client: EMPower Gortloughra Wind Farm, Co. Cork
- Client: Statkraft - Goulacullin Wind Farm, Co. Cork
- Client: EMPower Gortloughra Wind Farm, Co. Cork

- **Dernacart Wind Farm, Co. Laois**

Jon was the lead ecologist for Dernacart Wind Farm in Co. Laois. He both coordinated and conducted bat, mammal, habitat and ornithological surveys within

Key Information

Qualifications

MSc. Ecological Management and Biological Conservation,
Queens University, Belfast, 2005

BSc. Applied Ecology
University College Cork, 2004

Employment History

July 2015- Present

Fehily Timoney & Company
Technical Director (Ecology)

2010 – 2015

Malachy Walsh and Partners

2009 – 2010

Jon Kearney

Technical Director (Ecologist)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

the study area of the 8 turbine Wind Farm. He prepared the Ecological Impact Assessment, and Natura Impact Statement. Jon was also involved in the consultation process with NPWS.

- **Upperchurch Wind Farm, Co. Tipperary**

Jon was the lead ecologist for Upperchurch Wind Farm in Tipperary. He both coordinated and conducted bat, mammal, habitat and ornithological surveys within the study area of the 22 turbine Wind Farm. He prepared the Ecological Impact Assessment, Appropriate Assessment and Ecological Management and Habitat Restoration Plan. Jon was also involved in the consultation process with NPWS.

- **'O Grianna Case' Derragh Wind Farm, Co. Cork**

Jon was the lead ecologist for Derragh Wind Farm for the most recent application in 2015. The planning for the previous application had been overturned in the high court in the 'O' Grianna Case' due to lack of consideration for the Grid Route. Jon prepared the Natura Impact Statement and Flora and Fauna Chapter of the EIS for the most recent revised application which received planning from An Bord Pleanála.

- **Moanvane Wind Farm, Co. Offaly**

Moanvane is a 12-turbine project in Co. Offaly. FT are acting as the planning consultant for the client and project supervisor for the design stage of the project. Jon was the lead ecologist for the project coordinating ecological survey for both the wind farm and grid route including ornithological, mammal, habitat, bat, aquatic and botanical survey. He coordinated the consultation process with NPWS and other relevant consultees for ecology. Jon prepared the Natura Impact Statement and Biodiversity chapter of the EIS.

- **Baseline Surveys for bat at 34 Bord na Móna bog sites in the midland, Counties Kildare and Offaly**

Jon coordinated and conducted a full suite of bat surveys at 34 Bord na Móna bogs in the midlands. A full year of surveys were carried out in 2015 including activity surveys, roost surveys and surveys from height using both automated and manned bat detectors.

- **Knockranny Wind Farm 42MW**

Jon was the lead ecologist for Knockranny. He carried out Ornithological surveys, habitat surveys, bat surveys and Kerry slug surveys within the site and the greater surroundings. He prepared the Ecological Impact Assessment, Appropriate Assessment, Ecological Management and Habitat Restoration Plan and the Haul Route Selection Report. Jon was also involved in the consultation process with NPWS.

- **Pairc Ui Chaoimh Redevelopment Cork City**

Lead ecologist for the redevelopment of Pairc Ui Chaoimh. Jon prepared the Flora and Fauna chapter of the EIS and the Natura Impact Statement. Jon was the expert witness for ecology representing the GAA at the subsequent An Bord Pleanála oral hearing following which the project received full planning.

- **Athea Wind Park 40MW**

This project, consist of three adjacent wind farms, consists of 20 turbines. A large majority of the site is located within the Stack's to Mullaghareirk Mountains, West Limerick Hills and Mount Eagle SPA (Site Code: 004161). This site and has been designated as a Special protection area (SPA) under the E.U. birds directive of special conservation interest for the hen harrier. Jon was the lead ecologist for Athea. He carried out ornithological surveys, small mammal survey, habitat surveys, vegetative quadrat surveys and bat surveys within the site and the greater surroundings. He prepared several preplanning reports and the ecological monitoring report for 2013. Jon was also involved in the consultation process with NPWS and IFI.

- **Lettercraffroe Wind Farm 24MW**

This project, in two phases, consists of 31 high mast low wind speed 2.5mw turbine generators. Jon was the project ecologist for Lettercraffroe. He carried out ornithological surveys, habitat surveys, bat surveys and Kerry slug surveys within the site and the greater surroundings. He prepared the Ecological Impact Assessment, Appropriate Assessment, Ecological Management and Habitat Restoration Plan and the Haul Route Selection Report. Jon was also involved in the consultation process with NPWS

- **Lenamore Wind Farm, Co. Kerry 24MW**

Jon was the lead ecologist for Leanamore Wind Farm. Jon prepared the Ecological Impact Assessment ecological restoration and management plan for hen harrier and the Appropriate Assessment for the proposed Wind Farm. He carried out ecological field surveys of the entire site including habitat and mammal surveys.

- **Toberatoreen Wind Farm, Co. Kerry 17MW**

Lead Ecologist responsible for the Natura Impact Statement, ornithological surveying, terrestrial and aquatic ecological assessment, EclA and ecological restoration and management plan. Jon was also involved in the consultation process with NPWS and IFI.

- **Ecological Surveys Knockacummer Permanent 110kV Underground Grind Connection**

Jon Kearney
Technical Director (Ecologist)

Lead Ecologist for the project. Reviewed the final report and managed junior ecologists for the ecological surveys

- **Lisheen Wind Farm Phase I Post-Construction Monitoring 54MW**

The 18 turbine Lisheen Wind Farm became fully operational in 2009. Planning permission was granted for the development with the condition that three years of post-construction monitoring be conducted within the wind farm site. Jon was the project manager for Lisheen Wind Farm Post-construction monitoring. He has carried out vantage point, transect and I-WeBS surveys for birds. Jon is also coordinating fatality searches for both bats species and birds within the site. He is also coordinating the liaison process.

- **Glentane phase II Wind Farm Ecological Clerk of Works water quality monitoring**

Jon carried out weekly audits at the wind farm site during the construction period in relation to sediment and erosion control measures. He also conducted both biological and physio-chemical water quality sampling at sampling stations within the greater catchment area of the wind farm and produce weekly reports for the developer

- **Cahir Solar Farm, Co. Tipperary**

Jon was the senior ecologist for Cahir Solar Farm. He coordinated the ornithological surveys, habitat surveys, mammal surveys within the site and the greater surroundings. He reviewed and managed the preparation of the Ecological Report, designed the ecological enhancement measures, Appropriate Assessment Screening Report and ecological enhancement measures. Jon was also involved in the consultation process with NPWS.

- **Carrick Solar Farm, Co. Tipperary**

Jon was the senior ecologist for Carrick Solar Farm. He coordinated the ornithological surveys, habitat surveys, mammal surveys within the site and the greater surroundings. He reviewed and managed the preparation of the Ecological Report, designed the ecological enhancement measures, Appropriate Assessment Screening Report and Natura Impact Statement. Jon was also involved in the consultation process with NPWS.

- **Ballyhale Solar Farm, Co. Kilkenny**

Jon was the senior ecologist for Ballyhale Solar Farm. He carried out Ornithological surveys, habitat surveys, mammal surveys within the site and the greater surroundings. He reviewed and finalised the Ecological Report, designed the ecological enhancement measures, Appropriate Assessment Screening Report and Natura Impact Statement. Jon also coordinated the consultation process with NPWS.

- **Carragraigue Solar Farm, Co. Cork**

Senior ecologist prepared Natura Impact Statement for the Carragraigue Solar Farm, consultation with statutory bodies, designed the ecological enhancement measures and conducted ecological surveys at the site including habitats, mammals, birds and bats.

- **Glenamoy House Solar Farm, Co. Meath**

Senior ecologist prepared the Natura Impact Statement and Ecological Appraisal for the project, coordinated consultation with statutory bodies, designed the ecological enhancement measures for protected species including yellowhammer and conducted ecological surveys at the site including habitats, mammals, birds and bats for the site located near Laytown, Co Meath.

- **DECC Guidance document - Provision of a detailed scientific assessment of peatland landslide**

Fehily Timoney and Company Ltd. hydrogeologists and ecologists are conducting a detailed scientific assessment on the main contributing factors leading to three major peatland landslides in Leitrim, Kerry, and Donegal on behalf of the Department of the Environment, Climate and Communications (DECC), National Parks and Wildlife Service (NPWS) and Geological Survey Ireland (GSI). Jon is managing the ecological element of this national guidance document.

- **South Kerry (Glenbeigh to Cahersiveen) Greenway.**

Jon was the project ecologist for the route selection stage of the development and he is currently FT Environmental Design Lead for the project. He both coordinated and carried out a full suite of ecological studies including ornithological surveys, habitat surveys, bat surveys and Kerry slug surveys along the entire corridor of the route and the greater surroundings as part of the route selection process. He prepared the Ecological Impact Assessment and the NIS for the route selection report. Jon also coordinated the consultation process with NPWS and other conservation stakeholders.

- **Doolin Pier Development, Co. Clare**

A new harbour development comprising of a 103 metre pier new pier structure, revetment, bed rock dredging, access road and associated works at Doolin, Co Clare. The new facility offered improved access to the Aran Island from the mainland. Jon was the lead ecologist for the EIA. Coordinating and undertaking: Ecological survey (fauna, flora and habitats). Production of an NIS and terrestrial ecology chapter of the EIS. Expert witness at oral hearing for project which received planning

- **Southeast Clare Habitat Mapping**

Jon Kearney
Technical Director (Ecologist)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Carried out phase I habitat survey for Clare County Council of all habitat types within a total study area of 400km². Habitats were classified to level 3 according to a guide to habitats in Ireland (Fossitt, 2000). The information gathered was used to produce a comprehensive habitat map of the region. Among the EU Annex I habitats recorded during the survey was 'depressions on peat substrates of the rhynchosporion (7150)'. This habitat was previously unrecorded within the region and maybe designated as a site of international importance following further investigation.

- **Ardcooney Integrated Tourism Masterplan, Co. Clare**

Fehily Timoney & Company prepared an Integrated Eco-Tourism Masterplan for Ardcooney in County Clare. The masterplan consisted of the development of land along the River Shannon for tourism including a Caravan Area, Mobile Homes, Glamping, Kayak Storage and camping pods. Jon conducted ecological surveys within the study area and prepared a subsequent Stage Two NIS assessing phase of project along with the overall Masterplan for the area which received planning.

- **Ballynora to Lehenaghmore Bord Gais Pipeline**

Bord Gáis proposed to construct a natural gas pipeline 5.5km in length extending from Ballynora to Lehenaghmore, Co. Cork. A Preliminary Environmental Assessment (PEA) was prepared in order to assess the environmental constraints associated with the proposed pipeline. A desktop review was carried out to identify features of ecological importance within the study area followed by a phase I habitat survey and mammal survey. Prepared flora and fauna chapter of the Environmental report.

- **Doon Post Primary School Badger Derogation Licence, Co. Limerick**

Provided ecological expertise during the construction phase of Doon Post Primary School. Project manager/ecologist coordinating badger mitigation measures. Jon conducted activity study for badgers (14 setts), bats and amphibians. Consultation with NPWS and IFI. Application for wildlife licence and coordinating mitigation measures stipulated in licence including the building of an artificial badger sett, exclusions, hard blocking and sett removal.

- **M20 Controlled Motorway (London to Dover Motorway)**

Carried out protected species surveys for Highways Agency at 23 sites on the M20 Motorway including a full botanical survey of each site. The information was then incorporated into the environmental works information to ensure that environmental legislation was adhered to during works. Protected species identified included dormice, common lizard, slow worm, otter and badger. The role also involved the onsite supervision of works and auditing to ensure that the subcontractor was adhering to mitigations.

- **Poorman's Bridge, County Laois**

Project ecologist conducted ecological surveys for bats, mammals, as well as habitat and aquatic surveys for Annex I habitats, white-clawed crayfish, salmonids and lamprey. The bridge is located upstream of the only population in the world of the Nore Freshwater Pearl Mussel. Prepared Natura Impact Statement and reviewed detailed construction works method for submission to An Bord Pleanála.

- **Delphi Bridge Restoration Works, Co. Mayo**

The role involved the on-site supervision of construction works to ensure that the agreed method statement was being adhered to for this extremely sensitive site. The bridge was situated on the most important river in Ireland for Freshwater Pearl Mussel. The first year of works was cancelled due to a catastrophic flooding event resulting in damage through the movement of and spillage of sandbags downstream into freshwater pearl mussel habitat, and damage to the riparian vegetation, which was not mitigated against at the time. Project ecologist for the second year of proposed works (2012) following this event. There was ongoing consultation with directors and regional officers within NPWS and IFI. Jon conducted daily turbidity and water chemical analysis which was reported daily to NPWS, IFI and Mayo County Council.

- **Development of Beamish and Crawford Site, Cork City**

Heineken Ireland Ltd. and BAM applied successfully for planning permission to build a multi-purpose development on the site of the old Beamish and Crawford Brewery on South Main Street, Cork City centre. Jon was the project ecologist for the project. He carried out habitat surveys and bat surveys within this urban site and the greater surroundings. He prepared the Ecological Impact Assessment and Appropriate Assessment. Jon was also involved in the consultation process with NPWS and designed a habitat enhancement plan including the installation of green roof as part of the design of the development

- **GlaxoSmithKline Coastal Revetment**

Project ecologist for GSK coastal revetment. He conducted ornithological, habitat and protected species surveys at the proposed site. He is also coordinated the liaison process with NPWS, prepared an Appropriate Assessment and successfully completed a derogation license for an otter holt recorded within the footprint of the development.

- **M23 Passive Sign Installation, London**

Project involved the installation of signs along the M23, the main motorway linking London to the south coast of England. A full ecological survey was carried out for 5 sites looking at the presence of protected species and noxious weeds onsite. Prepared a Preliminary Environment Assessment citing possible risks and mitigations for these risks before works could

Jon Kearney
Technical Director (Ecologist)

commence. The role also involved the onsite supervision of works, auditing to ensure that the subcontractor was adhering to mitigations and conducting tool-box talks to all on-site personnel.

- **Dungarvan Outer Bypass Route Selection Report**

The National Roads Authority plan to construct an Outer Bypass of Dungarvan, Co. Waterford. Carried out phase I habitat survey of the entire study area, consisting of a corridor of 200m wide along each Route Option. A protected species survey was also carried out for both flora and fauna along each route option.

- **The Highways Agency Japanese Knotweed Management Plan, UK**

Carried out survey for the invasive species Japanese Knotweed for the counties of Kent, Surrey, East Sussex and West Sussex. The information gathered was incorporated into a Management Plan for all Highway Agency land within Southeast England.

- **Daventry Canal Development, UK**

Daventry District Council was developing a new canal arm linking Daventry town centre with the Grand Union Canal about 3 miles to the north. Carried out ecological surveys for mammals (badger, otter and dormouse) and reptiles within the footprint of the development.

- **Aughinish Alumina Ltd. (AAL) BRDA Extension, Co. Limerick**

AAL operate a bauxite refinery plant situated on Aughinish Island, Co. Limerick. Residues from the extraction process are directed to the Bauxite Residue Disposal Area (BRDA). The proposed extension of the BRDA resulted in the loss of three old disused badger setts and one otter holt. The project involved the removal, under licence, of the three disused badger setts. Badger and otter field surveys determined the optimal location for artificial sett/holts. The project involved the constant liaison with statutory bodies to ensure that the client was meeting the requirements specified in the EIS. I designed and supervised the construction of three artificial otter holts and one artificial badger sett.

- **Water Quality Assessment Knockathea & Dromada Wind Farms**

Airtricity proposed to develop two wind farms near Athea village in the west of Co. Limerick. A benthic macro invertebrate survey was carried out within the rivers and invertebrates identified to the taxonomic level required to calculate Q-ratings. A Physico-chemical survey was also carried out at all waterways potentially at risk from the development. A Water Quality Assessment was prepared for the development of two wind farms at Knockathea & Dromada.

