

Dear Sir / Madam

Cushaling Wind Farm, Cushaling, Co. Offaly.

I am writing to introduce Adman Civil Projects Ltd and myself, Oisin Boyle, as the Project manager responsible for the Construction of a 9 Turbine Windfarm for Cushaling Wind Farm.

Generally, there is no activity on the site outside the hours of 7:00am – 7:00pm. However, as the project progresses, there are a number of isolated occasions that the site will have to work outside of these hours. Those occasions are on the days of the Turbine Foundation concrete pours. There will be only 9no days which these concrete pours will take place. These pours will commence at 5:00am.

The concrete pours are expected to start Early September and will continue until mid – late November.

There will also be deliveries of precast concrete beams on occasional dates in the months of September and October.

Concrete deliveries and any other deliveries associated with the wind farm construction will be delivered to the site using the L3001 from Rathangan.

- T9 Pour 1 – 07/09/2023
- T1 Pour & T9 Pour 2 – 14/09/2023
- T8 Pour 1 & T1 Pour 2 – 21/09/2023