Other Ecological Projects completed by Jon

- Client: Dairygold Ltd. - Dairygold Redevelopment, Co. Cork (2014)
- Client: Louis Keating / Clare County Council - Kilrush Marina redevelopment and dredging, Co. Clare (2012)
- Client: GSK - Various projects including a coastal revetment, and several new buildings within the plant, Co. Cork (2010-2015)
- Client: Fenit Harbour Board - Fenit Marina and Harbour Extension Preliminary Ecological Studies & EIA Screening, Co. Kerry (2011)
- Client: The Department of Arts, Heritage and the Gaeltacht - Clifden and Inishbofin Airport Terminals (2011)
- Client: Kerry County Council - Ballyseedy Woods River Improvement Scheme, Co. Kerry (2011)
- Client: Coollegrean Wind Farm Ltd - Coollegrean Wind Farm, Co. Cork (2014)
- Client: Scartaglen Wind Farm Ltd - Scartaglen Wind Farm Phases I and II, Co. Kerry (2012 - 2015)
- Client: Castlegregory golf club - Castlegregory golf course club house (2013)
- Client: Ecopower - Glencarbry Wind Farm, Co. Tipperary
- Client: Ecopower - Boolabrien Wind Farm, Co. Waterford
- Client: Ecopower - Knocknamona Wind Farm, Co. Waterford
- Client: Ecopower - Derrynadivva Wind Farm, Co. Mayo
- Client: Ecopower - Killavoy Wind Farm, Co. Cork
- Client: Met Eireann – Valentia Met Eireann Air Monitoring Facility
- Client: Longford County Council – Four bridge restoration projects, Co. Longford
- Client: Kerry County Council – N70 Kilderry Road, Co. Kerry
- Client: ACARD Ltd. – Cahersiveen to Reenard Point Walkway, Co. Kerry

Jon Kearney

Technical Director (Ecologist)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Key skills and experience

- Have applied for, conducted surveys and supervised construction work under the terms of and completed final reports for several derogation licences for bats, badger, otter, pygmy shrew, electrofishing, reptiles, water vole, dormouse and Kerry slug.
- Expert Witness (Project Ecologist): at three An Bord Pleanála Oral Hearings, Cluddaun Wind Farm (Mayo), Pairc Ui Chaoimh (Cork) and Doolin Pier (Clare)
- Phase I habitat surveys, Fossitt (2000), vantage point survey (birds), transect surveys (birds), point count (birds), AnaBat (Bats), Q sampling (kick samples), White clawed crayfish surveys, electrofishing, mammal surveys (Longworth traps, field surveys, dormouse tubes, motion detection cameras).

PERSONAL PROFILE

Jorden is a Landscape Architect with seven years' experience and has been with Macro Works since 2021. She is principally involved in the preparation of LVIA reports, as well as the supporting Landscape Mitigation Plans, viewpoint selection and capture. This role involves characterising the existing landscape and the subsequent impacts of the proposal through calibrated site photomontages and professional judgement. Jorden manages her own projects and coordinates input from the graphics and mapping team as well as contributing to larger projects managed by others.

EDUCATIONAL AND PROFESSIONAL STATUS

- Masters (Hons), Landscape Architecture, Lincoln University, New Zealand (2019).
- Bachelor's (Hons), Landscape Architecture Lincoln University, New Zealand (2018).

EMPLOYMENT HISTORY

- 2021 to Present – Landscape Architect, Macro Works (APEM Group)
- 2017 to 2021 – Landscape Architect, Align Limited.

FURTHER EXPERIENCE

- Corporate Member of the Irish Landscape Institute

SELECTED RECENT PROJECT EXAMPLES - OFFSHORE AND ONSHORE WIND ENERGY PROJECTS

Jorden has experience in each of the stages associated with offshore wind farms, from early stage scoping through to Planning Stage, including Seascape, Landscape and Visual Impact Assessments, Visibility Analysis, Viewpoint Selection, and mitigation plans for onshore infrastructure.

NISA Offshore Wind Park - Constraints analysis, Scoping, SLVIA, Photomontages, ZTV mapping analysis, Landscape Mitigation Plans for Onshore elements and Grid Connection works.

Sceirde Rocks Offshore Wind Farm – Viewpoint Selection, Amenity feature scoping and screening, SLVIA, ZTV mapping analysis

Setanta Offshore Wind Farm - Constraints analysis, Scoping

Knockannarragh Wind Farm and Substation (8T) – Project Lead, LVIA, site work and photography

Keerglen Wind Farm (8T) – Project Lead, LVIA, site work and photography.

Cush Wind Farm (8T) – Project Lead, LVIA, site work and photography.

Charafeena Wind Farm (7T) - Project Lead, LVIA, site work and photography.

Castlegarden Wind Farm (5T) – Project Lead, LVIA, site work and photography

Cloonanny Wind Farm (2T) – Project Lead, LVIA, site work and photography.

Firlough Wind Farm (13T) and Hydrogen Plant – Co-lead, LVIA baseline analysis, site work and photography.

Cabragh Wind Farm (4T) – Co-lead, LVIA

Fossy Wind Farm (13T) – Co-lead, LVIA, site work and photography

Tullaghboy Wind Farm (6T) – Co-lead, LVIA, site work and photography

Tirawley Wind Farm (21T) – Baseline analysis, Visual Impact Assessment, site work and photography

Julian Borlado

Senior Project Geotechnical Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Julian holds a master's degree in Geotechnical Engineering with experience in civil track works, ground improvement, tunnels, roads and dewatering systems. He has 12 years' experience working in Ireland, Saudi Arabia, United Kingdom and Spain. Besides that, he has experience in geotechnical design for bridges, windfarms, photovoltaic plants, drinking water pipelines and edification.

He has also been involved in geotechnical site investigation, geological logging, geotechnical and environmental investigation works monitoring in-situ and laboratory testing for roads and edification, as well as consultancy and instrumentation monitoring for railways and tunnels.

Key Skills

- Landfill
- Tunnels and excavations
- Soil improvements
- Roads and railways
- Geotechnics
- Geology
- Civil Infrastructure
- Open Channel
- Pipeline Hydraulics
- Windfarms
- Photovoltaic plants
- Environmental Assessment

Previous Experience

- **Drehid Wind Farm, 2023 to Present**
Julian has managed the peat and ground assessment campaign, and he has been author of the Soils, Geology and Hydrogeology Chapter for the Environmental Impact Assessment Report and the General Peat Stability Assessment Report. He has also been author of the foundations design, including turbines, access tracks, temporary compounds, landscaped site earthworks surplus storage such as berms and clearfell areas, and he has planned the related earthworks for excavation and imported fill.
- **Aghowle Peat Assessment, 2024 to Present**
Julian has led and carried out a peat probing assessment for a development feasibility study of site in Aghowle, Co. Wicklow.
- **Corranure Landfill: Cell 5 Site Investigations Contract, 2024 to Present**
Julian has carried out the Ground Investigation Supervision, including field works monitoring, contractor instruction, laboratory request, and review of data and contractor factual report.
- **South East Greenway, 2025**
Julian has carried out the Ground Investigation Supervision, including field works monitoring, contractor instruction, laboratory request, and review of data and contractor factual report for the Proposed South East Greenway.

Key Information

Qualifications

Master of Science Degree, Geological Engineering, Alicante, Spain, 2008

Professional Memberships

Member, Engineers Ireland (2021)

Member, Association of Mining Engineers of KSA (2015)

Member, Association of Geological Engineers of Valencian Region, Spain, AIGCV (2008)

Employment History

2019- Present

Fehily Timoney and Company, Dublin

2018 – 2019

Irish Geotechnical Services Limited (IGSL), Ireland

2014 – 2017

TYPSA, Saudi Arabia

2013 – 2014

Planform, Spain

2012 – 2013

Self-employed, technical software professor, United Kingdom

2009 – 2012

Geoconsult, Spain

2007 – 2008

Proccays, Spain

Julian Borlado

Senior Project Geotechnical Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **South Mayo Stage II Feasibility Study, 2024**
Julian has been author of a Feasibility Desk Study for a Solar Farm at a South Mayo site.
- **Dungloe Wind Farm, 2024**
Julian has carried out the preliminary peat assessment for the proposed Dungloe wind farm design.
- **N56 Falcarragh to Gortahork Road Scheme Phase 2, 2024**
Julian has been involved in the ground investigation supervision for the N56 Falcarragh to Gortahork Road Scheme in Donegal.
- **Islandmore Wind Farm, 2024**
Julian has carried out the preliminary peat assessment for the wind farm design.
- **Easky Wind Farm, 2024**
Julian has carried out the preliminary peat assessment for the wind farm design.
- **Feasibility Study for Long Duration Energy Storage Projects, 2024**
Julian Has planned and managed two feasibility studies for two potential long duration energy storage sites at Drummalough and Lettermore, Co. Donegal.
- **Civil Engineering Consultancy Services for improvement works Barrow Blueway, 2023 to 2024**
Julian has designed, directed, and supervised the Ground Investigation for a canal pedestrian crossing design at Barrow Blueway.
- **Littleton Wind Farm, 2023 to 2024**
Julian has been involved in the ground investigation and the peat/ground conditions assessment, including field works supervision, laboratory proposal, factual report review, and peat survey.
- **Cloonkett Wind Farm, 2023 to 2024**
Julian has been involved in the preliminary peat survey, hydrogeological assessment, ground investigation supervision, and laboratory testing proposal.
- **Engineering Consultancy Services for Grand Canal Greenway Construction, 2022 to 2024**
Julian has been involved in the geotechnical design of Grand Canal Greenway between Sallins and the Offaly Border. It has included ground investigation design and monitoring, foundations design for bridges and earthworks design. He has also been co-author of the related Geotechnical Design Reports.
- **Shancloon Wind Farm EIS, 2023 to 2024**
Julian has been involved in the ground investigation supervision for Shancloon Wind Farm EIS, with special concern in karst identification.
He has also been involved in the peat and ground conditions assessment, and he has been author of the Soils, Geology and Hydrogeology Chapter for the Environmental Impact Assessment Report.
- **Trim Millennium Pedestrian Bridge Scheme, 2023 to 2024**
Julian has been involved in the ground investigation, structural testing supervision, and geotechnical detail design for a replacement 30m span pedestrian bridge at Trim, Co. Meath.
- **Lemanaghan Wind Farm, 2023 to 2024**
Julian has been involved in the ground investigation supervision and the peat and ground conditions assessment, including field works supervision, laboratory proposal, factual report review, and peat survey.
- **Legan Cemetery Drainage Assessment, 2024**
Julian has been involved in a ground investigation performance as site engineer, including field works management, surveying, logging, sampling, and logs elaboration.
- **Dublin Airport PFOS Investigation, 2024**
Julian has been involved in the ground bulk densities assessment through ground investigation results to evaluate earth removal volumes.
He has also been directing, sampling and logging in Dublin Airport trial pits for WAC and PFOS testing, and he is the author of the related Factual Report.
- **Ballynahone Long Duration Battery Storage Planning and Environmental Services, 2024**
Julian has been involved in a preliminary ground investigation performance as site engineer, including field works management, surveying, logging, sampling, pump testing, and logs elaboration.
- **Ballivor and Oweninny Wind Farms, 2024**
Julian has been involved in the laboratory testing proposal for the geotechnical design.
- **N22 Flood Alleviation Scheme for Garries Bridge, 2022 to 2024**
Julian has carried out the ground investigation design for technical consultancy services, which has included project design and environmental evaluation.

Julian Borlado

Senior Project Geotechnical Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Remediation of Contaminated Lands at Whitestown, Co. Wicklow, 2022 and 2024**
Julian has carried out the ground investigation supervision for landfill geometry determination and waste acceptance criteria testing.
He has also managed a trial pitting campaign along the existing access route for ground contamination assessment and has been author of the related Factual Report.
- **Dublin Array support at Ballyogan Landfill, 2023**
Julian has carried out a preliminary ground investigation supervision for a potential windfarm proposal with the purpose of identifying the limits of Ballyogan Landfill and confirming geophysics results.
- **N56 Doonwell to Drumbrick Road Scheme, 2022 and 2023**
Julian has carried out ground investigation supervision for the N56 improvement road project at various design stages.
- **Geotechnical Consultancy for Clonfad Solar Farm Design, 2022 to 2023**
Julian has carried out the ground investigation plan, preliminary peat assessment and ground investigation supervision for the solar farm design.
- **Agricultural Building Barryscourt, 2023**
Julian has been involved in the Drainage Impact Assessment, Mitigation and Site Drainage to minimise potential future flooding.
- **Knockshanvo Wind Farm, 2023**
Julian has carried out a trial pitting supervision for potential borrow pits assessment and ground investigation for the proposed substation.
- **Ballyogan Landfill, 2023**
Julian has been involved in a retaining wall design beside the Ballyogan Landfill for a cycle track construction.
- **Counnagappul Wind Farm EIAR, 2023**
Julian has elaborated the Lands, Soils and Geology Chapter of the EIAR for the wind farm design.
- **M28 Watermain Diversion at Carrs Hill, 2023**
Julian has carried out the slope stability analysis and the ground investigation design for the existing watermain inspection.
- **N19 Shannon Airport Access Road Improvement Scheme, 2023**
Julian has been involved in the geotechnical design, including ground investigation design and monitoring and the elaboration of the Ground Investigation Report.
- **Garryhinch Wind Farm, 2022 to 2023**
Julian has carried out the ground investigation supervision for planning and environmental consultancy and peat/ground assessment.
- **Civic Amenity Facility at Gort, Co. Galway, 2022**
Julian has managed all the ground investigation stages for the development of a civic amenity facility for separation/segregation of domestic waste to be transferred to authorised facilities.
- **Wexford Town to Rosslare Strand Greenway Route Selection and Planning, 2022**
Julian has written the Soils, Geology and Hydrogeology Section for the Constraints Study Report.
- **Cappagh Compressed Natural Gas Station, 2022**
Julian has designed and monitored the ground investigation for geotechnical purposes and utilities detection for the detailed design of an entrance in to a GNI facility on Cappagh Rd, Ballycoolen, Dublin.
- **TII, 2022**
Julian has been involved in the Dunkettle Interchange design as Project Geotechnical Engineer. He has been involved in ground improvement design, including Controlled Modulus Columns (CMC); piled embankment; band drains & surcharge; and Excavate & Replace Method. He has been in charge of site investigation data review and process; ground investigation report elaboration; and geotechnical detailed design for structures, including bridges, retaining walls, widenings and gantries. The geotechnical design included foundations design, ground assessment and slope stability analysis according to EC7 and I.S., using specialized software. He has also been involved in M7 motorway widening as geotechnical engineer for earthworks quality control, fill materials testing and execution monitoring.
- **Ballydermot Wind Farm, Co Offaly/Kildare, 2022**
Julian has supervised the geotechnical site investigation for turbines foundations, which comprised trial pitting, logging, competent level determination, sampling, and laboratory testing.
- **Abbotstown AGI Capacity Upgrade, 2021**
Julian has designed the necessary site investigation specification to assess the risk of subsidence as part of an upgrade preliminary design.

Julian Borlado

Senior Project Geotechnical Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Ballivor Wind Farm, 2021**
Julian has supervised the geotechnical site investigation for local borrow pit search, which comprised trial pitting, logging, sampling, and laboratory testing.
- **Glenora Windfarm Hydrogeology for SSE, 2021**
Julian was in charge of a preliminary geotechnical and hydrological investigation prior design, including peat stability assessment, orography, geological cartography, hydrology dynamics, existing culverts, low points inventory and driven standpipes installation for a windfarm project in Glenora, Co. Mayo. He has also monitored the hydrological dynamics based on the driven standpipes previously installed as well as superficial water points observations.
- **Ballinagree Wind Farm EIAR, 2020**
Julian has been involved in the environmental impact assessment of a wind farm in Ballinagree, Co. Cork. His duties included geotechnical risk assessment, borrow pits proposal and ground investigation proposal.
- **Oil Interceptor Options Costing at MSD Brinny, 2020**
Julian has been involved in the spread foundations design of an oil interceptor at MSD Brinny, Innishannon, Co. Cork.
- **Balleally landfill slope stability control, 2020**
Julian has designed a monitoring network and procedures for slope stability survey and also protocol for remedial actions for a decommissioned landfill in Balleally (Co. Dublin).
- **A737 Dalry Bypass for Roadbridge, 2020**
Julian has been involved as Project Geotechnical Engineer in the detailed design and construction support of the A737 Dalry Bypass tender design which comprises of 3,800m approximately of new carriageway, 2,450m approximately of Wide Single 2 + 1 layout with overtaking lanes in opposing directions; and 1,350m approximately of single carriageway layout including the provision of a differential acceleration.
- **Gantry crane in Dublin's harbour for SIAC, 2020**
Julian has designed deep foundations for a gantry crane construction in Dublin's harbour.
- **Brookfield and Coillte, 2019**
Julian has collaborated as project engineer for preliminary geotechnical and hydrological assessment for a wind energy development referred to as the Croom Green Energy Park located in north County cork. He has also participated as geotechnical engineer in a preliminary design, EIAR, SI for proposed wind farm development of up to 22 turbines, associated grid connection route and turbine delivery route in Ballinagree, Co. Cork.
- **Gas infrastructure construction for Fingleton White & Gas Network Ireland, 2019**
Julian has worked as site inspector for foundations execution of a gas infrastructure as per design and specification in Laughanstown, Dublin.
- **Bridge rehabilitation for Cork County Council, 2019 and 2023**
Julian has collaborated as design engineer in a bridge rehabilitation in Cork. He assessed the preliminary geotechnical conditions and made a proposal for site investigation and ground improvement. He has also reviewed the geotechnical factual report and analysed the geotechnical results. He has also been author of the Derryduff Bridge Geotechnical Design Report.
- **Wind Farm for NRS, 2019**
Julian was design engineer for a windfarm in Boolard, Cork. He was in charge of defining the foundations, access roads, hardstands as well as the inspection plan. He has also monitored the quality control for earthworks and fill materials.
- **Extension to Substation for Jacobs, 2019**
Julian was monitoring and reporting the site investigation for a green energy substation extension in Thurles, Co. Tipperary.
- **Windfarm for MKO, 2019**
Julian was involved in the preliminary geotechnical investigation for a windfarm in Derrinlough, Co. Offaly.
- **Dewatering system for Roadbridge, 2019**
Julian has designed a temporary dewatering proposal for a data centre project located immediately to the north of Junction 4 of the M3 motorway at Clonee, Co. Meath, consisting in a perimetric ditch with pumping stations, line of water treatment and avoidance protocols for environmental risk assessment.
- **Improvement works to the Great Southern Greenway for Limerick City & County Council, 2022**
Julian has designed the Site Investigation plan for the improvement works to be carried out on the Great Southern Greenway Limerick, which include resurfacing, drainage improvements, farm crossing improvements, public road crossing improvements and various related ancillary works.

Julian Borlado

Senior Project Geotechnical Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Cloncreen Wind Farm design for Farrans, 2019**

Julian was involved as project engineer for foundations proposal for a wind farm tender in Cloncreen for Farrans.

- **Site investigation, in-situ & laboratory testing for edification in IGSL, 2018**

Julian has been in charge of many projects regarding edification, urban development and environmental studies for companies such as Graham, Benett, Jacobs, McLaughlin & Harvey, Cairn Homes, Flynn Management & Contractors and Park developments.

- **Saudi Arabian Railway Company, 2017**

Julian has been a resident and geotechnical engineer for Saudi Arabian Railway Company (SAR) civil tracks works in Jubail, line CTW130. He has also been resident and geotechnical engineer for SAR civil track works in Ras-Al-Khair, line CTW140. He has been a design reviewer and monitored the works for dynamic replacement method for ground improvement in very loose sands (Sabkha formation). He has given assistance, monitoring and advice for site investigation and geotechnical assessment in Dammam, line CTW120.

- **Geotechnical Engineering for Site Investigation in residential project area near Riyadh, 2016**

Julian has managed the preliminary geotechnical investigation prior design for an urban development near Riyadh for Arriyadh Development Authority (ADA).

- **Geotechnical engineering for Site Investigation in 50 MWac PV Plant at Layla, Al-Alflaj Province for Taqnia Energy, 2016**

Julian has designed the geotechnical site investigation as well as selected, recruited and monitored the geotechnical company for drilling and testing. The project is comprised of design & built of a 50 MWac Photovoltaic Plant beside Layla town, in Al-Alflaj Province for Taqnia Energy.

- **Geotechnical engineering and Site Investigation in a pipeline project from Haradh to Riyadh (KSA) for NWC, 2016**

Julian has managed and monitored the site investigation for a 360 km long drinking water pipeline connecting Haradh water treatment plant and the south of Riyadh for the National Water Company (NWC) of Saudi Arabia.

- **Geotechnical Engineering and Site Investigation for Riyadh Metro Project Package 3 (Lines: 4, 5 and 6) (2014 to 2016) for Arriyadh Development Authority (ADA)**

Julian has managed and monitored the site investigation for Riyadh Metro Project Package 3 (Lines: 4, 5 and 6). He has also monitored karstified limestone grouting for tunnelling, underground stations founding, depot and shafts. He has been involved in the geotechnical interpretative reports and detailed design. He has monitored geotechnics during construction, specially tunnelling and excavations.

- **Geotechnical, geological and structural monitoring in High Speed Train Tunnel construction (2009 to 2012) for ADIF, Spain**

Julian has been involved in geotechnical, geological and structural monitoring in High Speed Train Tunnel construction with the following responsibilities:

- Advice and monitoring for ground improvement consisting in a jet-grouting columns grid performed on a superficial slab;
- Geotechnical research to predict the tunnelling influence;
- Auscultation monitoring data in tunnel and surface by GIS;
- Structural construction monitoring;
- Geological monitoring by three methods;
 - Monitoring in excavation face;
 - Mapping research;
 - Geological surveys;
- Development of technical drawings and maps by specialized software.

Lisa Courtney – Director and Senior Cultural Heritage Consultant

**BA (Hons), MSc (Ag), Dipl. Bus. Mgt, Adv. Dipl. Planning & Env. Law
MIAI**

- Certificate in World Heritage Management, University College Dublin (UCD), 2022
- Advanced Diploma in Planning and Environmental Law, Kings Inns, 2020
- Certificate in Condition Surveys of Historic Buildings, University of Oxford, 2017
- Certificate in Assessment of the Setting of Heritage Assets, University of Oxford, 2013
- Diploma in Business Management, Dublin Institute of Technology, 2008
- MSc (Ag) in Environmental Resource Management, UCD, 1993
- BA (Hons) Archaeology & Economics, UCD, 1991
- Wetland archaeology (UCD) ESF Funded Training Project, 1991
- Member of The Institute of Archaeologists of Ireland (IAI)
- Member of the International Council of Monuments and Places
- Certificate in PSCS, Safe Pass registered, manual handling certified

Cultural Heritage Consultant

Experience

Ms Courtney is an experienced cultural heritage and archaeological consultant specialising in heritage management plans and impact assessment in different cultural heritage environments for integrated multi-disciplinary teams. This translates into a proven record of carrying out robust and transparent heritage impact reports for large scale infrastructural projects. Her experience demonstrates a capability of characterising the existing historic and archaeological environment and evaluating its significance. Ms Courtney has a detailed knowledge of the relevant cultural heritage legislation, standards and guidelines and an ability to appropriately incorporate these statutory and non-statutory requirements into the reporting process. As part of her continual professional development, Lisa has obtained certificates from the University of Oxford in Condition Surveys of Historic Buildings (2017) and the assessment of setting of heritage assets (2013). Industrial archaeology is a special interest and as part of her master's degree Lisa prepared a thesis '*Industrial archaeology - an underutilised resource – a case study of County Wicklow*'. This thesis discussed the potential of industrial archaeology as a resource, referencing development schemes at work in Ireland and England. Recommendations were made regarding the future protection, preservation, conservation and possible development of the county's industrial heritage.

Key Skills

Ms Courtney's project management of varied sensitive and complex cultural heritage projects experience will be beneficial for carrying out accurate and focused reporting and comprehensive data acquisition for heritage management plans. This includes an assessment of National Monuments, Record of Monuments and Places (RMP) Record of Protected Structures (RPS), NIAH Building and Historic Garden Survey, Architectural Conservation Areas (ACAs), artefacts, excavations and cultural heritage and architectural features as well as an assessment of the wider receiving cultural heritage environment.

Historic Landscape Characterisation (HLC) provides an understanding of how past cultural processes contribute to our present landscape. Ms Courtney has been involved in developing the process and methodology in Ireland and has undertaken three projects in County Dublin and one in County Meath and applied the technique to many large scale projects. The focus of the projects was to produce a distinctive and historic dimension of the present environment using a Geographical Information System (GIS) to define the historical elements. These projects can have a practical input into future landscape management decision at a local, regional and national level, increasing the appreciation of the historic landscape across the community. Experienced in consultation with the statutory authorities and stakeholders Ms Courtney has prepared or a large number of cultural heritage projects for oral hearing and presented to An Bord Pleanála.

Technical Tasks & Relevant Experience

Vernacular Architecture Project – Blackstairs Mountains 2022 County Carlow for the Heritage Council and Carlow County Council

The importance of our historic built environment cannot be overstated, it is an integral part of our culture, creating a sense of place and is of huge importance to our local economies. Vernacular heritage comes from our most deeply-rooted sustainable building traditions. This project, led and devised by Lisa, provided a cultural heritage assessment of three vernacular settlements / hamlets, located in elevated positions at the foothills of the Blackstairs Mountains in County Carlow. The study shone a light on these three hamlets and charted their development and assessed the vernacular heritage and distinctiveness through research, site survey and most importantly by talking and listening to the locals. The deliverables of the project were an inventory of the buildings and structures, a report charting individual and common characteristics of these hamlets and a video that introduced the people of the Blackstairs, their stories and memories.

Heritage Ireland 2030 – Department of Housing, Local Government and Heritage, 2019.

In 2019, Courtney Deery led an integrated and collaborative expert advice team in the interrogation and assessment of over 1,500 submissions received by the Department from interested stakeholders throughout Ireland in relation to a public consultation document. This engagement led to the development of a framework of policies and objectives in a report format and culminated in a one day workshop attended by over 400 people and presentation at Dublin Castle which was screened nationwide.

An example of Lisa's stakeholder engagement and policy experience includes:

- Led a stakeholder engagement process to design the programme for the Heritage Ireland 2030.
- Managed feedback surveys and analysis in order to digitally retrieve, store, assess, group, prioritise all submissions in order to identify emerging themes and articulate high-level strategic actions.
- Assisted in the organisation of conferences and workshops including stakeholder engagement workshops, for example Kilkenny Masterplan and the creative quarter.
- Participated in a conference at Dublin Castle to support the roll out of Heritage Ireland 2030 as a concept.
- Assisted in the development of a Heritage Plan for Clane

Cultural Heritage Evidence Based Study of the Existing Transmission Grid Infrastructure, EirGrid, 2015

Lisa led the cultural heritage evidence-based study, designed to examine the effects of existing high voltage transmission infrastructure on the environment. The project involved the creation of a framework and methodology to examine the actual effects of transmission infrastructure on cultural heritage. Research and examination of 40 years of excavation results and a nationwide field assessment of archaeological, built heritage and cultural heritage sites and landscapes took place. Consultation with the statutory authorities, heritage consultants and local people and participation at workshops and meetings took place. The recommendations in the report were endorsed by EirGrid and the National Monuments Section of the Department Arts, Heritage, Regional Rural and Gaeltacht Affairs (DAHRRGA).

Deliverables included:

- Detailed literary and documentary evidence-based review
- Nationwide field work
- Creation of mapping and GIS datasets
- Main report, cultural heritage inventory and map book
- Development of best practice guidelines for High Voltage Electricity Transmission Projects for EirGrid

Bus Connects Dublin – Transport Ireland

The development of separate EIARs for twelve individual bus corridors and upgrade works including pedestrian and cycle ways and the enhancement of the public realm throughout Dublin and Wicklow including the historic town of Dublin and historic villages and settlements. Lisa managed the archaeological team in Courtney Deery who identified the likely impacts and proposed strategies to mitigate adverse effects. Opportunities to improve the public realm and the historic dimension of the existing environment were explored and identified. Consultation occurred with key stakeholders and all routes were examined in the field. Consultation took place with other members of the integrated design team. All cultural heritage constraints were photographed and mapped in GIS.

N5 Ballaghderreen to Scramogue, Co Roscommon

Ms Courtney project managed the archaeological and cultural heritage component of the scheme and defined the scope of all appropriate and practical mitigation measures leading to a successful outcome at the oral hearing and planning being granted.

A key consideration throughout the consultation and design process was preserving the attributes that contribute to the significance of Rathcroghan, a candidate UNESCO World Heritage Site and ensuring that the development of a road that did not detract from the outstanding universal value, authenticity and integrity of this nationally important well preserved, multi-period, ritual and royal landscape.

Extensive consultation took place throughout the evolution of the proposed road development with the statutory authorities, academic institutions, archaeologist, heritage consultant as well as landowners and the wider public. Ms Courtney guided the procurement, specifications and methodologies for additional specialist surveys that were required for the project (Lidar survey, aerial photography analysis, geophysical survey, testing, environmental sampling).

MARK TIDESWELL
Senior Consultant

Discipline: Acoustics and Shadow Flicker

Key Qualifications: BSc (Hons) Music Technology, Diploma in Acoustics & Noise Control (IOA)

Professional Memberships: AMIOA

Experience: 10 years

INTRODUCTION

Mark is a Senior Consultant with over eleven years' experience working in the Environmental Consultancy sector. Mark's work focuses mainly on the technical aspects of renewable energy developments including site finding, GIS mapping services, shadow flicker, glint & glare and various types of noise assessments.

KEY EXPERIENCE

- Noise monitoring and assessment (ETSU-R-97, BS4142, BS5228)
- Noise propagation modelling
- Shadow Flicker assessment
- Glint & Glare assessment
- GIS site finding and feasibility for energy developments
- Constraints mapping
- Technical drawing and figure production

EDUCATION AND PROFESSIONAL STATUS

- BSc (Hons) Music Technology, Leeds Metropolitan University (2011)
- IOA Diploma in Acoustics and Noise Control, Leeds Metropolitan University (2015)
- Associate Member of the Institute of Acoustics (AMIOA)

EXPERIENCE RECORD

TNEI Services Ltd
2013 – 2021

Graduate Consultant - Senior Consultant

Arcus Consulting Ltd
2021 – 2023

Senior Consultant

TNEI Services Ltd
2023 – present

Senior Consultant

Mark is an experienced project manager who has worked on a large number of wind energy development projects from initial feasibility work on the sites, through to baseline assessment, impact assessment (drafting of Technical Reports and Chapters) and post submission support and compliance monitoring including complaints investigations. Project highlights include:

Onshore Renewables (Wind and Solar)

- Wind turbine compliance noise assessment on South Uist for Comhairle Nan Eilean Siar (site

- confidential).
- Spaldington Wind Farm: Noise level monitoring and reporting for wind farm construction activities.
 - Lindhurst Wind Farm: Wind farm noise compliance monitoring and assessment.
 - ZNSHINE SOLAR Site Search: Feasibility assessment to identify potential sites suitable for solar development in England through the use of geographic data.
 - Bankend Rig Wind Farm Extension: Provided GIS and mapping support for the planning application of the consented Bankend Rig Wind Farm Extension, including the production of supporting figures, plans and technical drawings.
 - Tangy IV Wind Farm: Shadow flicker assessment of proposed site for Environmental Impact Assessment, involving site survey and desk-based assessment.
 - New Rides Wind Farm: Shadow flicker assessment considering the effects of shadow flicker on a nearby prison. Work included site survey and desk-based assessment.
 - Shadow Flicker complaints investigation for an operational wind farm in Ireland (site confidential).

Electricity Networks (Substations, Overhead Lines)

- Triton Knoll Substation construction noise (HDD)
- WPD Grid Study: Digital mapping of the WPD electricity distribution grid network across the south-west of England.

New Energy Systems (BESS, Hydrogen, Electric Vehicles, District Heating, Energy from Waste)

- Hydrogen fuel cell development in Orkney: Production of GIS models and figures.
- STOR site in Lancashire: Produced GIS models and figures for three gas turbine engines.
- Feasibility studies for large scale STOR sites for up to 50MWe of generators/engines.

Conventional Energy (Gas, Nuclear, Coal)

- Rumer Hill Gas Peaking Plant: Baseline noise monitoring and BS4142 assessment for the operation of externally located gas powered engine/generator sets.
- Fellside CHP Plant: Noise assessment of works at gas turbine power plant.

Other

- Newcastle Great Park: Production of noise propagation models and noise mapping of a large housing development in Newcastle in order to assess the potential impacts of road and aircraft noise.

Maureen Marsden

Senior Project Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Maureen holds Master of Engineering degree in Acoustics and Vibration from Southampton University (Institute of Sound and Vibration Research).

She has 28 years postgraduate experience and is currently a Senior Project Engineer with Fehily Timoney.

Maureen specializes in environmental noise including industrial, energy infrastructure projects and transportation projects.

Maureen has a broad range of experience in noise and vibration across a variety of sectors including building, transport, industrial and energy sector projects.

She is currently a member of the Institute of Acoustics and Engineers Ireland.

Key Skills

Maureen has experience in the building/industrial/energy/gas projects including:

- Noise measurement
- Operational noise predictions
- Construction noise predictions
- Noise and vibration assessments

Previous Experience Essentials for this Project

• Wind Farm Projects

Involved in all stages of windfarm projects, from pre-planning to post construction compliance monitoring:

- Conducted baseline noise measurements within Ireland to determine prevailing background noise in the vicinity of proposed windfarms. Analysed noise based on the Institute of Acoustics Good Practice Guide to the Application of ESTU-R-97 and the Institute of Acoustics Good Practice Guidelines. Determined noise limits in line with the Wind Energy Development Guidelines 2006 to define site noise criteria.
- Predicted operational noise from proposed windfarms using 3-D noise modelling software to determine compliance with noise criteria, based on methodology in ISO9613 Attenuation of sound during propagation outdoors. Where noise limits were exceeded, determined curtailment strategy based on quieter turbine operational modes.
- Assessed noise from temporary works associated with windfarm construction using BS5228 Code of Practice for noise and vibration control on construction sites. Predicted construction noise and advised on mitigation works as required. This assessment also includes consideration of construction noise from proposed grid connection works.
- Produced Environmental Impact Assessment Reports for Windfarm developments, based on the operational and construction noise assessment as detailed above.
- Conducted post construction compliance noise survey and analysed data for comparison with noise limits to determine compliance with the planning criteria.

Key Information

Qualifications

Master of Engineering in Acoustics and Vibration, Southampton University, 1994

Professional Memberships

Member of the Institute of Acoustics
Member of Engineers Ireland

Employment History

2019 – Present

Fehily Timoney & Company
Senior Project Engineer

2017 – 2018

Resonate Acoustics
Senior Acoustic Consultant

2015 – 2017

Soundsorba
Sales Engineer

2011 – 2015

Kellogg Brown and Root
Senior Technical Professional
(Noise and Vibration)

2011 – 2011

Mott MacDonald
Senior Acoustic Consultant

2011 – 2011

Mott MacDonald
Senior Acoustic Consultant

2008 – 2010

Applied Acoustic Design
Senior Acoustic Consultant

2007 – 2008

Hoare Lea Acoustics
Senior Acoustic Consultant

2002 – 2006

Sound Research Laboratories
Acoustic Consultant

1998 – 2001

Arup Acoustics
Acoustic Engineer

Maureen Marsden

Senior Project Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- Conducted baseline noise surveys for windfarms where lifetime extension or windfarm repowering is required. Assessed operational windfarm noise in line with current guidance since the original windfarm application. Assessed noise and vibration impacts from proposed repowering as part of the planning process.

Sample projects include: Annagh Windfarm, Ballagh Windfarm, Ballinagree Windfarm, Barnadivine Windfarm, Carrane Hill Windfarm, Coom Green Energy Park, Coumragappul Windfarm, Croaghaun Windfarm, Dernacart Windfarm, Drehid Windfarm, Fahy Beg Windfarm, Gneevs Windfarm, Letteragh Windfarm, Moanvane Windfarm, Tullahennel Windfarm,

- **Solar Farm Projects**

Derived noise criteria for solar farms based on EPA criteria. Predicted operational noise from proposed solar farm equipment (inverters and transformers) to determine compliance with the noise criteria. Advised on noise control measures where required including equipment relocation relative to noise sensitive locations, selection of quieter equipment and mitigation of equipment where required. Predicted construction noise from the temporary works associated with the solar farm construction and recommended mitigation as required.

Sample projects include: Ballyvalode Solar Farm, Clashwilliam Solar, Dunmurray Golf Course Solar Farm, Milltown Solar Farm, Moortown Solar farm, Kilcurly Solar Farm, Killough Solar Farm, Kilmorna Solar Farm, Rahanisky Solar Farm, Rathdrinagh Solar Farm.

- **Rotating Stabiliser Projects**

Conducted baseline noise survey, to allow noise criteria to be determined in line with EPA noise guidance. Predicted noise from the proposed rotating stabiliser to determine compliance with criteria. Measured transformer noise from a nearby substation to determine existing noise sources.

Sample projects Knockraha Rotating Stabiliser, Co. Cork, and Maynooth Rotating Stabiliser, Co. Kildare.

- **Transportation Projects 1994-2023**

Worked on a variety of transportation projects including railway and road as summarized below:

- Environmental Impact Assessment for N19 Shannon Airport Access Road Improvement Scheme. Project included setting appropriate noise and vibration limits for the scheme in terms of the temporary construction works and the permanent works. Predicted operational noise from the scheme using 3-D Softnoise Predictor software. Compared predicted noise levels with criteria within Guidelines for Treatment of Noise and Vibration in National Road Schemes to determine requirement for noise mitigation. Assessed construction noise from the proposed works to assist in developing suitable noise mitigation for construction works. Predicted construction noise levels at adjacent shoreline area for input into Ecology assessment.
- In situ measurement of acoustic performance of noise barriers over a 5 year period on Motorways in Ireland in accordance with ISO EN 1793-5 and 6 on behalf of Transport Infrastructure Ireland.
- Measured noise at a residential property near the N7 dual carriageway following noise complaints and assessed against criteria within the Kildare County Council Noise Action Plan.
- Predicted noise for different route options for the N19 upgrade project during the route selection stage based on TII Guidelines.
- Predicted operational and construction noise for a range of railway transport projects including the Channel Tunnel Highspeed Rail Link project and Sunderland Metro. Developed noise mitigation schemes using noise barriers and earthworks.
- Measured operational noise levels post construction at Docklands Light Railway extension.
- Measured internal noise of Inter-city trains for the purpose of developing a specification for new rolling stock.
- Conducted baseline noise survey for Dublin Port Tunnel.

- **Building Acoustic Projects 2022-2019**

Provided acoustic advice on a range of building acoustic projects.

- Conducted baseline noise surveys and predicted mechanical services noise during the planning stage. The survey and Local Authority criteria were used to set the noise criteria. Where appropriate advised on noise mitigation to meet the planning requirements.
- Advised on noise break-in and external building envelope design requirements for residential and office developments to meet suitable internal acoustic criteria (based on guidance such as ProPG: Planning and Noise and other guidance)
- Assessed noise breakout from leisure facilities including restaurants, nightclubs and bars to advise on building envelope upgrades to meet Local Authority Criteria.
- Advised on sound insulation requirements to meet building regulation requirements (Approved Document E) for residential and hotel developments, in addition to sound insulation requirements for office fit-outs based on privacy requirements between adjacent spaces.

Maureen Marsden

Senior Project Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- Measured airborne and impact sound insulation performance of residential, hotel, and office buildings and advised on areas for improvements where performance criteria were not met.
- Provided advice on meeting internal acoustic absorption requirements to improve acoustic comfort and speech intelligibility within a range of spaces including community halls, churches, sports halls and schools.

Sample projects include Travelodge hotels, Chelsea Academy and Hammersmith Academy Schools, Deutsche Bank, Luminar Leisure, Hewitt Mills Cork.

- **Compliance Monitoring at EPA Licenced Facilities**

Monitored noise at EPA licensed facilities to determine if emission limits within license conditions are met. This included food and drink production facilities, civic amenity sites, waste processing facilities and engineering facilities.

Advised on contribution from off site sources to determine if noise limits are exceeded. Assessed noise in line with EPA NG4 guidelines and BS4142 Methods for rating and assessing industrial and commercial sound.

- **Gas Projects 2014-2023**

Conducted baseline noise surveys for proposed compressed natural gas (CNG) installations following noise attenuation works. Predicted and assessed operational noise for inclusion within planning submission, where required.

Conducted a series of internal and external measurements at eleven Above Ground Installations (AGI's) in Ireland. Internal measurements were used to assess noise levels against occupational noise criteria for workers. External measurements were used to assess noise levels against external environmental noise criteria.

Conducted a baseline noise survey at Whitegate AGI (Above ground installation), prior to construction works.

Sample projects for proposed CNG installations include Carhoo, Birdhill service station, M7 Junction 14 Mayfield, Cappagh Rd, Virginia, City North. Sample projects for AGI installations include: Scholarstown AGI, Swords Road AGI, Kilshane AGI, Ballynaneashagh AGI, Cork Gas AGI, Abbotstown AGI, Ardree AGI, Ballyduff AGI.

- **Industrial Noise Assessments, 2011 - 2019**

Predicted noise from a range of industrial facilities using 3-D noise modelling software for a range of industrial developments. including LNG(liquid natural gas) facilities, dairy facilities and water works schemes to advise on noise control measures to meet appropriate environmental legislation. Also predicted in-plant noise contours for purposes of identifying hazardous zones related to Noise at Work requirements.

Sample projects include Thames Water projects, Irish Water projects, Co. Kilkenny, Ballyragget Glanbia site, Co. Kilkenny, Jazan Refinery, Saudi Arabia, Bioatlantis, Co. Kerry.

- **Port Noise Assessments 2017-2023**

Monitored noise at noise sensitive locations over several weeks overlooking the Ringaskiddy Deepwater port, Co. Cork. Noise was monitored over a period of weeks during the arrival and unloading activities of a particular ship which had led to noise complaints. The measured levels were compared the noise limits with NG4 criteria. Also BS4142 was used to assess the likelihood of adverse impact at nearby properties.

Measured noise at Dublin Port for the purpose of assessing if security personnel had the potential to exceed noise at work limits. The assessment was based on a combination of attended measurements in addition to use of noise dosimeters worn by key personnel. This was used to advise on the effect of the type of work undertaken by staff in order to meet noise at work limits.

MOISE COULON
Principal Consultant

Discipline: Acoustics, Shadow Flicker, Data Analytics, Project Management

Key Qualifications: IT Degree, IOA Certificate, IOA Diploma

Professional Memberships: Member of the Institute Of Acoustics

Experience: 16 Years

INTRODUCTION

Moise is an experienced Project Manager and Acoustician, who provides technical support and assessment of proposed and operational developments. Moise specialises in undertaking noise assessments and has worked on projects associated with a variety of sectors including renewable energy, property and industrial developments.

He has an extensive experience in complex noise monitoring campaigns and noise modelling in specialist software such as CadnaA and SoundPlan. He leads projects from the early phases to completion and has worked on a number of complex cumulative impact assessments. He has extensive experience in Wind Farm noise, as well in BS5228 construction noise assessments, BS4142 noise assessments, shadow flicker assessments, due diligence, wind resource assessments and preparing reports to support planning applications. Moise is a full member of the Institute of Acoustics and has experience of presenting papers at wind farm noise conferences.

KEY EXPERIENCE

- Project Management
- Noise survey and assessments for proposed developments at planning stage
- Compliance monitoring and noise complaint investigation
- Environmental Impact Assessments and reporting
- Acoustic modelling in CadnaA, SoundPlan & Excel
- Wind Farm Noise
- Shadow Flicker assessment
- Due Diligence
- Data analytics and IT

EDUCATION AND PROFESSIONAL STATUS

- Member of the Institute of Acoustics (MIOA)
- Diploma in Acoustics & Noise control (IOA Dip), Edinburgh Napier University (2013)
- Certificate of Competence Environmental Noise, Liverpool University (2009)
- VRQ Level 2 in Wind Energy, Northumberland College (2007)
- Licence Professionnelle (Bachelor) in IT and Networking, University of Amiens France, (2004)
- Technician Degree in IT and Networking, University of Blois, France (2003)
- Science Baccalauréat in Mathematics, Physics and Engineering, Le Mans, France (2001)

EXPERIENCE RECORD

Clashindarroch Wind Farm, Boralex, Scotland (Morayshire), 2022

Clashindarroch Wind Farm Extension proposal comprises 22 wind turbines to the west of the operational Clashindarroch Wind Farm. Moise completed the noise assessment work for the project which included complex cumulative noise considerations.

Rigmuir Wind Farm, Clean Earth Energy, Scotland (South Lanarkshire), 2022

Rigmuir Wind Farm comprises 3 wind turbines in proximity of the existing Blantyre wind farm. Complex cumulative wind farm noise considerations were assessed and due to the presence of other wind farms in the area, limit apportionment was required and mitigation in the form of low noise modes.

Battery Energy Storage and Solar Farms, Renewable Connections, Scotland (Various), 2022

The projects comprised five Battery Energy Storage Sites (BESS) and Solar Farms ranging between 30 and 50 MW, located in rural locations and/ or on edges of urban areas in Scotland. The noise work included background sound surveys, prediction modelling based on manufacturer data and a 3D noise model. The assessments were typically undertaken in accordance with the British Standard 4142. However in several instances Environmental Health officers also asked for consideration of internal noise levels which also required refined predictions with noise frequency data and a criteria based on the NR curves from BS8223. On one of the project, the Environmental Health Officer initially objected on noise grounds and following further discussions and submission of an updated noise report, the objection was removed and the site granted planning consent.

Penhallow Deep Geothermal, Geothermal Engineering Ltd, England (Cornwall), 2022 (Aug 2022 – Dec 2022)

The project was for the drilling of two deep wells and the construction of a power plant at the surface, with a potential generating capacity of up to 5 MW of electrical energy and 20 MW of thermal energy. Moise undertook detailed noise modelling of drilling and potential mitigation measures, with several discussions with experienced drilling managers and with the councils to refine the assumptions and agree noise criteria. Both the temporary drilling phase and operational phase of the developments were assessed, and comprehensive noise reports submitted. Planning permission was granted in September 2022 despite initial concerns from Environmental Health. We also worked on 3 other identical projects for the same client, two did not progress and the other one also received consent.

Post-construction noise compliance and noise complaint investigation for Wind Farms (2015-2017)

Project lead, responsible for the investigation of the noise complaint including writing the methodology for the assessment, liaising with the complainant, management and coordination of extensive surveys, data analysis, reporting, client management and attending legal meetings. Carried out Amplitude Modulation (AM) and tonal analysis.

Wind Farm Noise and Shadow Flicker, UK (2008-2016)

Worked on more than one hundred Shadow Flicker and ETSU-R-97 noise impact assessments for planning applications of small and large scale wind developments (500 kW to 50 MW). Led and developed post-consent noise compliance services. Management of long term surveys (>1 month) with several site visits and large set of environmental data collected. Complex data analysis, noise prediction modelling and reporting. Developed noise models used daily by a large team including processes and algorithms to design wind farms with complex noise mitigation strategies (low noise modes). Reviewed third party noise assessments and worked on due diligence projects. Provided proposals, budget updates, provided advice to clients and trained internal staff. Also attended and presented papers at international conferences on the topic of wind farm noise.

Pablo Delgado

Lead Drainage Engineer/Principal Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Pablo is a Chartered Civil Engineer with 10 years' experience in planning, design and construction of hydraulic engineering projects and has experience working with Clients and Contractors. Specializing in hydraulic infrastructures, Pablo focuses on working with all project stakeholders to produce practical, efficient designs and on resolving issues that arise through the course of the works. Pablo has an excellent knowledge of hydraulic design, which extended to the creation of 'best-practice' guidelines, and has expertise drainage design, standards and tools. He has experience of delivering drainage designs in a D&B and PPP environment and has developed designs for construction in the UK, Ireland and Spain.

Key Skills

Pablo's qualifications and experience exceeds the minimum requirements for the role of Drainage Lead Engineer. He has achieved bachelor's degrees, Post-Graduate Diplomas in civil engineering disciplines up to NFQ Level 8 and 9, with a strong focus on hydraulic design and project management. Additionally, he has completed the Designing for Safety in Construction Course to comply with the safety and best practices in the industry. Pablo has 10 years' experience as a drainage engineer in drainage design for large roads and infrastructure projects.

Previous Experience Essentials for this Project

- **Ballylickey Flood Defences, 2023.**
Pablo was the drainage designer for the Flood Defences Study in the Ballylickey, Co. Cork. The project involves the hydrological and hydraulic analysis of the river Owvane, river modelling using Hec-Ras under the tide water level regime of the area, provide the required flood defences to protect the existing properties and the road R584 located on the right bank of the river.
- **N72/N73 Mallow Relief Road, €50m, 2023.**
Pablo was the drainage designer for the flood studies which involves one bridge (32m span) and 5 culverts of large dimensions, a flood compensation area, flood maps, section 50 applications and the technical report.
- **N22 Baile Bhuirne to Macroom, Detailed Design, €280m, 2023.**
Pablo was working on the drainage design. This role involved the delivery of the following tasks: preparation of conceptual drainage designs, pre-earthworks drainage, network drainage, culvert design, stilling basin, scour protections, attenuation and pollution control, 3D modelling of drainage designs using Micro-drainage, updating drainage designs following review, preparation of design at key submission stages, further optimization of models, preparation of drainage schedules, design of SuDS drainage systems prior to draining to receptor and preparation of final model for submission. Pablo provided supervision, support, and technical advice to the team member of the Drainage team.
- **N5 Ballaghaderren to Scramoge Road Project, €200m, 2022.**
Pablo was the Third-Party Checker for the drainage design packages in the construction of 34 km of a new single carriageway road from the western end of the existing N5 Ballaghaderren Bypass to the townland of Scramoge in county Roscommon. He was responsible for reviewing all the drainage design packages of the project: pre-earthworks drainages, networks drainages, attenuation and pollution control, and culverts.

Key Information

Qualifications

- B.E. Civil Engineering - University of Zaragoza, Spain (2014).
- B.E. Technical Engineering in Publics Works - University of Zaragoza (2012).
- Master's degree in project Management – Polytechnic University of Valencia, Spain (Present).
- Post-Graduate Diploma in Project Management - Polytechnic University of Valencia, Spain, (2021).
- Post-Graduate Diploma in Analysis and Design of Water Networks - Polytechnic University of Valencia, Spain, (2019).
- Post-Graduate Diploma in Hydraulic and Environmental Infrastructures in Urban Areas - University of Zaragoza, (2012).
- Certificated Diploma in Hydraulic Transient Analysis of Water Networks - Polytechnic University of Valencia, Spain, (2020)

Professional Memberships

Chartered Engineer, Engineers of Ireland 2023

Employment History

2022 to Present

Principal Engineer/Drainage Lead, Fehily Timoney and Company

2020 – 2022

Senior Project Engineer, J.B. Barry and Partner Ltd.

2016 – 2020

Senior Project Engineer, Clandillon Civil Consulting Ltd.

2015 – 2016

Assistant Project Manager, Société Générale de Surveillance

2014 – 2015

Design Engineer of hydraulic projects, Perez Benedicto, S.L.

2012 – 2012

Assistant Site Manager, Ingeniería y Obras Aragonesas del Ebro, S.L.

Pablo Delgado

Lead Drainage Engineer/Principal Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

He provided RFI reports to the designer company with technical comments to improve their design with the goal to provide the Design Certificates to allow the design to go to next step of review with the Employer Representative.

- **Ten-T Section 1 – N15/N13 Ballybofey / Stranorlar Urban Region, €90m, 2022.**

Pablo was the drainage designer responsible to deliver the Flood Study including hydrological analysis, hydraulic analysis, flood maps and section 50 application for the existing and proposed bridge in the river Finn.

- **N16 Lugatober Drumkilsellagh to Lugnagall, €28m, 2021.**

Pablo supervised the team members and provided technical advice to the Project Manager. He was responsible for developing designs for scour protections in streams, culverts, and abutments. Additionally, he thoroughly reviewed and refined hydraulic models for streams and culverts to ensure that they met the project's requirements.

- **Temporary HGV Parking Facility, 2020.**

Pablo was the Drainage Designer of this project, this role involved the delivery of the following tasks: preparation of conceptual drainage designs, network drainage, attenuation and pollution control, 3D modelling of drainage designs using Microdrainage, preparation of drainage schedules, design of SuDS drainage systems prior to draining to receptor and preparation of final model for submission. Pablo provided supervision, support and technical advice to the team member of the Drainage team.

- **N4 Collooney to Castlebaldwin, Detailed Design, Major Road, €150m, 2020.**

Detailed Design: Drainage designer with responsibility for completing detailed drainage network design to optimize the overall design for the Contractors on a 14km major road project. Provided technical advice and guidance to the Project Manager and team members, supervise team members, develop 3 flood studies for river and lakes, design of a hydraulic control to control water levels in lakes (weir), design and optimization of extensive drainage networks and APC systems (Attenuation pond and linear wetlands), culvert design, design of SUDS and pre-earthwork drainages, design of surface water channels, preparation of section 50 and 47 applications to the OPW. Tender Design: Pablo was the drainage designer with responsibility for preparing drainage tender design for submission as part of tender package for the bidding Contractor. Work included review of different drainage options to optimise the final design including the design of sealed drainage system in areas of underlain by karstified bedrock or prone to flooding, assessment of culvert and pipe sizing, attenuation pond sizing for attenuation and pollution control and production of drainage schedules and drawings. Drainage models were produced using Civil3D and Autodesk Storm & Sanitary Analysis software.

- **N8 Dunkettle Interchange Upgrade Scheme, €215m, 2020.**

As part of CCC's drainage design team for this complex road project, Pablo was working on the drainage design for the interchange scheme and various linkages. This role involved the delivery of the following tasks: review of drainage design statement, preparation of conceptual drainage designs, pre-earthworks drainage, network drainage, culvert design, attenuation and pollution control, 3D modelling of drainage designs using Micro-drainage, updating drainage designs following review, preparation of design at key submission stages, further optimization of models, preparation of drainage schedules, design of SuDS drainage systems prior to draining to receptor and preparation of final model for submission. Pablo provided supervision, support, and technical advice to the team members of the Drainage team.

- **N5 Westport to Turlough Road, €170m, 2020.**

As part of the detailed design for this 6.9km national road upgrade project, Pablo completed the flood study including flood mapping for existing and proposed structures using HEC-RAS proprietary hydraulic analysis software. The design of a further five culverts was completed using Civil 3D and CulvertMaster software packages.

- **N56 Lettermacaward to Glenties (Kilraine), Detailed Design, €23m, 2020.**

As part of the detailed design for this 6.9km national road upgrade project, Pablo completed the flood study including flood mapping for existing and proposed structures using HEC-RAS proprietary hydraulic analysis software. The design of a further five culverts was completed using Civil 3D and CulvertMaster software packages.

- **Ulster Canal Green Way Phase 3, Constraints Report, 2019.**

As part of the development of the constraints study, Pablo undertook a desktop review and a site visit of the study area with a view to identifying and mapping engineering constraints present along each of the potential route corridors which had been identified. The site walkover involved carrying out checks of existing embankments along the canal, identifying evidence of historic flooding and developing an interactive database of photos (normal and 360 spherical photos) along the canal.

Pablo Delgado

Lead Drainage Engineer/Principal Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **High Speed 2 Early Works Package WP51 Drainage (HS2 EWC WP51), 2018.**

Pablo was the Drainage Designer for Work Package 51 which forms part of the HS2 enabling works. This role involved the delivery of the following tasks: review of drainage design statement, preparation of conceptual drainage designs, pre-earthworks drainage, network drainage, culvert design, attenuation and pollution control, 3D modelling of drainage designs using Microdrainage, updating drainage designs following review, preparation of design at key submission stages, further optimisation of models, preparation of drainage schedules, design of SuDS drainage systems prior to draining to receptor and preparation of final model for submission. Pablo provided supervision, support and technical advice to the team member of the Drainage team of Ramboll in the Birmingham office.

- **A9 Luncarty – Pass of Birnam, Tender Design, 2018.**

Pablo was the Drainage Designer responsible for checking and developing all elements of the specimen drainage design on the 9.5km A9 Luncarty – Pass of Birnam tender in Scotland. Pablo was responsible to review and provide optimizations for the drainage networks, attenuation pollution control ponds, culverts, pre-earthworks drainages, cross drains, networks schedules and drawing for quantities, the drainage tender design for submission as part of the tender package for the building contractor.

- **Mullinure, 2018.**

Pablo was the Drainage designer for link road associated with a residential development area in Co. Armagh, Northern Ireland. Specific project tasks included the development of pre-earthworks, network drainages and attenuation facilities. Outputs included: preparation and analysis of drainage model incorporating surveys and existing data using Autodesk Storm and Sanitary Analysis and Civil 3D, design and development of drainage standard details, design of pre-earthworks drainage system, developing carrier drain design networks and gully layouts, preparation of drainage specification, finalisation of drainage drawings and preparation of drainage package for submission.

- **A737 Dalry Bypass Contractor's Designer, €31m, 2017.**

Pablo was the Drainage designer responsible for delivery of pre-earthworks drainage, culverts, network drainage and attenuation design on a 4km D&B highways project in Scotland. Drainage design involved the following works: networks and pre-earthworks drainage to 3.8km carriageway (2.45km 2 + 1 with overtaking lanes and 1.35km single carriageway), substantial incorporation of overland flow into some mainline networks, 6 no. culverts and 2 no. stream diversions, 5 no. outfalls to existing surface waters via SUDS basins and additional outfalls to existing drainage networks, deck drainage to 250m viaduct over Garnock River, consultation with SEPA and production of CAR applications, modelling of all networks and SUDS systems using Civil 3D Storm and Sanitary Analysis module to agree parameters from contract documents and discussion with SEPA.

- **N25 New Ross Bypass, €230m, 2017.**

Pablo was the drainage designer responsible to deliver the Flood Risk Assessment including hydrological analysis, hydraulic analysis for the existing and proposed scenario in the river Barrow and the stream Aughnacrew. Provide the 1D hydraulic model for the mentioned scenarios, prepare the flood maps, drawings, and the corresponding report.

- **Pembroke Hill, 2017.**

Pablo was the Drainage Designer responsible to deliver the design the drainage design for a new link road associated with a residential development area in CO. Wexford, Ireland. The project involves network drainage, attenuation and pollution control (attenuation ditches), pre-earthworks drainages, cross drains and a settlements analysis. The relevant achievement in the project involved the optimization of the network drainages using over the edge interceptor ditches, the implementation of check dams in the attenuation ditches to provide the attenuation and treatment.

- **Leanamore Wind Farm, 2017.**

Pablo was the Drainage Designer for the project Leanamore Wind Farm, which comprised of 9 Wind Turbine Generators (WTG), a substation, a large contractor compound; 5 km of services route comprised both floated and founded construction. The project involves extensive ditch networks, cross drains and facilities treatment. The relevant achievement in the project involved the temporary and permanent drainage networks (ditch networks) and the settlement ponds, hydrologic and hydraulic analysis of the area, prepare standard details, site visits, meeting with the Client and Contractor.

- **PDM Infrastructure, 2017.**

Drainage Designer assisting in the development of drainage and attenuation systems as part of the refurbishment of a 17Ha commercial development in Co. Kildare. The works were procured under an ECI target cost model and involved the design and construction of separate foul, surface water and roof water systems, attenuation measures and a waste-water treatment plant. Works included the assessment of an existing drainage system and catchment analysis before development of a detailed drainage design with separate systems for roof and surface water. Optimisation of the design resulted in reduction of main spine road collector pipe diameter and reductions in trench depths and slopes where feasible.

Pablo Delgado

Lead Drainage Engineer/Principal Engineer

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Modernisation of irrigation system of “Molinar del Flumen” phases I and II, Spain, €43.8m, 2016.**

Pablo was the Technical Assistant of the Project Manager for Molinar del Flumen Project which was a modernisation of the existing irrigation system in the Province of Huesca, Spain. The project involves the construction of a new pressure irrigation network including the installation of extensive pipes pressure pipes (approximately 42km), valves, an irrigation reservoir and a pump station. The relevant achievements in this project involved technical assistance, support and advice to the project manager, supervised the installation of different pressures pipes, valves, pump stations, material movement, meetings with the contractor and suppliers, provide environmental reports, quantities reports.

- **Flood Risk Study of the gravity pipeline for the Avenida de la Industria, Zaragoza, Spain, 2015.**

Pablo was the Drainage Designer of the flood risk study for the network drainage of the Avenida de la Industria, Zaragoza, Spain. The relevant achievement in this project involved the analysis of the existing hydraulic capacity of the network drainage, the redesign of the network to increase the hydraulic capacity, site inspections, meeting with the client, the preparation of drawings, networks schedules, hydraulic models and quantities.

- **Drainage Network for the new development in the Air Base of Zaragoza, Spain, 2015.**

Pablo was the Drainage Designer for a new development in the Air Base of Zaragoza, Spain. The relevant achievement in this project involved the hydrologic and hydraulic analysis of the area, the design of a new network drainage, cross drains and pre-earthwork drainages.

- **Flood Risk Protection System for the BSH Factory La Cartuja, Zaragoza, Spain, 2015.**

Pablo was the Drainage Designer of the flood risk study for the network drainage of the factory BSH La Cartuja, Zaragoza, Spain. The relevant achievement in this project involved the design of new network drainage and storage tanks, site inspections, meeting with the client, the preparation of drawings, networks schedules, hydraulic models and quantities.

- **Hydraulic and flood risk study of the gravity pipeline system for the industrial state “INSIDER”, 2015.**

Pablo was the Drainage Designer of the flood risk study for the main collector of the network drainage of the industrial state INSIDER, Zaragoza, Spain. The relevant achievement in this project involved the design of a new pipe line and the design of off-line storage tanks, site inspections, meeting with the client, the preparation of drawings, networks schedules, hydraulic models and quantities.

- **Reform of the theatre and communal zones of the “Colegio Mayor Universitario Virgen del Carmen”, 2012.**

Pablo was the Assistant of the Site Engineer for the project “Colegio Mayor Virgen del Carmen” in Zaragoza, Spain. This project comprised the modernization of the theatre and the communal zones of “Colegio Mayor Universitario Virgen del Carmen”. The relevant achievement in this project involved technical assistance of the Site Engineer, supervision of the supply material, human resources and works; updated the work planning, prepare the scaffolding plan and provide the monthly valuation and progress reports.

CURRICULUM VITAE

RICHARD BARKER

DIVISIONAL DIRECTOR - LANDSCAPE ARCHITECT
MLA, BA ENV, PG DIP FOR, MILI

PERSONAL PROFILE

Richard formerly worked as a Town Planner in New Zealand, London and Dublin before moving into the field of Landscape Architecture. He has spent the last 20 years working as a Landscape Architect in Ireland and has considerable experience in the fields of both Landscape and Visual Impact Assessment (LVIA) and landscape design, covering all stages from project feasibility through to construction. This cross-over of expertise is invaluable in determining and designing the most appropriate and effective form of landscape and visual mitigation for infrastructural development projects. Richard is the Divisional Director in Macro Works (part of APEM Group), a specialist LVIA consultancy that undertakes assessments for a broad spectrum of projects from wind and solar energy, to roads and large scale industrial and infrastructural development. Richard has personally completed the landscape and visual assessment of over 150 wind farms and a similar number of solar farms as well as numerous other commercial and infrastructural projects including more than a dozen SID projects. Consequently, he has considerable oral hearing training and expert witness experience. Richard has presented several conference papers relating to sustainable landscape design and LVIA as well as delivering the inaugural workshop on the landscape and visual effects of wind energy developments on behalf of the Irish Wind Energy Association. He has also delivered guest lectures / Webinars to the University College Dublin professional course in EIA Management and the Irish Landscape Institute in relation to LVIA.

EDUCATIONAL AND PROFESSIONAL STATUS

- MLA, Lincoln University (2003).
- PG Diploma, Forestry, Canterbury University (1996).
- BA, Environmental Science, Massey University (1995).

EMPLOYMENT HISTORY

- 1998 – 1999 Marlborough District Council (NZ) – Resource Planner
- 1999 – 2000 The Environment Agency (UK) – Planning Liaison Officer
- 2000 – 2001 Harrow Borough Council – Town Planner
- 2001 – 2002 CAAS Environmental (Dublin) - Planner
- 2004 – 2008 Tiros Environmental (Dublin) – Landscape Architect
- 2008 – 2014 MosArt (Wicklow) - Senior Landscape Architect / Associate Director
- 2014 – 2024 Macro Works (Dublin) – Managing Director / Divisional Director

FURTHER EXPERIENCE

- Corporate Member of the Irish Landscape Institute

SELECTED RECENT PROJECT EXAMPLES

150+ Wind Energy Projects (10 SID), various private and semi-state developers. Feasibility, LVIA and oral hearings.

150+ Solar Energy Projects, various developers. Feasibility, LVIA, Glint and Glare Assessments.

Celtic Interconnector, Mott McDonald. LVIA for strategic undersea and terrestrial electrical cable between France and Ireland.

St Kevin's Hospital SHD, Land Development Agency. LVIA with associated Photomontages / CGIs for a Strategic Housing Development incorporating the restoration of a landmark heritage building in Cork City.

Greater Dublin Drainage Scheme, Irish Water. MCA analysis of site options then LVIA for a 20ha sewage treatment facility, pipeline routes, pumping stations, plus oral hearing.

Water Supply Project Midlands and Eastern Region, Irish Water. MCA analysis of abstraction options and pipeline routes and LVIA of selected option.

College Green Plaza, ARUP / Dublin City Co. Full LVIA for proposed pedestrian plaza in Dublin's City Centre at College Green.

South Kerry Greenway, Fehily Timoney / Kerry CoCo. LVIA and oral hearing for a Cycleway along former railway line, plus oral hearing.

Rossaveel Deep Water Pier, Rossaveel Port Co. SLVIA for new port-based coastal infrastructure in a high sensitivity landscape / seascape environment.

Bryn Cefni Biomass Plant, Ecopellets. LVIA for a large biomass facility in Llangefni, Wales plus planning enquiry.

N59 Moycullen Bypass Road Project, NRDO. Route options appraisal and LVIA for selected route plus oral hearing.

N59 Clifden to Maam Cross Road Project, NRDO. Route options appraisal and LVIA for selected route plus oral hearing.

Transport Planning

Operational Job Title

Project Engineer

First Joined Arup

2020

Years of Experience

5

Shane McCarthy

Shane is constantly developing his skills as a professional and as a transport planner, and he brings enthusiasm, hard work, and a fresh approach to all projects.

Shane is a Project Engineer as part of the Transport Planning team who joined Arup in 2020. He has a background in Urban, Spatial and Transport Planning having completed a Master's in Planning and Sustainable Development at University College Cork (2020).

Since joining the team in the Cork Office, Shane has been involved in various transport projects in Ireland in the planning and design stages for both public and private Clients since his arrival. Shane has worked on transport engineering projects, traffic impact assessments, traffic modelling, mobility management planning and various other transportation projects.

Project Experience

ADL Multi Storey Car Park

Preparation of a Transport Impact Assessment, undertaking junction modelling and analysis of various assessment years and Mobility Management Plan for a proposed New Multi-Storey Carpark.

Creamfields Development, Dairygold, Kinsale Road, Cork (2016-Ongoing)

Preparation of relevant Traffic and Transportation contributions for the Creamfields Development, Cork. Shane assisted in the preparation a Transport Assessment and EIAR reports for the proposed development as well as undertaking junction modelling and analysis of various assessment years.

Galway City Centre Transport Management Plan (GCCTMP) (2017-ongoing)

The Cross-City Link is a public transport priority corridor, encompassing pedestrian crossings, upgraded footpaths, enhanced cycle facilities and additional bus priority measures, from University Road to Dublin Road (east of the Moneenageisha junction). The proposed scheme is being progressed to enable more sustainable and effective movement in our transport networks in Galway City, and the wider region.

Shane has worked on preparation of relevant Traffic and Transportation contributions for the BusConnects Galway Cross City Link. He has prepared an Options Assessment Report, Public Consultation Report and other assessments.

Distillery Fields Masterplan, Cork (2021)

Preparation of relevant Traffic and Transportation contributions for the North Mall Masterplan at Distillery Fields, Cork. Shane prepared a Transport Assessment for the proposed development as well as undertaking junction modelling and analysis of various assessment years.

Cork County Council, Carrigaline Transportation and Public Realm Enhancement Plan, Ireland

The objective of Carrigaline TPREP is to provide a framework for an integrated approach to transportation planning for Carrigaline and its environs, which is focused on alleviating current congestion while also facilitating sustainable growth and development. Preparation of baseline traffic, pedestrian, cyclist and carparking analysis. undertaking junction modelling and analysis of various options and assessment years.

Simon Van Jaarsveld

Simon has a wealth of knowledge on traffic and transportation matters in towns and cities and can advise on achieving sustainable transport outcomes and the development of attractive urban areas for residents to enjoy.

Simon has 28 years' experience in transport planning and engineering. He has worked on a wide variety of projects both for the private sector and the public sector. Simon developed an understanding of the requirements needed to bring a transportation project to a successful conclusion. He is comfortable to work together with multi-disciplinary design teams to find the best solutions for transportation challenges.

Throughout his career, Simon delivered a variety of masterplans and traffic studies successfully and is able to offer advice and services on district, city and regional masterplans, traffic studies for large scale developments, street enhancement projects, transport network planning, pedestrian and cycle lane planning, mobility management plans, car park layout and circulation studies, land use and transport integration, transport and urban design principles and public transport planning

Project Experience

Gouldings Development, South Docklands, Cork

O Callaghan Properties appointed a multi-disciplinary team to develop a planning application for a major residential development of 1,300 units on the Goulding's site located between Monahan Road and Centre Park Road in the South Docklands area. The proposed development included an elaborate, highly permeable, internal mobility network to accommodate active travel, deliveries and emergency vehicle access. Private vehicle access to the site were restricted to an access off Monahan Road and a refuse removal route had to be established on site to accommodate the expected high volume of refuse removal vehicles that needed to be accommodated. The proposed development also included a mobility hub to enhance the use of sustainable modes of transport. Arup worked closely with Cork City Council on the integration of the site with the future infrastructure planned around it, including the LRT on Centre Park Road and the road widening and bus lanes on Monahan Road. Arup developed a local area model to assess the operation of the junctions within the vicinity of the site.

Captain's Hill Part 8 Planning Application

Simon was the project manager on the Captain's Hill Part 8 planning application for the design of active travel facilities on Captain's Hill, located in Leixlip, Kildare. The project involved the preparation of a route selection report and preliminary design of active travel infrastructure adjacent to the road. It also involved the upgrade of existing priority junctions to signal controlled junctions. Traffic and junction capacity analysis was carried out to review the performance of the junctions after the proposed upgrade.

Waterford University Hospital Transport Masterplan

Simon was the transportation lead on the development of a Transport Masterplan for the Hospital Campus. The work includes an assessment of the transportation infrastructure required to accommodate short, medium and long term development of the Campus. The project also included an assessment of the car park availability and the current utilisation of it in order to determine the need for future car parking requirements. In addition, a traffic capacity assessment was carried out on the surrounding road network to understand existing operation of the road network and to understand what the impact of introducing a new road link would be on the network.

Blanchardstown Shopping Centre Introduction of Paid Parking

Simon was project manager for the development of options to introduce paid parking at the Blanchardstown Shopping Centre which is one of the largest retail malls in Ireland. Layout options were developed for nine different car parks within the shopping centre grounds which were assessed in terms of suitability to identify the preferred options. The work also included the development of a strategic mobility plan to improve multi modal access to the shopping centre and the development of a traffic management plan to achieve more effective traffic flow.

Liffey Valley Park

Simon was the project manager for a transportation strategy developed for a large residential development in Liffey Valley, Dublin with mixed land uses. The transportation strategy included transportation connections for all modes of transport. The priority modes of transport was public transport and active travel modes and elaborate networks were developed to accommodate linkage between development areas and surrounding areas. One of the challenges of the project was to find connections across a number of barriers including highway infrastructure, the River Liffey and green belts.

Confey Strategic Transportation Assessment

Simon was the project manager in the development of an STA for the Confey lands located to the north of Leixlip town. The work is carried out to inform the Urban Masterplan developed for the area. The proposed development is 1,800 unit residential development complimented by mixed use (commercial, social and employment based uses). The challenge of the project was to link the development into the existing urban fabric of Leixlip, as the Confey lands are segregated by the existing railway line and Royal Canal. The study was carried out based on the TII prescribed ABTA methodology

Dun Laoghaire Rathdown County Council Infrastructure Capacity Assessment Study (ICAS)

Simon was the project manager on the ICAS study. This is a multi disciplinary study to determine the infrastructure required for the development of two local Area Plans (LAPs) within the DLRCC area. The two areas include Old Connaught for which the Council have the ambition to provide around 2,000 residential units and the Rathmichael area where around 2,500 residential units are planned. The study reviews the spatial planning, social housing requirements, parks and landscaping, ecological and heritage assets, transportation, water supply, waste water management, flood risk management and the provision of utilities. The study followed the methodology of the ABTA process which includes baseline assessment, establishing context, options development, options assessment and the development of the preferred option.

Carrigaline Revitalisation Strategy

Simon is the transport lead in the Carrigaline Revitalisation Strategy. This study is sequential from the Carrigaline Transportation and Public Realm Enhancement Plan which Arup carried out in 2021. The scheme involves the further design and development of seven strategic routes within Carrigaline by developing options and evaluating them in terms of multi criteria analysis, to bring the preferred option to preliminary design and to prepare the necessary documentation for a Part VIII planning application (application by Cork County Council to itself).

Kennedy Quay Mixed Use Development

O Callaghan Properties appointed a multi-disciplinary design team to prepare a planning application for a mixed use development at Kennedy Quay, South Docklands. Simon prepared the transportation input to this project which included a Traffic and Transportation Assessment (TTA) and a transportation chapter for the

environmental impact assessment. One of the challenges of the project is to ensure that port operations are still being able to function during the construction and operational phases of the development. Simon in conjunction with the design team and client, developed a Port access strategy to ensure access is maintained.

Creamfields Strategic Housing Development

Simon was the transportation lead in the preparation of a planning application for circa 700 residential units and a primary health care centre on the Creamfields site located on the corner of Kinsale Road and Tramore Road, south Cork. The project involved the preparation of a traffic and transportation assessment for the development, writing an environmental impact assessment chapter for transport and the development of a construction traffic management plan. Simon also worked closely with the design team to determine an accessibility strategy for the development and providing advice on the development layout. The planning application was submitted and Cork City Council provided a request for further information (RFI), which a response was written.

Carrigaline Transportation and Public Realm Enhancement Plan

Simon was project manager for the Carrigaline TPREP. Carrigaline is a town located 10km south of Cork City in Ireland. The town currently has a high reliance on car based transport. A strategy was developed to reduce the vehicular volumes within the town centre by diverting it to bypass routes and to reconfigure the Main Street of Carrigaline to make more space for pedestrians, bicycles and public transport. During the duration of the project Arup worked closely with Cork County Council to deliver the strategy and to engage with local elected members and the public. The strategy was endorsed and now forms part of the Cork County Development Plan 2022- 2028.

Wits University Pedestrianisation Plan (2020)

Simon worked with the University development management team and an appointed urban design consulted to develop a pedestrianisation plan for the West Braamfontein Precinct Area, in Johannesburg, which includes 12 city blocks located to the south of the University grounds. The Precinct area is currently highly car traffic dominated despite the high footfall traffic that traverses the area. Initiatives were proposed to enhance streets, creating pedestrian priority and reduce the dominance of vehicles within the area. This was achieved by introducing raising junctions, narrowing roads and removing lanes, removing parking, introducing coloured surfacing, street furniture, enhance cycle provision and integrate urban design elements into the concept. The proposals were formulated in a traffic engineering report and approved by the local transport authority. The next step is to develop construction plans for the implementation of the proposals.

Johannesburg Inner City Transport Masterplan (2020)

This is a major project covering an extensive part of the Johannesburg Inner City which is currently in decline. The transport network available in this area was developed decades ago. Travel patterns within the Inner City have changed significantly over the years and the transportation infrastructure and available services have remained stagnant. The purpose of the study was to review the current status and use of infrastructure and to develop a transport master plan that would provide better integration and balancing of demand and supply for various modes of travel, considering trends in mode of travel and transportation issues caused by minibus taxi behaviour, illegal parking and impact of on street activity. This is a wide study focused on enhancing public transport, pedestrian and cycle priority, introducing traffic management, restructuring logistics and deliveries and private vehicle demand. The study has a three-year duration of which one year has been completed.

Waterfall Development (2020)

Simon was the transport specialist for a variety of development sites in the Waterfall area. He has been involved in the completion of more than 20 studies within this area since 2009 including the development of a strategic transport model, a road cost apportionment study and carrying out various transport assessments for specific sites within the area and public transport planning and advice on transport policy. The Waterfall area is a major development and includes the development almost 2 million square meters in development rights.

Some interesting projects within Waterfall included:

- Developing a roads masterplan catering for pedestrians, cyclists, public transport and private vehicles;
- Waterfall City Directional Signage Plan, 2019
- Waterfall Corner Traffic and Access Management Plan, 2019
- Housing development application of 5,000 units, 2019
- Reviewing the requirements for the provision of a Shuttle bus service in Waterfall, 2019
- Advisory services in smart city solutions related to transport, 2018
- Mall of Africa Car Park Rationalisation Study, 2018;
- Johannesburg Roads interchange Comparison Study, 2017
- Micro simulation (PTV Vissim) model building of Waterfall City, 2018.

Business Node Comparison Study, (2019)

Redefine Properties appointed Arup to carry out a study reviewing existing and future transportation conditions within prominent business nodes in Johannesburg including Rosebank, Sandton, Bryanston and Midrand. This assessment includes reviewing traffic flows and volumes, modal share, land use mix and density, street layout and hierarchy, public transport availability, pedestrian facilities and future land use and transport planning within each node. Redefine plans to use this information to promote development opportunities in each node.

Balwin High Density Housing Developments (2019)

Balwin Properties plans to develop more than 20,000 high density residential units in the Midrand area. The first development phases are occupied, and new units are continually being constructed. Arup have been appointed to carry out various transport studies in support of town planning applications for this development, including the development of a balanced road network catering for all modes of transport, ensuring that pedestrian safety is promoted, space is available for cyclists and that facilities are available for public transport operations.

Planning Hearings (2018)

Simon has been called to be the transport expert in a variety of planning hearings where parties have objected to planning applications.

Melrose Precinct Plan (2018)

Simon lead the development of a precinct plan for the Melrose and Melrose Estate area to the east of Rosebank, Johannesburg. Arup was appointed by Growthpoint Property developers to carry out a traffic precinct plan on behalf of the residents in the area. The plan reviewed future demand scenarios and identified infrastructure requirements to accommodate the demand.

Barloworld Development (2018)

A large-scale traffic study was carried out for a major mixed-use development (300,000m² gross floor area) along Katherine Street, east of Sandton. The type and size of the proposed land use was a function of the access capacity of the site. To accommodate the development traffic, it was proposed that the M1 Marlboro Drive interchange is upgraded by adding an improved off ramp. This effectively dealt with current traffic congestion.

Growthpoint sites parking reviews (2018)

Growthpoint Property Developers appointed Arup to review current on site parking and internal circulation on six of their operational sites. Arup developed alternative solutions to address the traffic and parking issues identified and to make recommendations towards preferred options.

Tatu City Development (2017)

Tatu City is a 3 million square million development located to the north of Nairobi. Simon headed the transport model development and demand analysis that was carried out for the development and based on the analysis access options to the development was developed and recommended to the client.

Modderfontein (2016)

Simon co-lead the development of a Transport Master Plan for the Modderfontein Area. Arup was appointed by Zenda for transportation advice as part of the Atkins/Arup Masterplan team which includes 1,600ha of land. The plan involved a review of status quo, development and evaluation of broad development options and identifying a preferred option which was developed in more detail. The process involved intense consultation with COJ departments, Ekurhuleni and other transport authorities.

Randburg Transport Plan (2015)

Arup was appointed by the JDA to develop a multi-modal transport master plan for the Randburg CBD area. Simon was the project leader for this study. The objective of the study was to determine an appropriate future mode share for the area and to identify transportation infrastructure projects to be implemented. The study commenced by carrying out traffic and movement surveys which provided a good understanding of existing transportation patterns. This was followed by consultation with stakeholders to develop development principles applicable to the area. Future year mode share targets were developed based on practical transport strategies which could be implemented. The plan is currently being completed and submitted to the JDA for approval.

Sandton Transport Framework Master Plan (2014)

Simon was the team leader on the development of a transport master plan for the Sandton area. The study includes development of transport policy, a review of the existing transport environment and the development of a range of transport strategies to address accessibility and capacity constraints, taking existing BRT planning and city initiatives into account. The study is focused on providing real alternative modes of transport to commuters currently having no choice in using cars for travel. A Saturn transport model has been developed to assist in the understanding of the transportation challenges. The study is also focused on the development of non-motorised transport both within and to Sandton.

Village Walk Development Car Park (2018)

Village Walk is located in Sandton, Maude Street. It is the intention of Metropolitan Life to redevelop the site to provide a mix use of development. Arup was appointed to carry out a traffic impact assessment as well as providing input for the proposed car park of around 3,200 bays. Simon carried out extensive reviews of the car park layout drawings to identify potentially problematic areas and to provide solutions.

Standard Bank Rosebank Car Park (2012)

Arup was appointed to carry out a review of the proposed car park layout of this development which includes around 3,500 parking bays. The review included access capacity analysis, vehicle queuing analysis and boom operation, internal traffic circulation, geometrical review and vehicle ramp configuration. The findings of the above review have been incorporated in the building design and the car park is currently being constructed.

Sandton Strategic Transport Study (2010)

Simon is the team leader on the development of a transport framework for the Sandton area. The project includes a transport assessment of the implications of the Sandton Urban Development Framework. A variety of future land use development scenarios have been identified and quantified in transportation terms. Transport strategies have been developed to balance the expected travel demand and transport infrastructure capacity. The outcome of the project is the development of both a local and regional transportation strategy.

Anglo American Parkade (2011)

Simon carried out a car park study for an existing parkade (900 bays) located in Anderson Street in Johannesburg City Centre. The objective of the study was to identify how the parkade can be made safer and easier to use for motorists, considering that this car park is mostly used by visitors to the Anglo-American offices. The study identified a variety of measures including improvement of traffic flow, removing conflict

points, improved signage and wayfinding and measures to guide vehicles around tight geometry. These measures are currently being implemented within the car park.

Diageo Transport Assessment (Ireland) (2008)

Simon was project owner in the preparation of a transport assessment as part of an EIS for a new brewery in Leixlip. This work included working closely with Diageo personnel to plan site access, circulation on internal routes, car and truck park planning and logistics. A comprehensive transport assessment has been carried out for the proposed development reviewing the existing and future operation of the local road network based on an estimation of new car and heavy vehicle trips generated by the brewery.

Poolbeg Peninsula Planning Scheme (Ireland) (2008)

Simon was project manager for the transportation services on a planning scheme for the Poolbeg Peninsula for the Dublin Docklands Authority. The project includes a review of the existing transportation environment, the identification of opportunities and constraints, the development of a multi modal model to assist the assessment, carrying out a transportation assessment, development of a master plan and public consultation.

Siobhán Deery – Director and Senior Cultural Heritage Consultant

MA (Hons), H-Dip, MIAI

- University College Dublin, Bachelor of Arts Degree in Archaeology and Geography, 1996
- Trinity College Dublin, Higher Diploma in Education, 1999
- University of Leicester, Master's Degree in Archaeology & Heritage, 2010.
- The Honourable Society of King's Inn, Advanced Diploma in Planning and Environmental Law, 2021
- Licence eligible archaeologist
- Certificate in Archaeology & the Rural Environment (University of Oxford), 2003;
- Certificate in Assessment of the Setting of Heritage Assets (University of Oxford), 2013
- Certificate in Condition Surveys of Historic Buildings (University of Oxford), 2017
- ISTA Conflict Management Workshop 2011
- Photoshop Digital Imaging, FAS 2010. City & Guilds Cert. AutoCAD, 2001
- ETP Ireland Ltd., Structured Management Workshop, 2003
- La Touche Salon Bond, Oral Hearing Skills Training, 2003
- Member, Institute of Archaeologists of Ireland, Member of the International Council of Monuments and Places
- Certificate in PSCS, Safe Pass registered, certificate in emergency first aid

Cultural Heritage Consultant

Experience

Ms Deery has 23 years of experience and has carried out surveys and evaluations of archaeological monuments, buildings, sites and landscapes for the purposes of conservation, environmental impact assessment, management and development control. Ms Deery provides advice, assessment, management, protection and promotion on heritage related issues. Ms Deery has undertaken a significant variety of archaeological, architectural and cultural heritage EIA, EIR, LAP and SEA research and fieldwork, nationwide building surveys, and Historic Landscape Characterisation (HLC) studies. The experience gained in completing these projects and the numerous countrywide schemes has provided Ms Deery with an opportunity to accumulate a significant knowledge on identifying and communicating to all interested parties the uniqueness of the character of cultural heritage in various landscapes and cityscapes and the issues surrounding the treatment, protection and promotion of archaeological and architectural sites and remains in these environments.

Key Skills

Ms Deery has managed cultural heritage EIAR's for large scale infrastructural projects (such as roads, gas and water pipeline schemes including SID's and Strategic Housing Applications) and smaller schemes (Solar PV, Wind Farms and various development types) from the scoping stage and to research, field work, statement of impacts and mitigation measures for the EIA process through to oral hearing stage. She has written Cultural Heritage Assessment guidelines on behalf of EirGrid and has carried a heritage study on behalf of the Department of Culture, Heritage and the Gaeltacht on the integration of heritage assets into developments. Ms Deery has undertaken a significant variety of archaeological, architectural and cultural heritage EIAR, EIR, LAP and SEA research and fieldwork, nationwide building surveys and Historic Landscape Characterisation (HLC) studies. The experience gained in completing these projects and the numerous countrywide schemes has provided Ms Deery with an opportunity to accumulate a significant knowledge on identifying and communicating to all interested parties the uniqueness of the character of cultural heritage in various landscapes and townscapes and the issues surrounding the treatment, protection and promotion of archaeological and architectural sites and remains in these environments

Ms Deery is an experienced field archaeologist she has carried out numerous archaeological testing, monitoring and excavating a range of site types, settings and periods in both rural and urban contexts.

Technical Tasks & Relevant Experience

***Dublin Airport North Runway, assessment, geophysical survey testing consultation and planning compliance 2016-2017. Total Site Area: 261 hectares,
Client: Dublin Airport Authority***

The permitted North Runway at Dublin Airport is located to the north and parallel to the existing main runway in a development area of 261 hectares wholly owned by daa. In 2016 Ms Deery worked on behalf of the daa to assist in the successful discharge of its pre-planning archaeological conditions. An outline archaeological strategy to respond the An Bord Pleanála Archaeological Conditions was developed by Ms Deery in advance of the construction of the permitted runway. The purpose of the assessment was to identify as far as possible the nature and location of archaeological material within the lands associated with the development of the permitted North Runway, and to identify the impact of the proposed development on such archaeological material. Consultation with the National Monuments Service & the local authority was ongoing throughout the pre-compliance response process. A detailed geophysical survey carried out and 10 archaeological sites/areas were successfully defined. This was followed by licenced archaeological test excavation which informed a preconstruction and excavation strategy which was subsequently approved by the National Monuments Service and Fingal County Council. The work also included a programme archaeological monitoring of Site investigations (SI) works across the entirety of the site and a record of all the townland boundaries within the development area. The archaeological investigations were carried out on time and in budget, it also led to the early identification of the archaeological risk to the nationally significant project and also ensured the successful discharge of pre-planning archaeological planning conditions and allowed for the ensuring the efficient and timely commencement of the first phase of construction.

Routeing and EIS Studies

Grid Link Project, Constraints and Route Corridor Studies 2012-2015

Ms Deery managed the cultural heritage component for the Grid Link Project, a new 400kV high voltage power line linking Leinster and Munster for EirGrid via existing nodal points at Knockraha, Co. Cork and Dunstown, Co. Kildare via Great Island, Co. Wexford. The cultural heritage constraint study (EirGrid Project Development and Consultation Road Map Stage 1) is completed and the archaeological and architectural heritage constraints have been mapped and a cultural heritage data set created for the study area. This will influence the consideration of cultural heritage throughout each stage of this project. Initial consultation has taken place with the archaeological and architectural heritage statutory consultees. The route selection study evaluated the relationship of each archaeological site and recorded architectural heritage feature that lies on or close to each of the preferred route options. It provided a detailed description for each feature and appropriate mitigation measures. CDHC have on behalf of EirGrid has carried out 'Cultural Heritage Guidelines for Electricity Transmission Projects' that have been developed for EirGrid. We have devised a methodology for the assessment of setting which has been endorsed by the Department of Arts, Heritage, Regional, Rural and Gaeltacht Affairs.

Road Schemes

Ms Deery has considerable experience in the management of the cultural heritage component of EIAs for NRA (now TII) road schemes (following the TII Project Management Guidelines Phases 0/1,2,3 and 4) and motorway service areas (MSAs). This work has most recently included the assessment of proposed service areas for the M3 motorway in Co. Meath, and the N2 Slane Bypass, N52 Cloghan to Billistown constraints report and route selection study, Westmeath. Work on these projects incorporated detailed research, map analysis, aerial photography review, and examination of the RMP database, field inspection, and assessment of the archaeological potential within a variety of landscape types. It also involved the procurement and management of specialist studies including Geophysical Survey, monitoring and Lidar and World Heritage HIA.

Wind and Solar PV Farms

Ms Deery has most recently been focused on large scale wind energy projects where she has worked on wind farm planning applications in Emlagh in Co Meath (46 turbines) and Maighne in Co. Kildare (47 turbines) submitted under the SID Act and presented as an expert witness for the Emlagh Oral Hearing. Each study involved a detailed appraisal of the existing archaeological, architectural and cultural heritage environment, through desktop assessment and field inspection. In some case additional archaeological surveys were undertaken, such as geophysical survey and structural inspections, and their results incorporated into the reports. This provided an understanding of the potential significance and sensitivity of each environment, identifying the issues this potential may present for the proposed developments / schemes, and allowing appropriate mitigation measures to be recommended. Where necessary, consultation took place with the archaeological and architectural heritage statutory consultees.

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Profile

Tom is a Chartered Engineer with a total of 15 years of experience within the geotechnical sector having developed excellent skills in analytical design (including finite element analysis), project and team management.

Tom has significant and broad experience in the geotechnical sector, having developed key expertise in transport geotechnics (for road, rail, underground rail schemes, active travel and greenway schemes), deep excavations and shafts (primarily in the Middle East and London) and Energy Geotechnics (both for solar and wind farms).

Tom also specialises in earthwork stabilisation and has worked in asset management and design consultancy roles for both highways and rail projects.

Tom has 10 years' experience as geotechnical lead on a variety of projects with over 5 years of this experience as the lead geotechnical engineer in Fehily Timoney.

H&S

Tom has been responsible for the management of Design Health and Safety at all stages of projects from conception to construction completion both in the UK and Ireland. Tom has overseen Design Stage Health and Safety across different sectors, including ground engineering, roads and rail projects. Tom has undertaken the role of PSDP on a number of projects.

Key Skills

Tom's experience includes:

- Geotechnical Engineering
- Geotechnical Design
- Site Inspections
- Deep Excavations & Underground Structures
- Geotechnical Asset Management & Slope stabilisation
- Site Investigation

Previous Experience Essentials for This Project

Deep Excavations

- **Thames Tideway Tunnel Tender (West & Central Station) – Ferrovial Laing O'Rourke, 2014**
Geotechnical Designer producing geotechnical interpretative and tender design notes for Thames Tideway Tunnel West & Central section tender (total value approximately £300M – 500M for each section). Interpretation of ground investigation, production of characteristic design values, designer's risk assessment, preliminary design and input into the contractor's risk analysis. Leading a team of two engineers.
- **STEP Tunnel, Abu Dhabi – Samsung, 2011**
Design of circular shafts using Plaxis2D including uplift calculations and consideration of internal water pressure and structures. Mentoring a trainee engineer.

Key Information

Qualifications

MEng. (Distinction) Civil Engineering,
University of Surrey, 2008

BREEAM Infrastructure Assessor

Professional Memberships

Institution of Civil Engineers
(Member) 2015

Chartered Engineer (CEng), 2015

Employment History

2016- Present

Fehily Timoney & Company
Principal Geotechnical Engineer

2008 – 2016

Arcadis UK (Formerly Hyder
Consulting)

2004 – 2008

Hyder Consulting (Undergraduate)

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Whitechapel Station (Crossrail) – Crossrail, 2011**

Undertook geotechnical design on structures at Whitechapel Station. Work included finite element modelling and pseudo finite element modelling of deep box structures constructed using diaphragm walls with incoming and adjacent tunnels, pile design, 2D PFE modelling and design of multi-propped contiguous pile walls and preparation of geotechnical baseline reports.

- **Botanica Tower, Dubai & Al Quds Tower - Doha Select Group, 2010**

Completed a piled raft foundation design for a 40 storey structure in Dubai with 3 basement levels and a 100 storey tower with 5 basement levels and associated podium structures. Tom produced a finite element models (in MidasGTS) of the tower foundations in order to calculate settlement and pile forces and verified the results using several other computer packages.

- **Khatt Hotel, Ras Al Khaimah - Khatt Hotel, 2007**

On site as the supervising engineer at the Khatt Hotel, a ground and structural stabilisation project in the United Arab Emirates. Tom's responsibilities included daily supervision of micro-piling and retaining wall construction, monitoring of structural cracks and slope movements and general liaison with the Contractor's engineers on site to ensure compliance with specification.

- **Borough Green to Trosley Pipeline Directional Drilling, 2010**

Specification and supervision of ground investigation, preparation of a design report including settlement calculations for a directionally drilled pipeline below the M20 motorway in Kent. Liaison with the Highways Agency to ensure approval. Supervision of directional drilling works to ensure specified settlement criteria were met.

Dynamic Compaction

- **Al Falah Ground Improvement Scheme, Abu Dhabi - Fluor, 2009**

Settlement calculations based on the interpretation of CPT and Pressuremeter data and comparison against calculated trigger values to ensure adequate improvement of ground stiffness by dynamic compaction methods. This scheme was, at the time, thought to be the largest ground improvement scheme in the world.

Roads

- **N19 Shannon Airport Access Road, Ongoing**

Associate Geotechnical Director geotechnical assessments as part of Phase 1-4 of the EIAR process. Scope, procure and manage the detailed ground investigation for the scheme, involving scheduling of laboratory testing on soil and rock samples, including soft ground. Provision of a GIR and GDR for the scheme.

- **Dunkettle Interchange, Ongoing**

Principal Engineer for the reconfiguration of the Dunkettle Interchange to a free flowing interchange including:

- A series of direct road links between the N8, the N25 and the N40 and links to the R623 Regional Road in Little Island and Burys Bridge in Dunkettle;
- 1 grade separated junction arrangement at the existing N25 to the east of the existing Dunkettle Interchange;
- 4 roundabouts – 2 at the grade separated junction and 2 at tie ins with the existing road network;
- 51 major structures of various forms;
- Several culverts where the scheme crosses watercourses or intertidal area
- Pedestrian and cyclist facilities; and
- Modification of the existing Silversprings junction on the N8 Lower Glanmire Road

Geotechnical lead for structures foundations and approximately a third of the earthworks. Responsible for the scoping of the ground investigation, preparation of specification and bill of quantities, managing a team of supervisors on site, laboratory testing scheduling and interpretation of two phases of extensive ground investigation for this significant infrastructure project.

- **A737 Dalry Bypass - Farrans-Roadbridge, Ongoing**

Tom has been responsible for project management of the design of the Dalry Bypass during the latter design phase and through construction to date. He has acted as a geotechnical auditor and internal checker for earthworks packages delivered. Tom also undertook design of a pipeline protection slab related to SGN infrastructure crossing the proposed alignment.

- **Manchester Smart Motorway - Highways England, 2014**

Completion of a Preliminary Sources Study and detailed design for gantries and retaining structures for a £208M "Smart motorway" scheme on the M60/M62. Leading a team of two graduate engineers and up to three engineers based in India. The role involved the development of characteristic design values, pile group analysis for all gantries and design of retaining structures on sloping ground. Preparation of Design Risk Assessments for all designs.

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Geotechnical Asset Management Plan – Highways England, 2013**

Tom completed a full review of the asset inventory in Mac Area 3, prioritised earthwork repairs based on the Value Management Plan, risk profiling and available economic and physical resources and produced a five-year plan for earthwork remedial works across the area.

- **Area 3 Value Management Plan – Highways England, 2013**

Tom undertook detailed design a sheet pile based widening scheme to facilitate a new slip road at Milton Interchange which was in turn related to a new housing development adjacent to the site. This included the use of retaining wall design software, specification, Designer's risk assessments (in accordance with CDM regulations) and all other documentation for a "For Construction" set of documents.

- **Area 3 Principal Earthwork Inspections– Highways England, 2013**

Tom managed a team of 3 Geotechnical Engineers to undertake Principal Inspections (and undertook inspections himself) across the Area 3 network across two annual inspection cycles, totalling some 500 miles of highway geotechnical asset. Tom used a PDA on site to enter information into the Highways England HAGDMS database and then carried out quality control assessments on the data. Tom also trained other staff in the undertaking of geotechnical earthwork inspections. Tom produced a safety system for inspectors which complied with the Highways England methodologies for working on the highway which included a buddy and daily reporting system.

- **EM47609 – M4 J10 Granular Repair – Highways England**

Project Manager and design lead for a granular repair adjacent to a highway bridge at M4 J10. Tom undertook scoping and management of site investigation, supervision of site clearance and site investigation, undertook the role of Contractor on site from a health and safety perspective. Carried out detailed design and liaised with the site team to ensure compliance with the design.

- **M25 Rapid Widening – Highways England, 2006**

Undertook design of retaining walls, re-graded slopes, reinforced soil and soil nails using computer analysis programs to BS8002 and BS8004 for the Rapid Widening of a section of the M25 Orbital Motorway, London, UK.

- **A34 Milton Interchange Slip Road – Highways England, 2013**

Tom undertook detailed design a sheet pile based widening scheme to facilitate a new slip road at Milton Interchange which was in turn related to a new housing development adjacent to the site. This included the use of retaining wall design software, specification, Designer's risk assessments (in accordance with CDM regulations) and all other documentation for a "For Construction" set of documents.

Chieveley Pond Flood Alleviation Scheme – Highways England, 2013

Project Manager for the undertaking of ground investigation at Chieveley Ponds, which involved the completion of boreholes and the installation of water level data loggers to assess the viability of an alleviation scheme for road surface flooding at the junction. Tom completed the ground investigation tender and completed CDM documentation for same.

- **M27 Romsey Bridge– Highways England, 2013**

Project Manager for the replacement of an existing bridge structure. This project included the consideration of the re-use of bridge abutment piles and an assessment of load takedown for a new structure. Tom also undertook scoping and specification of ground investigation at the site as well as preparation of CDM documentation for same.

Rail (Summary)

- **Wessex CP5 Design Manager Role – Network Rail, 2015**

Project Manager of 10+ schemes totalling £1M+ of design fee. Tom coordinated a multi-disciplinary design team and liaised closely with a co-located team from the client (the contractor) and NR. Tom administered the contract (early warning notices, change controls etc.), compiled fee proposals, created and maintained a programme and managed client expectations. Tom was also responsible for ensuring that all design team risk assessments were completed and collated in accordance with CDM regulations.

Wessex CP5 Technical Lead Role – Network Rail, 2017

Design lead of a team of up to 5 geotechnical engineers and CAD staff producing designs for multiple earthwork stabilisation projects in the NR Wessex region of total values ranging from £200k to £2M. Tom produced Option and Feasibility Reports and ground investigation specifications. Tom adhered to the NR design process (Form 001, 002 and 003) to produce detailed designs for earthwork schemes including soil nailing, sheet piling, gabions and king post walls. Tom also produced Designer's Risk Assessments for each scheme.

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

Rail (Expanded)

- **Allington – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager for this railway embankment stabilization project in Hampshire, UK. The design utilized sheet piles and regarding to provide cess retention and stabilize a slope which had been subject to signification rotational failures and track misalignment. This project was completed through Network Rail's GRIP process from conception to final detailed design.

- **BKE Line – Osborne (Network Rail Framework), 2016**

Tom used his extensive experience in earthwork slope stability in the London area to develop a set of key indicators for slope instability (including geology, slope geometry, ballast depths, train rough ride reports etc.) and then, using the extensive data available in the Network Rail records, developed a rating system for the BKE line which identified areas of high risk for slope instability. This system was developed using ArcGIS Online and provided Network Rail with real time access to the information in graphical format as information layers on a map.

- **Bracknell Slope Stability Assessment – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager / Lead for this slope stability assessment for a failing slope at Bracknell, Berkshire, UK. Tom carried out a visual inspection, scoped ground investigation and undertook monitoring of adjacent drainage and structural assets in order to determine the likely cause of the slope failure.

- **Cess Retention Improvement – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager / Lead for this report which investigated cess retention measures (including gabions, king post walls, ruglei system, sheet piles etc.) and looked at their advantages and disadvantages. Standard details were also provided.

- **Firwood – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager / Lead for this slope stabilisation project at Firwood, UK. The project involved the construction of a king post cess retention system to prevent further movement of the tracks due to overfilled ballast. The project was completed from conception to completion on site.

- **Grayswood – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager / Lead for this slope stabilisation project at Grayswood, Hampshire, UK. The project involved the use of sheet piles and a combined cess / surface water drainage system in order to provide stability for a long stretch of railway which had been the site of several slope failures in recent years. The project was completed from detailed design stage up until completion on site.

- **Liphook Station – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager / Lead for this slope stabilisation project at Liphook, Hampshire, UK. The project was split into two sections, the first was an emergency works scheme where a temporary bagwork support system was installed prior to a permanent works design consisting of a gabion wall and regrade solution. The project was completed from detailed design stage up until completion on site.

- **Wessex Rapid Response – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager / Lead for the development and management of the Wessex Rapid Response system which involved the generation of standard designs and a rota system for weekend and holiday periods during the winter. Solutions involving gabions, bagwork and sheet piles were proposed and designed for standard situations that could be used in an emergency situation. Tom also administered the rota and responded to emergency schemes during this time. Notable emergency projects included the Liphook Embankment, Botley Embankment Failure and Wrecclesham slope failure.

- **West Clandon – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager/Lead for this slope failure at West Clandon, Surrey, UK. The project involved the repair of an existing repair which was failing and encroaching on the tracks at West Clandon. The solution involved the use of sheet piles to the rear of the cut and a regrade to the front to ensure a sufficient factor of safety and divert substantial surface flows to a nearby stream. Tom completed this project from initial site visit to completion on site.

- **Withy Beds Feasibility Study – Osborne (Network Rail Framework), 2016**

Tom undertook a feasibility study for this 1.5km long site in Surrey, UK which had been subject to multiple slow failures throughout recent times. Tom proposed a set of solutions, including cess retention, soil nailing and sheet piling at different areas depending on local conditions. Tom used GPR to identify the depth of ballast and as an indicator for potential slope stability issues and previous settlement.

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Wrecchesham Emergency Works – Osborne (Network Rail Framework), 2016**

Tom was the Project Manager and Geotechnical Design Manager / Lead for this emergency works slope failure at Wrecchesham, Hampshire. Tom undertook a site visit, scoped ground investigation and managed the procurement of site investigation. Tom then provided Network Rail with a temporary design and permanent design for the scheme and liaised with Network Rail and the contractor throughout the construction of the temporary design (which consisted of a tied back sheet pile wall with deadman anchors).

Peatland Restoration

- **Derryclare Peat Restoration Project – MKO/Coillte, 2023**

Associate Geotechnical Director for this peat bog restoration project in Co. Galway. Work included peat stability assessment, peat probing.

Flood Defences

- **IDA Limerick Flood Alleviation Scheme – IDA, 2021**

Lead Geotechnical Engineer for this flood defence scheme. Responsible for scoping, procuring, supervising site investigation consisting of trial pits, boreholes, geophysics and laboratory testing. Scheduling of laboratory testing. Interpretation of ground investigation and inputs to preliminary design for flood defence scheme.

- **Titchwell Marsh, Norfolk – RSPB, 2021**

Acted as consultant's representative on site at RSPB Titchwell Marsh for this flood defence and managed retreat scheme aiming to create new saltmarsh and protect existing Freshwater marsh, liaising with the client and the contractor and managing site queries, design changes (including updates to Design Risk Assessments) and payment certification to the contract.

Greenways

- **Grand Canal Greenway Phases 1 & 2, Ongoing**

Associate Geotechnical Director responsible for the design of works for the Grand Canal Greenway Phases 1 & 2. The projects include the design, procurement and construction supervision for walking and cycling routes along the grand canal, including new pedestrian bridges, canal bank widening, pavement design, under bridge crossings and design of trail heads. Total length is approximately 40kms. Scope included scoping, procuring, supervising site investigation consisting of trial pits, boreholes, geophysics and laboratory testing. Scheduling of laboratory testing.

- **Wexford to Rosslare Greenway, 2020**

Associate Geotechnical Director responsible for the route selection, preliminary design, environmental assessment and statutory consent processes for the greenway. The Wexford Town to Rosslare Strand Greenway route will commence in the vicinity of proposed Trinity Wharf development in Wexford Town and extend in southerly direction over an approximate distance of 10-12km to terminate at Rosslare Strand Train Station.

- **Limerick Greenway Limerick, €10M, 2022**

Associate Geotechnical Director for the design of improvement works to 40km of the great southern greenway in Limerick. Works include widening, resurfacing, over bridges and under passes, drainage improvements and trailhead design. Scope included scoping, procuring, supervising site investigation consisting of trial pits, boreholes, geophysics and laboratory testing. Scheduling of laboratory testing. The design phase has been completed and the project is commencing construction.

- **Barrow Blueway Road Crossings, €TBDM, Ongoing**

Associate Geotechnical Director for the design of road crossings and new pedestrian bridges associated with the Barrow Blueway. Scope included scoping, procuring, supervising site investigation consisting of trial pits, boreholes, geophysics and laboratory testing. Scheduling of laboratory testing.

Wind

- **Ballivor Wind Farm – MKO, 2023**

Associate Geotechnical Director for this Peat Stability Assessment and Peat & Spoil Management Plan for EIAR submissions. Site walkover, collation of data, stability assessment, assessment of peat and spoil volumes. Scope, procure and supervision of ground investigation on peatland site and scheduling of laboratory testing.

- **Sheskin South Wind Farm – MKO, 2023**

Associate Geotechnical Director for this Peat Stability Assessment and Peat & Spoil Management Plan for EIAR submissions. Site walkover, collation of data, stability assessment, assessment of peat and spoil volumes. Scope, procure and supervision of ground investigation on peatland site and scheduling of laboratory testing.

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Glenora Wind Farm – MKO, 2023**
Associate Geotechnical Director for this Peat Stability Assessment and Peat & Spoil Management Plan for EIAR submissions. Site walkover, collation of data, stability assessment, assessment of peat and spoil volumes. Scope, procure and supervision of ground investigation on peatland site and scheduling of laboratory testing.
- **Croaghaun Wind Farm, 2022**
Associate Geotechnical Director for the production of EIAR Soils & Geology Chapter for this wind farm project.
- **Coom Green Energy Development, 2020**
Associate Geotechnical Director for the production of EIAR Soils & Geology Chapter for this wind farm and solar energy project in Co. Cork. Included the scoping, specification, procurement, supervision, management and interpretation of ground investigation and scheduling of laboratory testing.
- **Derrinlough Wind Farm – Bord na Mona, 2022**
Associate Geotechnical Director providing geotechnical advisory to Bord na Mona for this wind farm project. Included the completion of laboratory testing schedules to allow detailed design of all elements of the works on this project.
- **Kilgallioch Wind Farm, Farrans, 2018**
Tom took over the Project Manager role for this award winning 96 turbine wind farm project in Scotland towards the end of the construction stage and was responsible for closing out as-built drawings. Tom also undertook the role of Geotechnical Design Lead for a replacement turbine foundation at one location and undertook the formation inspection during the construction of this turbine.
- **Derrysallagh Wind Farm Substitute Consent – Kilronan Wind Farm Ltd, 2018**
Tom was the Geotechnical / Geology Lead for the preparation of a Soils, Geology and Hydrogeology chapter for a retrospective EIS relating to the construction of an electrical cable route from Derrysallagh Wind Farm to a nearby electrical sub-station. As part of this assessment, Tom undertook a full desk study, site visit and provided an assessment of potential and cumulative impacts of the development (including with the wind farm development itself) and mitigation measures that could be implemented.
- **Gortfinbar Phase 2 – Moriarty Civil Engineering Contractors, 2017**
Tom acted as Category III checker for a piled turbine base foundation at this Northern Irish Wind Farm. Tom carried out an independent set of calculations and provided comments to the Designer. Tom also provided slope stability assessments for access road rock cuttings.
- **Teevurcher Wind Farm - Roadbridge, 2017**
Tom was the Lead Geotechnical Designer for this 5 turbine wind farm in Co. Meath and carried out full interpretation of the ground investigation and geotechnical design for all turbine foundations, hardstandings, access roads, substation foundations and met mast. Tom also provided construction stage support, formation inspections and verification of geotechnical testing for all of the above elements.
- **Meenwaun Wind Farm - Roadbridge, 2017**
Tom was the Lead Geotechnical Designer for this 4 turbine wind farm in Co. Offaly and carried out full interpretation of the ground investigation and geotechnical design for all turbine foundations, hardstandings, access roads, substation foundations and met mast. Tom also provided construction stage support, formation inspections and verification of geotechnical testing for all of the above elements.
- **Proposed Wind Farm, Co. Kerry – Joam Consulting Ltd, 2016**
Tom was the Project Manager for this peat stability assessment for a proposed wind farm in Co. Kerry. Tom oversaw the conducting of peat probing and field visits to the site and the preparation of a peat stability assessment in line with Scottish guidance on the preparation of Peat Stability Assessments. This project also involved the 3rd party check of a soil, geology and hydrogeology chapter prepared by others.
- **Raragh Wind Farm – Mainstream Renewables, 2016**
Tom was the Geotechnical / Geology Lead for the preparation of a Soils, Geology and Hydrogeology chapter for an EIS relating to the construction of an electrical cable route from Raragh Wind Farm to Kingscourt, Co. Cavan. As part of this assessment, Tom undertook a full desk study, site visit and provided an assessment of potential and cumulative impacts of the development (including with the wind farm development itself) and mitigation measures that could be implemented.

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Proposed Wind Farm, Co. Donegal – Element Power, 2016**

Tom was the Geotechnical / Geology Lead for the preparation of a Peat Stability Assessment for an EIS relating to the construction of a Wind Farm in Co. Donegal which was a proposed as an 8 turbine site. Tom oversaw the conducting of peat probing and field visits to the site and the preparation of a peat stability assessment in line with Scottish guidance on the preparation of Peat Stability Assessments

Contaminated Land and Waste

- **Whitestown Landfill Remediation Project, Ongoing**

Tom was Lead Geotechnical Engineer for ground investigations carried out on this significant landfill site in Co. Wicklow. Investigation involved a grid of trial pits (100+) with environmental testing, installation of groundwater monitoring wells and investigation boreholes (89 no.) across the site and extensive geophysical investigation using seismic refraction, electrical resistivity and ground conductivity. Works included the scoping of the SI, preparation of extensive specification and tender documents, procurement of ground investigation contractors, management of the supervision of the works and interpretation of the ground investigation fieldwork.

- **Dublin Airport Environmental Assessment – daa (on behalf of Roadbridge), 2018**

Tom has been Project Manager for this environmental investigation project which involved the use of a mix of geophysical and intrusive investigation to map buried waste across a 261-hectare area on the outskirts of the Airport and then the use of environmental sampling to inform disposal and re-use of the materials encountered. Tom led a team including geo-environmental and waste teams and liaised with site investigation contractors.

- **Timoole Landfill Remediation Tender Design – Priority Construction, 2018**

Tom has been the Project Manager and Geotechnical Lead for this remediation design for the removal of 40,000+m³ of assorted waste materials from a site in Co. Meath. The project involved use of the Observational Method for the ongoing assessment of slope stability, with mitigation measures including sheet piling and the construction of berms and dewatering trenches included in the design should signs of instability occur.

- **Dublin Airport Stockpile Soil Classification – daa (on behalf of Ramboll), 2018**

Tom was the Project Manager for this Soil Classification project relating to 70,000+m³ of mixed stockpiles and made ground at Dublin Airport. Tom undertook the management of environmental engineers, site investigation contractors and laboratories in order to produce a Soil Classification Report as part of the tender for removal and disposal of these soils as waste materials.

- **Newhaggard Soil Classification – Fingal County Council, 2018**

Tom was the Project Manager for this Soil Classification project near Lusk, Co. Dublin. 41,000m³ of soil had been deposited previously within the Rogerstown Estuary and the project involved the classification of these soils for re-use, both in terms of contaminants and from a geotechnical point of view. Tom managed sub-contractors to carry out site investigation and staff to prepare a Soil Classification Report.

- **Ballyogan Landfill, 2017**

Tom was the Geotechnical Slope Inspector for this landfill, which included a visual inspection of all side slopes and reporting on any slope stability issues to satisfy the EPA waste licence criteria.

- **Balleally Landfill, 2017**

Tom was the Geotechnical Slope Inspector for this landfill, which included a visual inspection of all side slopes and reporting on any slope stability issues to satisfy the EPA waste licence criteria.

- **Dunsink Landfill, 2017**

Tom was the Geotechnical Slope Inspector for this landfill, which included a visual inspection of all side slopes and reporting on any slope stability issues to satisfy the EPA waste licence criteria.

- **Gortadroma Landfill Slope Stability, 2017**

Tom was the Geotechnical Slope Inspector for this landfill, which included a visual inspection of all side slopes and reporting on any slope stability issues to satisfy the EPA waste licence criteria.

H&S

- **Loughshinny Waterbath Upgrades, Ongoing**

Tom is currently undertaking the role of H&S Coordinator for this gas upgrade project.

- **Gormanstown Boiler Upgrades, Ongoing**

Tom is currently undertaking the role of H&S Coordinator for this gas upgrade project.

Tom Clayton

Associate Director (Geotechnical)

DESIGNING AND DELIVERING
A SUSTAINABLE FUTURE

- **Diswellstown AGI Upgrades, Ongoing**
Tom is currently undertaking the role of H&S Coordinator for this gas upgrade project.
- **Belview AGI Upgrade**
Tom undertook the role of PSDP for the upgrade of this Above Ground Installation (AGI) at Belview, Dublin.
- **Nangor Road AGI Upgrade**
Tom undertook the role of PSDP for the upgrade of this Above Ground Installation (AGI) at Nangor Road, Dublin
- **4Bar in Building Upgrade Programme, Going**
Tom is currently undertaking the role of PSDP for the upgrade of this extensive residential and commercial property gas upgrade programme throughout Ireland.
- **A737 Dalry Bypass – Farrans Roadbridge, Ongoing**
Tom is currently undertaking the role of Principal Designer during the construction stage of this 4km long new build Bypass in Scotland which includes a multi-span viaduct structure, roundabouts, overbridges, underbridges and other associated highway infrastructure. This role includes liaison with multiple design teams and contractor's temporary works coordinator.
- **Dublin Airport 5H Apron, Ramboll**
Tom undertook the role of PSDP for Fehily Timoney on this extension to the existing apron at Dublin Airport. Tom has liaised with all Designer's at design phase to ensure compliance with the regulations and prepared Preliminary health and safety plans for various works packages.
- **Centre Parcs Feeder Main - Fingleton White**
Tom acted as PSDP and as Geotechnical / Geology lead for this new gas main linking Center Parcs into the gas grid. The scheme is in multiple phases, with ground investigation phase, 1st phase and 2nd phase being undertaken. Tom's role includes liaison with designers and contractors, attendance at all progress meetings, site visits and other communication required to undertake the role. Tom also undertook the Soils, Geology & Hydrogeology chapter during the planning process for the scheme.
- **Mitchelstown Biomethane Plant- Fingleton White**
Tom undertook the role of PSDP during the preliminary design phase for this biomethane injection facility in Co. Cork. Tom also was responsible for the geotechnical team who scoped, procured and managed the site investigation for the project and produced a Geotechnical Investigation Report summarising the geotechnical interpretation and design inputs.
- **Ballincollig AGI Upgrade - Fingleton White**
Tom undertook the role of PSDP during the construction phase for the upgrade of this Above Ground Installation (AGI) at Ballincollig, including preparation of the safety file and liaison with the contractor.
